Impact Agenda

We're building a better *business*, to better the *world*. Through our Impact Agenda, we're staying true to our Mission in three interconnected ways: Empowering health and well-being to help lay the essential foundation of a good life. Driving inclusive economic opportunities to create a more even playing field for all. Accelerating a sustainable future to preserve the planet we all share.

This work benefits our business, our planet, and the people who call it home. United in the pursuit of our common goals, we're building a better business to better the world.

Impact Agenda Pillars

Sustained Health and Well-being

Make healthier behaviour choices easier and more accessible by providing advice and solutions to drive financial security.

Driving Inclusive Economic Opportunity

Accelerate the upward mobility of underrepresented groups and contribute to making financial solutions accessible to everyone.

Accelerating a Sustainable Future

Support the transition to a net zero economy and protect and grow the value of nature based solutions.

Climate

We are actively incorporating climate change considerations into our decision making, including how we manage our operations, how we make investment decisions, and how we develop and offer financial products and services.

Community investment

As part of our impact agenda, we are dedicated to advancing positive, measurable social and environmental change. Through our community investments, we work with organizations to foster healthier, more inclusive communities across our three interconnected strategic focus areas.

Our approach to community investment takes many forms, including direct funding, employee giving and volunteering, which leverage skills-based activities and matching programs.
