EXECUTIVE SUMMARY	S1-S8
CHAPTER I	1
1. INTRODUCTION	1
1.1 Purpose of the report	1
1.2 Stage of project preparation	1
1.3 Project environment and socio-economic objectives	1
1.4 Project background	2
1.5 Scope and Brief outline of the contents of the report	2
1.6 Methodology	3
CHAPTER II	5
2. LEGISLATION AND REGULATIONS FRAMEWORK	5
2.1 Key Agencies	5
2.2 EIA Process in Cambodia	5
2.3 Legislation and Guidelines	6
A) Constitution of Kingdom of Cambodia, 1993	6
B) Law on Environmental Protection and Natural Resources Management	7
C) Preah Reach Kret (Royal Decree) on Natural Protected Areas	7
D) Sub-Decree on Environmental Impact Assessment Process	8
E) Sub-Decree on Water Pollution Control	9
F) Sub-Decree on Solid Waste Management	10
G) Land Law	10
H) Forestry Law	11
I) Law of Water Resources Management	12
J) National Water Resources Policy	13
K) 1995 Mekong Agreement and Procedural Rules, MRC	14
CHAPTER III	15
3. PROJECT DESCRIPTION	15
3.1 Type of project	15
3.2 Need for project	15
3.3 Location	16
3.4 Size or magnitude of operation	16
3.5 Proposed schedule	18
3.5.1 Preparation	18
3.5.2 Construction	18
3.5.3 Operation	18
3.6 Description of the project	18
CHAPTER IV	19
4. BASELINE ENVIRONMENT	19
4.1 Physical environment	19
4.1.1 Atmosphere	19
4.1.2 Topography and soils	22
4.1.3 Hydrology	22
4.1.3.1 Surface water	22
4.1.3.2 Groundwater	30

This item belongs to the
Open Development Cambodia Library

4.1.4	Geology/Seismology	33
4.1.5	Sedimentation	34
4.2	Ecological Resources	35
4.2.1	Fisheries	35
4.2.1.1	<i>Survey and PRA</i>	35
4.2.1.2	<i>Study results</i>	36
	a) <i>Fishing Gears and Methods</i>	36
	b) <i>Fish Species Recorded from PRA and Survey</i>	36
	c) <i>Fish Species Caught by Selected Fishermen</i>	37
	d) <i>List of Rare Fish Species</i>	38
	e) <i>Fish Movement</i>	41
	f) <i>Fish Yield / Production</i>	42
	g) <i>Fishing Activities and Consumption</i>	47
	h) <i>Fish yield</i>	47
	i) <i>Conclusions</i>	48
4.2.2	Aquatic biology	50
4.2.3	Wildlife	51
4.2.3.1	<i>Habitat characteristics</i>	51
4.2.3.2	<i>Mammal</i>	53
4.2.3.3	<i>Birds</i>	55
4.2.3.4	<i>Reptiles</i>	56
4.2.3.5	<i>Present status of terrestrial ecology</i>	56
	a) <i>Logging and non-timber forest products collection</i>	56
	b) <i>Land use change</i>	57
	c) <i>Human activities</i>	59
	d) <i>Hunting</i>	59
4.2.4	Forests	60
	A) <i>Major types of forest</i>	64
	B) <i>Forest products and by-product</i>	69
4.2.5	Rare or endangered species	69
4.2.6	Protected areas	71
4.3	Economic development	72
4.3.1	Industry	72
4.3.2	Infrastructure	74
4.3.2.1	<i>Water supply and Sanitation</i>	74
4.3.2.2	<i>Power sources and transmission</i>	74
4.3.3	Transportation	75
4.3.3.1	Road networks	75
4.3.3.2	Airport	76
4.3.3.3	Harbor	76
4.3.3.4	Navigation	76
4.3.4	Land use	77
4.3.5	Agricultural development	80
4.3.6	Tourism facility	82
4.4	Social and cultural resources	83
4.4.1	Population	83
4.4.2	Health facility	84
4.4.3	Education facility	86
4.4.4	Socio-economic condition	88
CHAPTER V		90
5. ALTERNATIVES		90
5.1	Dam site alternatives	90
5.2	Topographical and geological conditions of dam site alternatives	91

5.3	Reservoir level (full supply) alternatives	93
CHAPTER VI		97
6.	ENVIRONMENTAL IMPACTS AND MITIGATION MEASURES	97
6.1	Negative Impacts	97
6.1.1	Project design/Pre-construction phase	97
6.1.2	During construction phase	105
	<i>a) Impact on Physical Resources</i>	105
	<i>b) Impacts on Ecological Resources</i>	108
	<i>c) Impact on Social and Economic Development</i>	110
	<i>d) Impacts on Cultural Resources and Quality of Life</i>	113
	<i>e) Other Impacts</i>	114
6.1.3	During operation phase	115
	<i>a) Impacts on Physical Resources</i>	115
	<i>b) Impacts on Ecological Resources</i>	118
	<i>c) Impact on Social and Economic Development</i>	120
	<i>d) Impact on Cultural Resources and Quality of Life</i>	124
6.2	Cumulative Impacts	126
6.3	Positive Environmental Impacts	130
6.4	Summary of key environmental impacts and mitigation measures	131
CHAPTER VII		133
7.	PUBLIC CONSULTATION	133
7.1	Public Consultation	133
7.1.1	First public consultations	133
7.1.2	Second Public Consultation	135
7.2	Stakeholders Meeting	137
CHAPTER VIII		144
8.	ENVIRONMENTAL MANAGEMENT PLAN (EMP)	144
8.1	Institutional arrangement	144
8.2	Potential Environmental Impacts and Mitigation Measures	145
8.3	Monitoring Program with monitoring cost	159
CHAPTER IX		165
9.	ECONOMIC ASSESSMENT	165
9.1	Hydro-energy and energy economic calculation for dam site alternatives	165
9.2	Selection of dam site	166
9.3	Selection of Full Supply Level	167
9.3.1	Limits on elevation of design water level	167
9.3.2	Basic parameters in calculation and selection of FSL	168
9.3.3	Quantity of main work for FSL alternative	169
9.3.4	Quantity of main works and cost of MOL alternatives	169
9.4	Natural resources in social value	170
9.4.1	Annual total livelihood obtain from natural fish	170
9.4.2	Annual total livelihood obtain from the forest products	171
9.5	Natural resources in environmental value	171
CHAPTER X		175
10.	CONCLUSIONS AND RECOMMENDATIONS	175
10.1	Conclusions	175
10.2	Recommendations	176

List of Annex

Annex 1A: - Agenda of the Ninth Meeting of the VIETNAM-CAMBODIA Joint Commission for Economic, Cultural, Scientific, and Technological Cooperation, Phnom Penh 21 August 2007

- Memorandum of Understanding for the Feasibility Study of Lower Sesan 2 Hydropower Project between the Ministry of Industry Mines and Energy of the KINGDOM OF CAMBODIA and Vietnam Electricity of the SOCIALIST REPUBLIC OF VIETNAM.

Annex 1B: - Permission License for KEY CONSULTANTS (CAMBODIA) Ltd for Research Study and Prepare EIA Report Permission Letter for field research study for Lower Sesan 2 Hydropower project in Stung Treng province Requesting letter to Stung Treng and Ratanakiri provinces for cooperation and security protection for the study company PECC1 of EVN for feasibility study of Lower Sesan 2 Hydropower project.

Annex 1: Result of ambient air quality and result of water quality

Annex 2: Tree species name and List of endangered species in the Northeast and Eastern Cambodia

Annex 3: Forest counting form, Navigation counting form; and Question discussion for the 1st Public Consultation.

Annex 4: Environmental checklist for hydropower development, ABD, 2003; Meeting program for 2nd PC in Stung Treng; and Invitation list 2nd PC in Stung Treng.

Annex 5: List of participant in public consultations; and List of meeting people during study time.

Annex 6: Cost estimation for the environmental mitigation and monitoring

List of Appendix

Appendix 1: IEIA/EIA report guideline MoE and ToR by PECC-1

Appendix 2: Fish study report

Appendix 3: Terrestrial wildlife study report

Appendix 4: Socio-Economic survey report
