

## ELECTRICITY AUTHORITY OF CAMBODIA

## REPORT ON POWER SECTOR OF THE KINGDOM OF CAMBODIA

2015 EDITION

Compiled by Electricity Authority of Cambodia  
from Data for the Year 2014 received from Licensees

**ELECTRICITY AUTHORITY  
OF CAMBODIA**

**REPORT  
ON  
POWER SECTOR OF  
THE KINGDOM OF CAMBODIA  
2015 EDITION**

**Compiled by Electricity Authority of  
Cambodia from Data for the Year 2014  
received from Licensees**

## **Preface**

The Annual Report on Power Sector of the Kingdom of Cambodia 2015 Edition is compiled from informations for the year 2014 available with EAC and received from licensees, MME and other organizations in the power sector. The data received from some licensees may not be up to the required level of accuracy and hence the information provided in this report may be taken as indicative.

This report is for dissemination to the Royal Government, institutions, investors and public desirous to know about the situation of the power sector of the Kingdom of Cambodia during the year 2014.

With addition of more HV transmission system and MV sub-transmission system, more and more licensees are getting connected to the grid supply and expanding their area of supply. This has resulted in supply to more consumers and improvement in quality of supply. By end of 2014, almost 98% of the consumers are connected to the grid system. More licensees are now supplying electricity for 24 hours a day. The grid supply has reduced the cost of supply and consequently the tariff for supply to consumers. Due to lower cost and other measures taken by Royal Government of Cambodia, in 2014 there has been a substantial increase in the number of consumers availing electricity supply. As reported by the licensees, the number of consumers by end of 2014 is 1,424,735; which is almost 18.8 % higher than the number reported in 2013. During 2014, Time of Use tariff for MV consumers of EDC connected to National Grid has been introduced on an optional basis.

Any comments or suggestions to improve the Annual Report published by EAC from Royal Government, institutions, investors or public are welcome and will be considered by EAC to publish more useful reports in future reflecting the actual situation of the sector.

EAC expects that this report will be a valuable document for the information for the year 2014 on the power sector of the Kingdom of Cambodia.

**Chairman**  
**Electricity Authority of Cambodia**

## Table of Contents

<b>CHAPTER 1 Basic Law and Regulations in power sector management in the Kingdom of Cambodia .....</b>	<b>6</b>
1.1 Electricity Law of the Kingdom of Cambodia .....	6
1.2 Responsibilities of the Ministry of Mines and Energy and Electricity Authority of Cambodia in power sector .....	6
1.3 Duties of the Electricity Authority of Cambodia in the Power sector .....	7
1.3.1 Regulation of the Electric Power Services .....	7
1.3.2 Governance of Relation Between Delivery, Receiving and Use of Electricity .....	8
1.3.3 Powers and Duties of Electricity Authority of Cambodia .....	8
1.3.4 Legal Documents for Governing and Regulating Electric Power Services and Use of Electricity .....	9
<b>CHAPTER 2 Information on Electricity Authority of Cambodia – the Regulator for the Power Sector in the Kingdom of Cambodia .....</b>	<b>13</b>
2.1 Regulator in Power Sector .....	13
2.2 Organization of Electricity Authority of Cambodia .....	13
2.3 The Budget of EAC and License Fees .....	14
2.4 Financial Statements of EAC .....	15
<b>CHAPTER 3 Information on Licenses and Licensees in the Kingdom of Cambodia .....</b>	<b>17</b>
3.1 Licenses for Providing Electric Power Services .....	17
3.2 Licenses issued, Revoked and Type Changed During 2014 .....	18
3.3 Revision of Licenses .....	19
3.4 Licenses During the Decade .....	19
3.5 Efforts of Government of Cambodia, Rural Electrification Fund and EAC to Assist Licensees .....	20
<b>CHAPTER 4 Generation, Import and Transmission .....</b>	<b>25</b>
4.1 Generation in Cambodia .....	25
4.1.1 Generation by Type of License .....	25
4.1.2 Generation by Type of Generation Facilities .....	25
4.1.3 Generation Projects Under Implementation and Planning .....	26
4.2 Energy Imported from Neighboring Countries .....	27
4.3 Electricity Transmission .....	27
4.3.1 High Voltage System in Cambodia .....	27
4.3.2 High Voltage lines Under implementation .....	29
4.4 Operation of the High Voltage Grid System .....	39
<b>CHAPTER 5 Report on Sub-Transmission and Supply of Electricity .....</b>	<b>32</b>
5.1 Development of Medium Voltage Lines .....	32
5.2 Grid Supply Systems .....	33
5.3 Isolated Supply Systems .....	33
5.4 Supply of Electricity to Consumers .....	34

5.5 Supply of Electricity During the Decade.....	35
<b>CHAPTER 6 Electricity Tariff of Licensees</b>	<b>36</b>
6.1 Electricity Tariff .....	37
6.2 Electricity Tariff of Licensees Approved by EAC During 2014 .....	37
6.2.1 Electricity Tariff with Fuel Cost Adjustment Table Approved by EAC .....	37
6.2.2 Electricity Tariff Approved by EAC.....	38
6.3 Time of Use Tariff for EDC .....	38
6.4 Tariff of EDC During 2014 .....	39
6.4.1 Tariff of EDC for Supply to Licensees and HV and MV Consumers Supplied from National Grid .....	39
6.4.2 Tariff of EDC for Phnom Penh, Kandal Province and Provincial Town of Kampong Speu .....	40
6.4.3 Electricity Tariff of EDC at Provincial Towns, Cities and Town Centers .....	41
<b>Annex 1 Province Wise Area of Supply Served by Distribution, Retail and Consolidated Licensees at the End of Year 2014.....</b>	<b>45</b>
<b>Annex 2 (a) Summary of Information about Generation and Import of Energy.....</b>	<b>84</b>
<b>Annex 2 (b) Summary Information about Generation Installed Capacity and Energy Sent- out.....</b>	<b>91</b>
<b>Annex 2 (c) Summary Information about Generation Facilities and Energy Sent-out Classified by Generation Type.....</b>	<b>85</b>
<b>Annex 3 Information on Generation Licensee for the Year 2014.....</b>	<b>86</b>
<b>Annex 4 Summary Information on Electricité du Cambodge for the Year 2014.....</b>	<b>88</b>
<b>Annex 5 A A Information on Grid Systems in Cambodia .....</b>	<b>90</b>
<b>Annex 5 B National Grid .....</b>	<b>91</b>
<b>Annex 5 C Vietnam Grid at Medium Voltage .....</b>	<b>104</b>
<b>Annex 5 D Thai Grid at Medium Voltage .....</b>	<b>108</b>
<b>Annex 5 E Lao grid at Medium Voltage.....</b>	<b>109</b>
<b>Annex 5 F Isolated Systems with Own Generation .....</b>	<b>109</b>

# Chapter 1

## **Basic Laws and Regulations in Power Sector Management in the Kingdom of Cambodia**

**CHAPTER 1**  
**Basic Laws and Regulations for Management of Power Sector**  
**in the Kingdom of Cambodia**

**1.1 Electricity Law of the Kingdom of Cambodia**

The Electricity Law of the Kingdom of Cambodia was adopted by National Assembly on November 06, 2000 at the plenary session No.5 of term 2, and agreed by the Senate on the form and content of the law on December 13, 2000 at the plenary session No.4 of term 1 and announced to be consistent with the Constitution by the Constitutional Council on January 15, 2001. The Law was finally promulgated by ROYAL DECREE No. NS/RKM/0201/03 dated February 02, 2001 by Preah Bath Samdech Preah Norodom Sihanouk, King of Cambodia. The purpose of this law is to govern and to prepare a framework for the electric power supply and services throughout the Kingdom of Cambodia. This law covers all activities related to supply of electricity, provision of services and use of electricity and other associated activities of power sector.

In preparation of a framework for the electric power supply and services throughout the Kingdom of Cambodia, the Law provides for the establishment of “Electricity Authority of Cambodia” (EAC), a legal public entity, being granted the right by the Royal Government to be an autonomous agency to regulate the power sector in the Kingdom of Cambodia.

The Electricity Law provides that the Electricity Authority of Cambodia shall consist of three Members, including the Chairman. The Chairman and Members shall be designated and proposed by the Prime Minister and shall be appointed by Royal KRET. Each Member shall have a 3 (three) year term, which shall be staggered so that the term of the initial members shall expire at different times.

As per the Electricity Law of the Kingdom of Cambodia, “no person may operate as an electric power utility or provide electric power services unless he/she has performed under and in accordance with the terms of a valid license issued by EAC. Any person, who is operating as an electric power utility at the time of promulgation of the Electricity Law, shall apply to EAC for a license within 6 months of receiving the initial notice from EAC.

Regulations, orders and decisions issued by EAC are enforceable as per the Electricity Law. EAC is competent to file complaints in the courts of the Kingdom of Cambodia for any violation of the Electricity Law or the regulations, orders, decisions as well as licenses issued by EAC.

The Law also provides for the rights, obligations and penalty on the service providers as well as the consumers in order to establish fair condition in the business and the use of electricity.

The enactment of the Electricity Law of the Kingdom of Cambodia is a big leap forward in bringing reforms in the electricity sector. These reforms will encourage the private investors to invest in the power sector in a fair, just and efficient manner for the benefit of our society.

**1.2 Responsibilities of Ministry of Mines and Energy and Electricity Authority of Cambodia in Power sector**

Article 3 of the Electricity Law of the Kingdom of Cambodia defines the responsibility of Ministry of Mines and Energy and Electricity Authority of Cambodia (EAC) separately. As per the provisions of this article, after EAC has started its operation, the governing of the power sector in the Kingdom of Cambodia shall be bifurcated, 1-the Ministry of Mines and Energy shall be

responsible for setting and administrating the government policies, strategies and planning in the power sector and 2-the Electricity Authority of Cambodia shall ensure that the provision of services and the use of electricity shall be performed efficiently, qualitatively, sustain ably and in a transparent manner.

The Ministry of Mines and Energy, through its duty for setting and administering the government policies, strategies and planning in the power sector, is the institution of the Royal Government to chalk out the path that the power sector in the Kingdom of Cambodia is going to take. This institution is also responsible for setting the technical standards for the power sector.

EAC is responsible to issue rules, regulations and procedures and to monitor, guide, coordinate the operators in power sector both suppliers and consumers including requiring them to follow the policy and guidelines and technical standards issued by Ministry of Mines and Energy. EAC has to ensure that the provision of services and the use of electricity shall be performed efficiently, qualitatively, sustainably and in a transparent manner.

The roles of the two organizations in governing power sector in the Kingdom of Cambodia as provided in the Electricity Law of the Kingdom of Cambodia is shown in the following diagram:

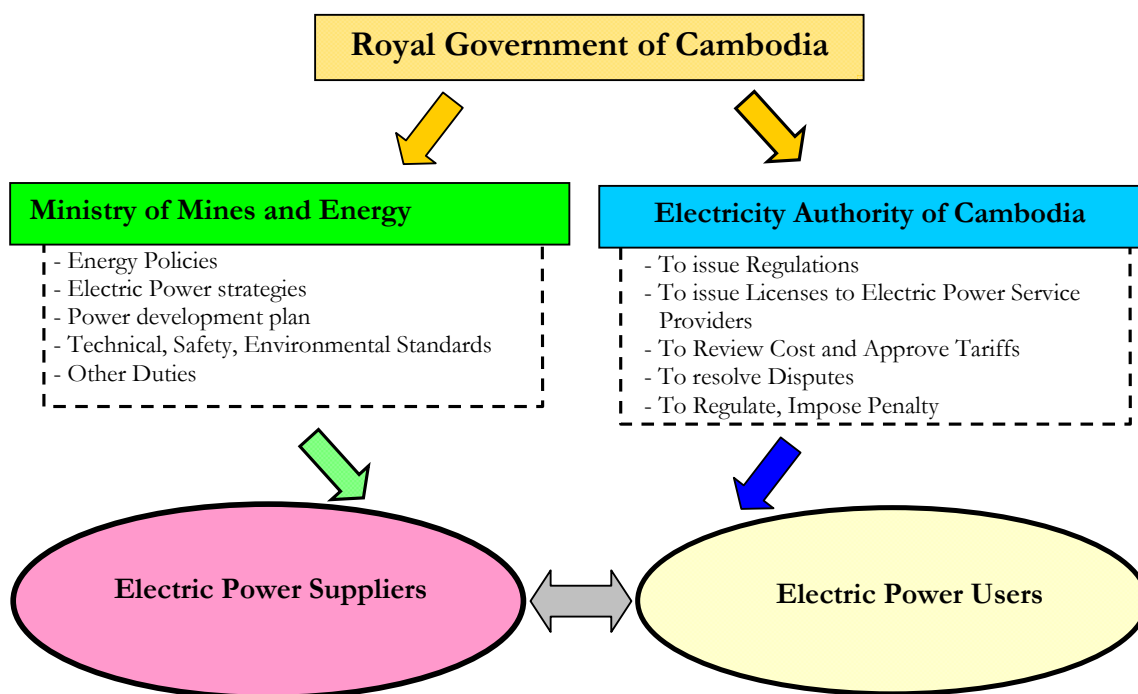

Figure 1: Separation of role between MME and EAC

### 1.3 Duties of the Electricity Authority of Cambodia in the Power sector

#### 1.3.1 Regulation of the Electric Power Services

Electricity Law of the Kingdom of Cambodia has granted the right and autonomy to EAC to regulate the activities relating to Electric Power Services in order to ensure that the services and the business of the electric power service providers are actually carried out efficiently, qualitatively, sustain ably and in a transparent manner. Granting of the right to EAC to regulate these services does not mean that Law has provided for EAC to get involved in or to manage the internal

business of the electric power service providers; but it allows EAC to advise, guide or direct the service provider, to modify or cease such activity which affects the service being performed efficiently, qualitatively, sustainable and in a transparent manner. The guiding action or direction to revise or cease any activity is to be carried out in public interest and to protect the interest of the consumers.

### **1.3.2 Governance of relation between Delivery, Receiving and Use of Electricity**

The relation between Delivery, Receiving and Use of Electricity means the relations between generators and transmitters, between generators and distributors, between transmitters and distributors or between suppliers and consumers. These relations relate only to the cycle of delivery, receiving and use of electricity. The relations can cover the conditions of delivery and receiving electric power services between above parties; the obligations and rights of the above parties in delivery and receiving electric power services; the cost of electric power services that one party pays to the other party; the quality of electric power services that one party provides to other parties etc.

### **1.3.3 Powers and Duties of Electricity Authority of Cambodia**

According to the Article 7 of Electricity Law of the Kingdom of Cambodia, EAC has the following powers and duties:

- (a) To issue, revise, suspend, revoke or deny the licenses for the provision of electric power services as provided in article 29 of the Law;
- (b) To approve tariff rates and charges and terms and conditions of electric power services of licensees, except where the Authority consider those rates or charges and terms and conditions are established pursuant to a competitive, market-based process;
- (c) To enforce regulations, procedures and standards for investment programs by licensees;
- (d) To review the financial activities and corporate organization structure of licensees to the extent that these activities and organization directly affect the operation of the power sector and the efficiency of electricity supply;
- (e) To approve and enforce the performance standards for licensees;
- (f) To evaluate and resolve consumer complaints and contract disputes involving licensees, to the extent that the complaints and disputes relate to the violation of the conditions of license;
- (g) To approve and enforce a uniform system of accounts for all licensees;
- (h) To prepare and publish reports of power sector and relevant information received from licensees for the benefit of the Government and the public;
- (i) To prescribe fees applicable to licensees;
- (j) To determine the procedures for informing the public about its activities within its duties, in order to ensure that the Electricity Authority of Cambodia complies with the principle of transparency as set forth in Article 3 of this law;
- (k) To issue rules and regulations and to make appropriate orders, and to issue temporary and permanent injunction for electric power services;
- (l) To impose monetary penalty, disconnect power supply, suspend or revoke the license for the violations of this Law, standards and regulations of the Electricity Authority of Cambodia;
- (m) To require the electric power service providers and the consumers to obey the rules relating to the national energy security, economic, environmental and other Government policies;
- (n) To perform any other function incidental or consequential to any of the duties as describes above; and

- (o) To establish the terms and conditions of employment of the officers or employees including experts/advisors of Electricity Authority of Cambodia.

### 1.3.4 Legal Documents for Governing and Regulating Electric Power Services and use of Electricity

The types of Legal Documents for governing and regulating electric power services and use of electricity in the Kingdom of Cambodia are classified in Table 1 below:

**Table 1: Legal Documents for Regulating Electric Power Services and use of Electricity**

<b>1 Law</b>	The Electricity Law of the Kingdom of Cambodia and other Laws to manage and regulate the power sector. Laws are main documents in regulating all activities in power sector and also the main base for preparation of other legal documents needed for managing and regulating the power sector.
<b>2 Legal Documents of Government Class</b>	Sub-Decree, Decision, Notification etc. of the Royal Government. These documents are for determining the power sector policy and for regulating the activities in power sector and are issued by the Royal Government under the provisions of the Electricity Law. The main principles of the power sector, which are not defined in the Law, can also be issued for application as a standard document of the Royal Government.
<b>3 Legal Documents of Ministry Class</b>	Declaration (Prakas) and Decisions of the Ministry of Mines and Energy. These are the documents for managing the works, which are under the duties of Ministry of Mines and Energy such as policy, development, planning, strategy, technical standards and other determinations in power sector such as: <ul style="list-style-type: none"> <li>- Investments in the rehabilitation and development of power sector in the short, medium and long term;</li> <li>- Restructuring, private sector participation and privatization of Public Utilities;</li> <li>- Promotion of the use of indigenous energy resources in the generation of electricity;</li> <li>- Planning and agreements on the export and import of electricity;</li> <li>- Subsidies to specific classes of customers and priorities regarding consumers of electricity;</li> <li>- Promotion of efficiency in generation, transmission, distribution and consumption of electricity and action taken to create a Comprehensive Electricity Conservation Program for Cambodia; and</li> <li>- Electricity sector emergency and energy security strategies.</li> </ul>
<b>4 Legal Documents of EAC</b>	Licenses, regulations, procedures and decisions of Electricity Authority of Cambodia, which are issued by EAC under the framework of the Electricity Law. These documents are for managing and regulating the electric power services and the use of electricity in the Kingdom of Cambodia.

The legal documents prepared and put into force for managing and regulating the provision of services and use of electricity in the Kingdom of Cambodia up to the end of the year 2014 are shown in the table 2 below:

**Table 2: Legal Documents for Managing and Regulating Provision of Services and Use of Electricity**

No.	Name of Standard Documents	Promulgated by	Date Promulgated
1	Electricity Law of the Kingdom of Cambodia	The King	February 2, 2001
2	Sub-Decree on the Rate of the Maximum License Fees applicable to Electric Power Service Providers in the Kingdom of Cambodia	Royal Government	December 27, 2001
3	Procedures for Issuing, Revising, Suspending, Revoking, or Denying Licenses	Electricity Authority of Cambodia	September 14, 2001
	Revision 1		December 12, 2002
	Revision 2		March 16, 2004
4	Regulations on General Conditions of supply of Electricity in the Kingdom of Cambodia	Electricity Authority of Cambodia	January 17, 2003
	Revision 1		December 17, 2004
5	Regulatory Treatment of Extension of Transmission and Distribution Grid in the Kingdom of Cambodia	Electricity Authority of Cambodia	October 28, 2003
6	Regulations on Overall Performance Standards for Electricity Suppliers in the Kingdom of Cambodia	Electricity Authority of Cambodia	April 2, 2004
7	Procedure for Filing Complaint to EAC and for Resolution of Complaint by EAC	Electricity Authority of Cambodia	April 2, 2004
8	General Requirements of Electric Power Technical Standards of the Kingdom of Cambodia	Ministry of Industry, Mines and Energy	July 16, 2004
	First Ammendment		August 9, 2007
9	Sub-Decree on Creation of Rural Electricity Fund of the Kingdom of Cambodia	The King	December 4, 2004
10	Sub-Decree on Principles for Determining the Reasonable Cost in Electricity Business	Royal Government	April 8, 2005
11	Prokas on Principles and Conditions for issuing Special Purpose Transmission License in the Kingdom of Cambodia	Ministry of Industry, Mines and Energy	July 21, 2006
12	Specific Requirements of Electric Power Technical Standards of the Kingdom of Cambodia	Ministry of Industry, Mines and Energy	July 17, 2007
13	Regulations on General Principles for Regulating Electricity Tariffs in the Kingdom of Cambodia	Electricity Authority of Cambodia	October 26, 2007
14	Procedures for Data Monitoring, Application, Review and Determination of Electricity Tariff	Electricity Authority of Cambodia	October 26, 2007
15	Grid Code	Electricity Authority of	May 22, 2009

## **Chapter 2**

# **Information on Electricity Authority of Cambodia – the Regulator for the Power Sector in the Kingdom of Cambodia**

**CHAPTER 2**  
**Information on Electricity Authority of Cambodia –**  
**the Regulator for the Power Sector in the Kingdom of Cambodia**

**2.1 Regulator in Power Sector**

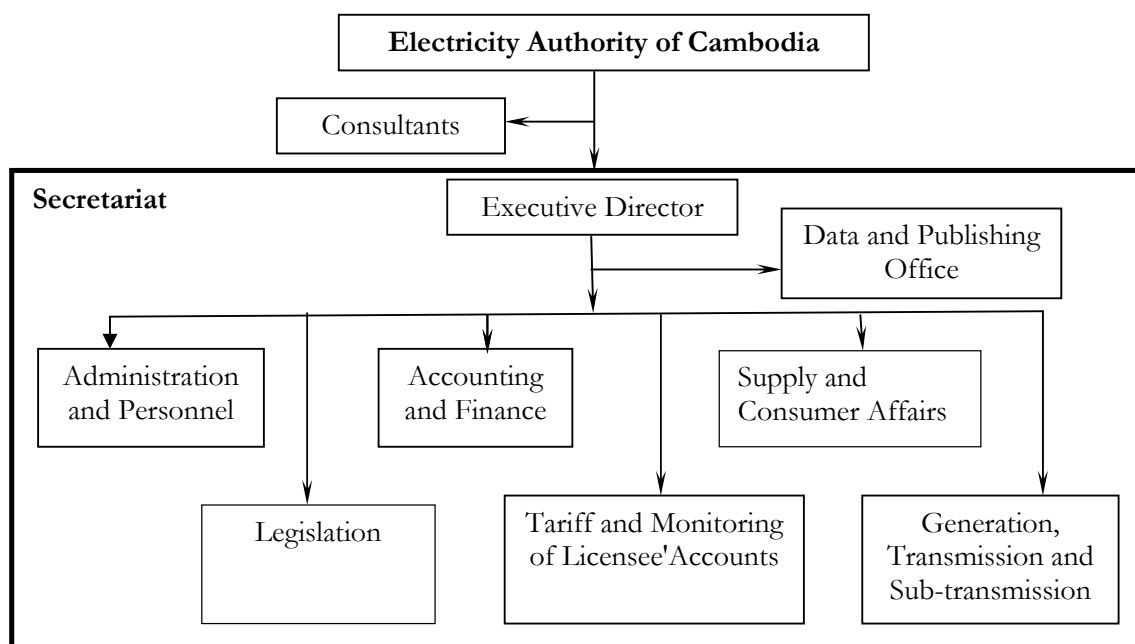

According to the Electricity Law, the Electricity Authority of Cambodia (EAC) shall consist of 3 (three) members. The members of EAC shall be designated and proposed by the Prime Minister and shall be appointed by the Royal KRET. The members of EAC during 2014 are as follows:

1. **H.E. Dr. Ty Norin**, Chairman
2. **H.E. Hul Kunnak Vuth**, First Vice-Chairman
3. **H.E. Sam Oeun Kim Hoeun**, Second Vice-Chairman

**2.2 Organization of Electricity Authority of Cambodia**

As provided by Electricity Law, EAC shall have one secretariat for assistance. This secretariat shall be headed by an Executive Director. The Executive Director shall be appointed by Chairman of EAC after consultation with other members.

The highest authorities of EAC are the three regulators i.e. the chairman of EAC and the two vice-chairmen. Under the chairman and vice-chairmen, there is one secretariat headed by the executive director. Secretariat provides support to EAC for administrative and technical works and controlling the specialized departments under it. With the increase in work load of EAC, the secretariat of EAC was reorganized in 2013, Created one office, which is working directly under the secretariat and six departments for performing the works in their specialized fields and the departments of the secretariat are 1 – Department of Administration and Personnel, which is in charge of administration and works relating to personnel in the employment of EAC; 2 – Department of Legislation, which is in charge of Legal works, resolution of disputes and imposition of fines; 3 – Department of Accounting and Finance, which is in charge of finance, License fees and accounts works; 4 – Department of Tariff and Monitoring of Licensees' accounts, which is in charge of monitoring and approval of tariffs of licensees for sale of electricity and monitoring of the accounts of licensees to assess the cost of supply; 5 - Department of Supply and Consumer Affairs, which is in charge of works relating to supply of electricity by Distribution licensees and consumer affairs; 6 – Department of Generation, Transmission and Sub-transmission – which is incharge of works relating to generation licences and transmission licenses for both transmission and sub-transmission. 7-Data management and publishing office, which is in charge of works relating to consolidation of data and information collected from all departments of the secretariat and responsible for managing and publishing the information to the public. The organization structure of EAC is as shown in the schematic diagram given below.

**Figure 2: Organization chart of EAC**

### 2.3 The Budget of EAC and License Fees

The Electricity Authority of Cambodia is an autonomous agency working for the interest of all electric power service providers and electricity users in the Kingdom of Cambodia. Therefore the expenditure of EAC for its operation is to be borne by all electric power service providers in the form of payment of license fees. Article 27 of the Electricity Law provides that EAC shall have an autonomous budget for its operation. This budget shall come through License Fees paid by applicants and licensees as determined by EAC. For governing the license fees charged by EAC, The Electricity Law has further provisions that “The maximum license fees are to be determined by a Sub-Decree of the Royal Government”.

Under the provisions of the Electricity Law of the Kingdom of Cambodia, the Royal Government have issued sub-decree No. 131-OR-N-KR/BK dated December 27, 2001 determining the maximum license fees applicable to the electric power service providers in the Kingdom of Cambodia.

According to Electricity Law, EAC shall determine the rate of the license fees to be paid by the licensees every year based on the maximum license fees determined by the sub-decree. For the year 2014, EAC has determined the license fees to be paid by licensees vide Notification No. 044-SR-14-EAC; which made no change to the License Fee of 2013. The license fees determined for the years 2013 and 2014 are given in Table 3 below.

**Table3: License Fees to be paid by Licensees**

Type	Riel per kWh	
	Year 2013	Year 2014
Generated or Power Purchased from any other Country	1.20	1.20
Transmission	0.50	0.50
Distribution and Sale	0.60	0.60
Retail	0.30	0.30
Other services license fee	0.1%	0.1%

#### 2.4 Financial Statements of EAC

The Electricity Law provides that the annual financial statement, together with the accounting books of the Authority and related records shall be audited by auditor and inspected by the National Audit Authority. Within 1 (one) month after auditing, the Authority shall submit all reports to the Prime Minister for approval, and shall publish the approved reports to the public. The audited income statement of Electricity Authority of Cambodia for the years 2012 and 2013 is given below.

**Table4: Income statement Reports for the years 2012 and 2013**

(After Audit)  
All figures in Riels

	<u>2012</u>	<u>2013</u>
<b><u>Revenues</u></b>		
License Fees	6,365,427,100	8,287,459,600
Application Fees		
Adjustment License Fees	3,600,000	11,900,000
Other Revenue	275,689,400	404,165,800

## **Chapter 3**

# **Information on Licenses and Licensees in the Kingdom of Cambodia**

## **CHAPTER 3**

### **Information on Licenses and Licensees in the Kingdom of Cambodia**

#### **3.1 Licenses for Providing Electric Power Services**

As per the provisions of the Electricity Law, each electricity service provider is required to have a license issued by EAC and to abide by the provisions of the Electricity Law, its license, and regulations and procedures issued by EAC. A License authorizes the licensee to provide electric power services as per the provisions stated in the license (called the Conditions of License). A license has two main parts:

- a. Decision to grant the right to provide the electric power service, and
- b. Conditions of license.

Types of licenses that can be issued and regulated by EAC are stated below:

1. **The Generation License:** It grants the right to generate electric power from specified generation facilities.
2. **The Transmission License:** It grants the right to provide transmission service. There are 2 types of Transmission License: National Transmission License and Special Purpose Transmission License.
  - i. **The National Transmission License** can be issued only to state power transmission company which is under the Government control, to have the right to provide the transmission service for delivering the electric power to the distribution companies and bulk power consumers throughout the Kingdom of Cambodia
  - ii. **The Special Purpose Transmission License** grants the right to construct, own, and operate specified transmission facilities in the Kingdom of Cambodia for the specified purpose.
3. **The Distribution License:** It grants the right to provide the electricity distribution services in a determined contiguous territory.
4. **The Consolidated License:** It is a license, which may be the combination of some or all types of licenses. The Consolidated License can be issued to EDC and to the isolated systems to grant the right to generate, transmit, dispatch, distribute and sale electric power to the consumers. In issuing Consolidate License, EAC shall consider long term planning and the objectives of Government policy to reduce long run marginal cost for supply of electricity to consumers, establish a national grid and progressively expand this grid throughout Kingdom of Cambodia.
5. **The Dispatch License:** It grants the right to control, manage, and operate the dispatch facilities for facilitating delivery and receiving electricity from the generation, transmission and distribution systems.
6. **The Bulk Sale License:** It grants the right to buy electricity from any Generation Licensee or from the power systems of neighboring countries for sale to Distribution Licensees or to large customers in one connected power system.

7. **The Retail License:** It grants the right to engage in the sale of electric power to consumers in a contiguous service territory.
8. **The Subcontract License:** It grants the right to provide electric power services according to the subcontract agreement with the existing licensee.

### 3.2 Licenses issued, revoked and type changed during 2014

The number of licenses issued, revoked and valid during the year 2014 is given in the Table below.

**Table5: Type and Number of Licenses issued and valid**

No.	Type of License Issued	Licenses valid at end of 2013	Issued during 2014	Revoked during 2014	Change of type during 2014	Valid at end of 2014
1	Consolidated License consisting of Generation, Distribution and National Transmission Licenses	1				1
2	Generation License	19	2			21
3	Special Purpose Transmission License	7				7
4	Consolidated License consisting of Special Purpose Transmission and Distribution Licenses	7				7
5	Distribution License	98	14		+27	139
6	Retail License	3	1			4
7	Consolidated License consisting of Generation and Distribution Licenses	204	5	1	-27	181
	<b>TOTAL</b>	<b>339</b>	<b>22</b>	<b>1</b>		<b>360</b>

The Consolidated Licenses consisting of Generation and Distribution licenses of Mr. Tiv Sinan (360L) was terminated on transfer of its electricity business to Mrs. Men Chansokol (389L).

During 2014, the Consolidate license consisting of Generation and Distribution licenses issued to the following licensees were changed to Distribution License:

1. Mr. Ky Sophear (License No.018L)
2. Akisni C.L. Prey Kabas (License No. 020L)
3. Mr. Eang Seng Hy (License No. 037L)
4. Mr. Ya Sambat (License No. 072L)
5. Mornng Rysey Development Enterprise (license No. 109L)
6. Mr. Nou Kruey (License No. 113L)
7. Mr. Un Sothea (License No. 119L)
8. Mrs. Ear Lay Sien (License No. 124L)
9. Mrs. Sun Oun (License No. 186L)
10. Mr. Ouch Kea (License No. 195L)
11. Mr. Chhay Chansophea (License No. 204L)
12. Mr. Sok Pin (License No. 209L)

13. Mr. Ngeth Meng (License No. 212)
14. Mrs. Thauy Vorun (License No. 230)
15. Mr. Cheng Sophal (License No. 235)
16. Mr. Hou Veasna (License No. 238)
17. Mr. Ung Kimsean (License No. 241)
18. Miss San Chhan (License No. 242)
19. Mrs. Pheng Sophat (License No. 254)
20. Mr. Tin Savet (License No. 262)
21. Mr. Phy Thy (License No. 265)
22. Sahakreas Akisani Kampong Chamlong Bacdav Enterprise (License No. 272)
23. Mrs. Soeurn Sophornnara (License No. 282)
24. Mrs. Chheng Kimheak (License No. 294L)
25. Mr. Leang Sovarong (License No. 295)
26. Mr. El Lihour (License No. 299)
27. Mr. Sem Vuthy (License No. 302)

Electricite Du Cambodge (EDC) is the only licensee in the Public Sector, all other licensees being in private sector.

Province wise area of supply served by Consolidated Licensees, Distribution Licensees and Retail Licensees are given in **Annex 1**. In case a licensee is connected to a grid supply, the Annexure 1 shows the name of the Grid and for licensees with isolated operation, the annexure shows the normal hours of supply for the licensee.

Maps of Provinces of Cambodia showing the location of the licensed area of supply up to end of 2014 is given separately in this report.

### **3.3 Revision of Licenses**

Licenses are revised from time to time, as required, for various reasons. During 2014, the revisions were for extension of area of supply - 34 licenses, reduction of area of supply - 11 licenses, addition of 22 kV lines to subtransmission infrastructure – 1 license, extension of term of the license – 51 licenses, change of ownership- 23 licenses, change/addition of certificate of incorporation – 9 licenses, and change of type of license – 27 licenses. At the end of 2014, all licenses having distribution license as individual type or in combination with other type of license sare having a term of 5 years or more.

### **3.4 Licenses during the decade**

EAC issued the first license in February 2002. The types of license issued during the initial years were (i) Consolidate License consisting of Generation, National Transmission and Distribution License (issued to EDC), (ii) Generation License, (iii) Distribution License and (iv) Consolidate License consisting of Generation and Distribution License. The first Retail License was issued in July 2006. With the construction of 115 kV transmission line from Thai border to Banteay Meanchey, Battambang and Siem Reap in the private sector, the first Special Purpose Transmission License was issued in February 2007. With the development of subtransmission system and expansion of distribution to new areas Consolidate license consisting of Special Purpose Transmission and Distribution License were issued, and the first such license was issued in June 2008. The number of licenses valid at the end of each year during 2005-2014 is given in the following Table:

**Table 6: Number of different types of Licenses valid during the decade**

Type of License	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014
EDC	1	1	1	1	1	1	1	1	1	1

### 3.5 Efforts of Government of Cambodia, Rural Electrification Fund and EAC to assist licensees

In 2013, the Ministry of Industry, Mines and Energy was divided into two ministries – (i) Ministry of Industry and Handicrafts and (ii) Ministry of Mines and Energy. The electricity sector is under the Ministry of Mines and Energy.

The annual licensee meet for the year 2014 was organized by EAC on 22<sup>nd</sup> January 2015. The meet was attended by H.E. the Minister of the Ministry of Mines and Energy, representatives from the Ministry of Mines and Energy, Municipalities, Provincial Departments of Mines and Energy, EDC Headquarters and branches in Provinces and REF, Consumers of electricity, and members and staff of EAC. This was the 13<sup>th</sup> Annual Meeting since EAC started functioning in 2001.

During the meet, the Chairman EAC explained the provisions in the Electricity Law regarding the duties of the Ministry of Mines and Energy and EAC. He stated the achievements in electricity generation, transmission and distribution sector in 2014 and program for the future years. The demand during peak time in 2014 for whole of Cambodia increased to 927 MW, whereas the installed generation capacity is 1,359 MW. He stated that the distribution areas of all the licenses issued covered 11,905 villages which is 84.59% of the number of villages in Cambodia. But the distribution network developed till 2014 covered only 8,682 villages amounting to 61.69% of the total number of villages in Cambodia.

During the meet H.E. Minister of Mines and Energy described (i) the efforts and policy of the Royal Government of Cambodia during the present term of RGC from 2013 to 2018, (ii) Plan for reduction of the difference in the electricity tariffs for different areas served by National Grid, and (iii) the decision of MME, EAC and Provincial Department of Mines and Energy (PDME) to entrust certain works to be done by PDME in provinces as representatives of EAC.

#### A. Strategy, Plan and Policy for development of Electricity Sector during the Term 2013-2018

To fulfill the target of providing enough sustainable quality power at reasonable tariff to consumers throughout Cambodia, the Government has defined the following 5 strategic plan to be implemented during the term 2013-2018.

- (i) Plan for investment and construction of generation sources to meet the demand of electricity including addressing the problem of imbalance of electricity supply between dry and wet seasons.
- (ii) Plan for development of transmission lines, grid substations, sub-transmission and distribution lines to provide electricity throughout Cambodia to meet the need of electricity for daily life as well as for business and industry. The distribution licensees are required to extend the distribution lines to cover their entire distribution area as soon as possible. MME and EAC will monitor it and on failure to do so, may allow another investor to develop the infrastructure and provide electric supply service in the area.
- (iii) Plan to facilitate the poor people in rural areas to take electric connection and use electricity through social programs implemented by REF. International Institutions are assisting REF for the program. The Minister urged EDC to increase the budget provisions for the program.
- (iv) The Minister urged the licensees, both state owned and in the private sector, to improve the quality, stability, safety of supply and ensure the satisfaction of the consumer.
- (v) Plan to reduce the gap between the tariff for electric supply in urban and rural areas.

B. Strategy, Plan for reduction of tariff

On 12 January 2015 during the inauguration of the Lower Stung Russei Chrum Hydroelectric Project, The Prime Minister has announced the strategic plan to reduce the tariff during the period 2015 to 2020. The Plan has 3 sections;

- (i) Reduction of tariff for Industry and business – (a) The tariff for industry and business directly connected to the Grid substation will be reduced from 12.9 Cents/kWh in 2015 to 12.6 Cents/kWh in 2016; (b) The tariff for industry and business connected to the Phnom Penh and Kandal Grid will be reduced from 17.7 Cents/kWh in 2015 to 17.2 Cents/kWh in 2016 and will be further reduced during the period up to 2020; (c) The tariff for industry and business connected to the National Grid other than Phnom Penh Grid will be reduced from 17.25 Cents/kWh in 2015 to 16.75 Cents/kWh in 2016 and will be further reduced during the period up to 2020.
- (ii) Reduction of tariff for supply to households – (a) For households in Phnom Penh and other Provincial Towns supplied by EDC from the National Grid, the tariff will be reduced to 780 Riels/kWh in 2016 and will be further reduced during the period up to 2020; (b) For households in Provincial Towns and rural areas supplied by private licensees from the National Grid, the tariff will be reduced to 800 Riels/kWh in 2016 and will be further reduced during the period up to 2020;
- (iii) Reduction of tariff for supply to poor people and for pump stations used for agriculture – (a) For poor households in Phnom Penh and Takhmau area supplied by EDC from the National Grid and consuming less than 50 kWh/month, the tariff will be reduced to 610 Riels/kWh and for medium household consuming 51 to 200 kWh/month, the tariff will be reduced to 720 Riels/kWh; (b) For poor households in Provincial Towns and rural areas outside Phnom Penh and Takhmau area supplied by EDC and private licensees from the National Grid, consuming electricity below 10 kWh/month, the life line tariff will be reduced to 480 Riels/kWh and for

water pump stations for agriculture using electricity between 9 PM to 7 AM, the tariff will be 480 Riels/kWh from 2016.

The reduction of tariff and implementation of life line tariff will be subject to the following conditions:

1. Keep the stability and sustainability of electricity business of EDC and private suppliers,
2. Keep investment in the electricity sector attractive for private investors,
3. The electricity tariff is in accordance with the provisions of Electricity Law of the Kingdom of Cambodia, sub-Decrees, Regulations and the electricity supply business is viable.

On implementation of the plan for reduction in tariff and life line tariff, the gap in this reduced tariff and the tariff in areas supplied by diesel generation will increase further. To overcome this problem, it is proposed that PDME in provinces will not issue new concessions for investment in diesel generation; and MME will request Government to provide more funds for investment in new transmission lines and substations to cover the remaining unsupplied areas. Further REF may provide SHS to households in un-electrified areas.

#### C. PDME to carry out certain jobs of EAC

MME and EAC have agreed to allow PDME to carry out the following works on behalf of EAC.

- (i) Monitor the service provided by the licensees,
- (ii) Collect information and data from the licensees required by EAC and disseminate the information related to the service and use of electricity,
- (iii) Monitor and assist in attending to complaints by consumers and dispute resolution between licensee and consumers,
- (iv) Any other work as entrusted by EAC from time to time.

During 2012, Rural Electrification Fund (REF), which was working as an independent organization was transferred to the control of EDC. Thereafter REF has carried out the following programs:

##### (i) Power to the Poor (P2P) Program

The purpose of this program is to facilitate the poor households in rural areas to have access to electricity for their houses from grid supply by providing interest free loan to meet (i)- costs for the connection fees of the electricity supplier, (ii)- costs for deposit to be deposited with the electricity supplier, (iii)- costs for purchase of materials and labor for the installation of wires from the connection point to its house, and (iv)- costs for purchase of materials and labor for the installation of in-house wiring. The loan is disbursed through the licensee who is responsible to pay back to REF by collecting from the Borrower in easy monthly installments within a specific period. The Amount of this loan shall not exceed 480,000 Riels per household. During 2014 1,813 households in 105 villages were benefited under this program.

##### (ii) Program for Providing Assistance to Develop Electricity Infrastructure in Rural Areas

The purpose of this program is to facilitate the licensee in rural areas to access fund for investing on expansion of electricity supply infrastructure to fully cover its authorized distribution area in order to allow all rural households in the licensed area have access to electricity for use. The criterion for implementation of this program is formulated for three different types of areas considering the density of population as follows:

Area No. 1 - Area with high density of population having economic efficiency: REF will provide the guarantee on loan borrowed by the licensee from banks for investment on

expansion of electricity infrastructure in rural areas to fully cover its authorized distribution area.

Area No. 2 - Area with medium density of population, where doing electricity business may not be profitable if the licensee has to pay interest on the investment capital: REF will provide interest free assistance for investment on electricity infrastructure in rural areas.

Area No. 3 - Area with low density of population, where doing electricity business is not viable unless part of the infrastructure cost is provided as grant: REF will provide part of the infrastructure cost as grant and part of the cost as interest free assistance for investment on electricity infrastructure in rural areas.

During 2014, REF has executed 72 contracts for providing assistance to develop electricity infrastructure in rural areas with 66 licensees under program for Area No.2. The length of the network, villages covered in different provinces under the program by licensees during 2014 (including lines constructed for contracts signed in 2013) is given in the following Table.

**Table 7: Achievement under Program for Providing Assistance to Develop Electricity Infrastructure in Rural Areas**

No.	Province	Contracted target length of network, (km)		Constructed length of network, (km)	
		LV	MV	LV	MV
1	Banteay Meanchey	16.8	7.00	36.33	7.00
2	Battambang	115.38	48.81	119.88	48.81

## **Chapter 4**

# **Generation, Import and Transmission**

## CHAPTER 4 Generation, Import and Transmission

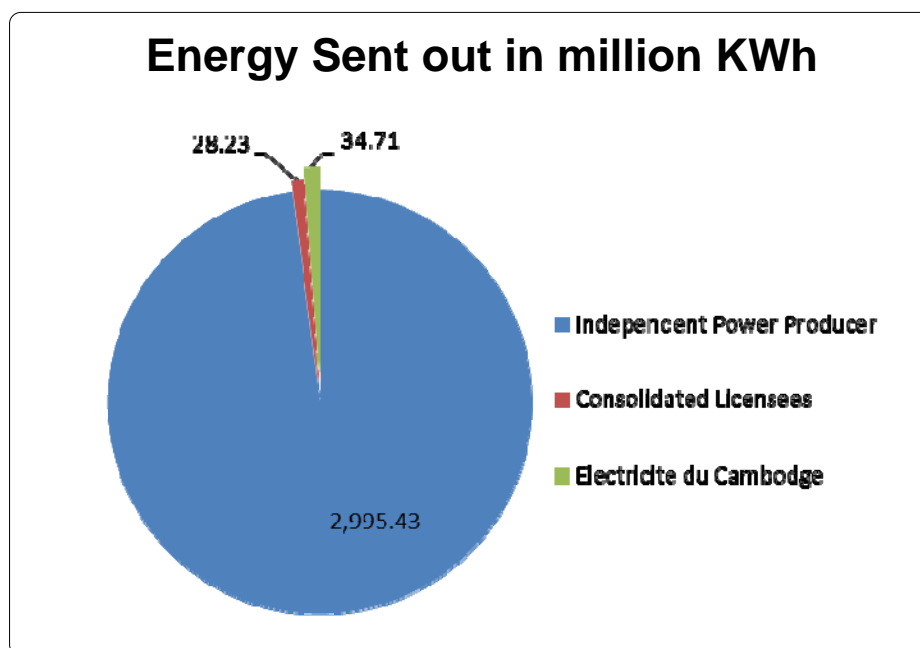

### 4.1 Generation in Cambodia

#### 4.1.1 Generation by Type of License

Two types of licensees generate electricity in the Kingdom of Cambodia. Independent Power Producers having generation license generate and sell electricity to suppliers or industries in compliance with the Power Purchase Agreement with that supplier or industry; and Consolidated Licensees having generation license as one of its licenses generate electricity for supply to consumers through their distribution system.

The information on operation of generation system by Generation Licensees, Electricite du Cambodge and Isolated systems operated by Consolidated Licensees is given in **Annex 3**, **Annex 4** and **Annex 5** respectively. The summary information about installed capacity and energy sent out by the Independent Power Producers, EDC and Consolidated licensees is given in **Annex 2(b)**.

The energy generated and sent out by all licensees in Cambodia during 2014 is 3,058.36 GWh, which is 72.79 % more than the energy sent out during 2013. The quantum of energy sent-out by the Independent Power Producers, Consolidated licensees and EDC is shown in the graphic given below:

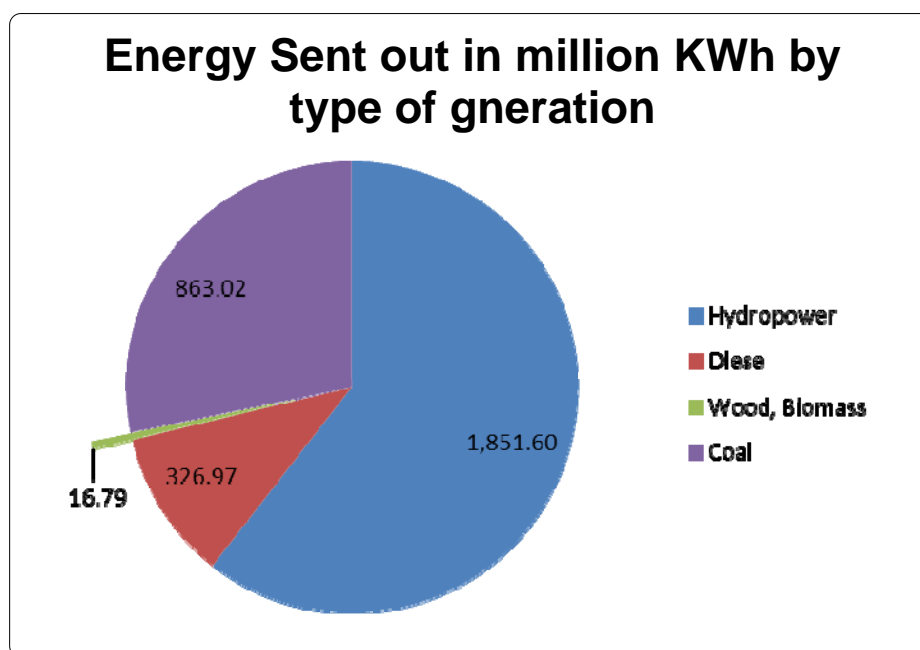

#### 4.1.2 Generation by Type of Generation Facilities

Electricity generation facilities in the Kingdom of Cambodia for the year 2014 can be divided into 4 types: 1 - Hydropower Plants, 2 - Diesel power Plants, 3- Thermal Power Plants using coal and 4 – Plants using wood and other biomass. The major power plants added during 2014 are Stung Tatay Hydro Power Plant in Koh Kong Province and Coal Power Plant of

C.I.I.D.G.Erdos Hongjun Electric Power Co., Ltd in Sihanoukville. During 2014 the following eight Hydropower Plants were in operation – Kirirom1, Kirirom 3, Kamchay, Stung Atay, Lower Stung Russei Chrum and Stung Tatay connected to the National Grid, Ratanakiri connected to Ratanakiri power system of EDC, and Mondulkiri connected to Mondulkiri power system of EDC. SL Garment Processing (Cambodia) Ltd, supplying part of its generation to EDC Phnom Penh, Angkor Bio Cogen Co., Ltd, Phnom Penh Sugar Co., Ltd, IED Invest (Cambodia) and Cam Chilbo Electric Power Co., Ltd use wood, agricultural products or waste as fuel for generation of electricity. Sovanna Phum Investment Co., Ltd, connected to the Phnom Penh System and Cambodia Energy Limited, and C.I.I.D.G.Erdos Hongjun Electric Power Co., Ltd connected to National Grid, use coal to generate electricity. All other power plants of the licensees are diesel power plants using Heavy Fuel Oil (HFO) and/or Light Diesel Oil (LDO). The summary information on installed capacity and energy sent out by type of generation is given in **Annex 2(c)**. Due to addition of Stung Tatay and full operation of Lower Stung Russei Chrum Hydro power plants in 2014, the energy generated by Hydropower Plants increased to 1851.60 million kWh in 2014 compared to 1,015.54 million kWh in 2013. Similarly due to full operation of coal plant of Cambodian Energy Limited and operation of one unit of coal plant of C.I.I.D.G.Erdos Hongjun Electric Power Co., Ltd in 2014, the energy generated by coal power plants increased to 863.02 million kWh in 2014 compared to 168.75 million kWh in 2013.

The quantum of energy sent-out by the Independent Power Producers, and Consolidated licensees classified by generation type is shown in the graphic given below.

#### 4.1.3 Generation Projects under implementation and planning

Following Generation Projects are under construction and their position at the end of 2014 is stated below:

- i. Stung Tatay Hydroelectric Project: The project consists of PH with capacity of 3 x 82 MW and 230 kV line from hydroelectric plant to Ou Saom Substation. The project is being implemented by Cambodian Tatay Hydropower Limited. PPA has been signed with EDC. Generation License No. 293L has been granted by EAC. The Plant was operated in 2014 and Commercial Operation is likely in 2015.

- ii. 240 MW Coal Fired Power Plant in Sihanoukville: The Project consists of 2 x 120 MW (net) coal fired electric power generating facility at Sihanoukville. The project is being implemented by C.I.I.D.G.Erdos Hongjun Electric Power Co., Ltd. PPA has been signed with EDC. One unit of the project was commissioned in 2014 and the second unit is scheduled to be commissioned in 2015.
- iii. 135 MW Coal Fired Power Plant in Sihanoukville: The Project consists of 1 x 135 MW coal fired electric power generating facility at Sihanoukville. The project is being implemented by C.I.I.D.G.Erdos Hongjun Electric Power Co., Ltd. PPA has been signed with EDC. The project is scheduled to be commissioned in 2017.
- iv. Sesan Hydroelectric Project: PPA has been signed between EDC and Hydro Power Lower Sesan 2 Co., Ltd on 26 November 2012. The plant is proposed to have 5 units of 80 MW each.
- v. Stung Cheay areng Hydroelectric Project: Feasibility study has been done. The proposed capacity is 3x36 MW.
- vi. Prek Laang Hydroelectric Project: Pre-feasibility study has been done. The proposed capacity of the plant is 90 MW.

## 4.2 Energy Imported from Neighboring Countries

Cambodia imports electricity from Thailand, Vietnam and Laos. The import from Vietnam is at 22 kV through a number of connections and at 230 kV through Vietnam – Takeo - Phnom Penh 230 kV line. Similarly import from Thailand is at 22 kV through a number of connections and at 115 kV through Thailand - Banteay Meanchey - Battambang and Siem Reap line. The import from Laos is at 22 kV to Steung Treng area.

Based on the Electricity Trade Agreement between Ministry of Mines and Energy of Cambodia with the Ministry of Industry of Vietnam, EDC has signed Power Purchase Agreements with Vietnam Power No.2 for import of electricity at a number of points for supply of electricity to areas located near the Cambodia – Vietnam border either by themselves or through other licensees.

Some private companies have received the right from MME to purchase electricity from Provincial Electricity Authority of Thailand for supply to areas near Cambodia – Thai border. Cost of electricity imported from Thailand at 22 kV is based on two-part time of use tariff of Provincial Electricity Authority of Thailand applicable for the category of consumer. The tariff has demand charges (Baht per kilowatt of maximum demand), energy charges (Baht per kWh with different rates for energy drawn during peak and off-peak hours), service charges (fixed charge as Baht per month), power factor penalty (Baht per excess KVAR) and Ft (change in expenses charge in Baht/kWh). Because of such tariff structure, the cost of electricity varies in different months due to different use conditions. The tariff for import by EDC at 115 kV from Thailand consists of energy charge as Baht per kWh and Ft (change in expenses charge in Baht/kWh).

EDC imports electricity from Laos at 22 kV for supply to Steung Treng area.  
The details of import from neighboring countries are given in Annex 5 A to 5 E.

## 4.3 Electricity Transmission

### 4.3.1 High Voltage System in Cambodia

During the year 2014 the following high voltage lines and substations were commissioned.

- (i) 115 kV line from Kampot to Chhouk and substation at Chhouk
- (ii) 115 kV line from Steung Hav substation to Sihanouk city substation and Sihanouk City substation

The details of high voltage grid substations (GS) operated by different licensees at the end of 2014 is stated in the following table.

**Table 8: Details of High Voltage Substations**

Sl No.	Substation	Power Transformers			Number of 22 kV feeders connected
		Voltage kV	Capacity MVA	Number	
<b>A. Substations operated by EDC</b>					
1	GS 1 (Phnom Penh)	115/22	75	2	21
2	GS 2 (Phnom Penh)	115/22	50	3	20

#### 4.3.2 High Voltage Lines under implementation

Following Transmission Line Projects are under construction and their position at the end of 2014 is stated below:

- i. 230 kV transmission line from Kampong Cham to Kratie with substations at Kampong Cham and Kratie. The transmission line project is being implemented by L.Y.P Group Co., Ltd and is likely to be commissioned in 2017.
- ii. 230 kV transmission line from Kratie to Steung Treng with substation at Steung Treng. The transmission line project is being implemented by EDC and is likely to be commissioned in 2017.
- iii. 230 kV transmission line from Steung Hav substation to Phnom Penh. The transmission line project is being implemented by Alex Corporation Co., Ltd and is likely to be commissioned in 2017.

#### 4.4 Operation of the High Voltage Grid System

The High Voltage Grid System, comprising of all high voltage lines and connected grid substations, is termed as "National Grid". Apart from generation plant in Cambodia, the National Grid gets electricity supply from Vietnam at 230 kV and from Thailand at 115 kV. As it is not possible to run the supply from Vietnam in parallel with Supply from Thailand, the two systems are

not operated in parallel, but many areas receive supply from either source at different times. With increased generation from Hydropower stations, the availability of supply improves in rainy season and supply from Phnom Penh area is extended upto Siemreap substation for some time during rainy season. Similarly during dry season supply from Thailand is extended up to part of Phnom Penh system. The supply from National Grid covers areas in the provinces of Takeo, Kampot, Sihanouk Ville, Phnom Penh, Kandal, Kampong Speu, Kampong Chhnang, Pursat, Battambang, Banteay Meanchey, Siem Reap, Kampong Cham, Kampong Thom and Prey Veng.

The licensees connected to National Grid and the details of the supply in 2014 are given in annexe 5 B.

## **Chapter 5**

# **Report on Sub-Transmission and Supply of Electricity**

## CHAPTER 5

### Report on Sub-Transmission and Supply of Electricity

#### 5.1 Development of Medium Voltage Lines

On development of the high voltage grid system in Cambodia, medium voltage lines have been constructed from the grid substations to supply power to licensees and consumers in areas around the Grid Substations. Medium voltage lines have also been extended from many locations near borders of Vietnam and Thailand, where power is being imported by licensees at MV. In the last few years EDC and other licensees have played a major role in developing medium voltage lines for both purposes of sub-transmission and distribution. The Transmission Licensee and Special Purpose Transmission Licensees operating medium voltage lines are listed in the following Table:

**Table 10: Transmission Licensees operating Medium Voltage Lines**

License No.	Name of Licensee	MV lines operated in Provinces
001 L	Electricite Du Cambodge	Phnom Penh, Kandal, Kampong Speu, Takeo, Kampong Cham, Sihanouk, Kampot, Prey Veng, Battambang, Banteay Meanchey
252 L	TPLC Holdings Ltd	Phnom Penh, Kandal, Kampong Cham
260L	Transco Energy (Cambodia) Co., Ltd	Phnom Penh, Kandal
315 L	BVC Power Development Co., Ltd	Kampong Cham, Kampong Thom, Preah Vihear
348 L	KTC Cable Co., Ltd	Siem Reap

The Consolidate Licensees having Special Purpose Transmission License and Distribution License operating medium voltage lines are listed in the following Table:

**Table 11: Consolidate Licensees operating Sub-Transmission Lines**

License No.	Name of Licensee	MV lines operated in Provinces
085 L	Electricity Tbong Khmum Enterprise	Tbong Khmum
122 L	Electricity Development and Construction Company	Kampong Cham, Tbong Khmum
220L	Electricity Skun-Chamkaleu Enterprise	Kampong Cham
223 L	L.M.K. Co., Ltd	Kandal, Takeo
224 L	Sokha Electricity Co., Ltd	Kampong Speu, Kandal
259 L	Inter BP Solution Corporation	Prey Veng
300 L	OSVR Trading Co., Ltd	Kampong Chhanang

The length of MV lines operated by different licensees at the end of 2014 is given in Annexe 5.

EDC, with loans arranged from different sources is constructing new MV lines to extend the grid supply to more areas. Other licensees are also constructing new MV lines to avail grid supply, extend their area of supply or to improve the power supply in their area of operation.

## 5.2 Grid Supply Systems

Apart from the supply from the grid-substations of the National Grid, MV supply is made available at a number of areas along the border with Vietnam, Thailand and Laos by extension of 22 kV lines from Vietnam Grid, Thai Grid and Laos Grid. This has resulted in the development of four grid systems in Cambodia as described below;

1. National Grid: The MV lines connected to the National Grid provide electric power supply in areas around the Grid substations. Such supply is available in Phnom Penh and the provinces of Kandal, Kampong Speu, Takeo, Kampot, Sihanoukville, Kampong Cham, Kampong Thom, Prey Veng, Banteay Meanchey, Battambang, Siem Reap, Pursat and Kampong Chhnang. The details of the licensees connected to the National Grid are given in Annex 5 B.
2. MV Grid connected to Vietnam system: Cambodia imports electricity from Vietnam through 22 kV connections at 18 locations in the provinces of Kampong Cham, Svay Rieng, Kampot, Monduliri, Kandal, Takeo, Kratie, Prey Veng and Ratanakiri. The supply is then extended to other licensees. By end of 2014, 43 licensees got supply from the Vietnam grid. The details of the licensees connected to the Vietnam Grid at Medium Voltage are given in Annex 5 C.
3. MV Grid connected to Thailand system: Cambodia imports electricity from Thailand through 22 kV connections at 8 locations in the provinces of Battambang, Pailin, Banteay Meanchey, Koh Kong and Oddor Meanchey. The supply is then extended to other licensees. By end of 2014, 9 licensees got supply from the Thai grid. The details of the licensees connected to the Thai Grid at Medium Voltage are given in Annex 5 D.
4. MV Grid connected to Lao system: EDC imports power from Laos to supply to Steung Treng area. By end of 2014, 2 licensees got supply from the Lao grid. The details of the licensees connected to the Lao Grid at Medium Voltage are given in Annex 5 E.

Two Generation Licensees (i) Kampot Power Plant Co., Ltd and (ii) Angkor Bio Cogen Co., Ltd supply to captive industries Kampot Cement Co., Ltd and Angkor Kasekam Roongroeng Co., Ltd respectively.

## 5.3 Isolated Supply Systems

The rest of supply systems in Cambodia are isolated systems each consisting of its own generation and supplying a small area generally belonging to one licensee. The information on number of consumers, energy available and supplied to consumers for these isolated systems has been estimated province wise and given in the following Table. The area of supply of a few licensees exists in two contiguous provinces and in these cases the province wise data has been estimated or assumed.

**Table 12: Province wise Data on isolated systems for 2014**

Name of Province	Number of Licensees	Number of consumers	Installed Capacity, kW	Energy generated, kWh	Energy Sold to consumers kWh
Banteay Meanchey	1	920	570	170,400	143,200
Kampong Cham	3	2,212	458	378,170	298,023
Kampong Chhnang	2	726	323	144,079	120,667
Kampong Thom	7	4,152	2,286	919,276	750,885
Kandal	2	2,133	762	484,692	389,303
Koh Kong	2	764	805	458,548	283,672
Kratie	4	2,046	846	676,684	549,639
Oddor Meanchay	4	2,428	2,720	776,941	626,642
Preah Vihear	9	7,474	6,618	5,102,472	4,098,479
Pursat	1	602	1,135	425,510	395,206
Ratanakiri	1	304	276	233,925	209,892
Siem Reap	4	2,429	1,715	860,366	740,806
Stueng Treng	1	443	425	65,800	56,707
Svay Rieng	1	845	410	419,528	332,187
Tbong Khmum	1	997	465	264,729	225,380
<b>Total</b>	<b>43</b>	<b>28,475</b>	<b>19,814</b>	<b>11,381,120</b>	<b>9,220,688</b>

#### 5.4 Supply of Electricity to consumers

Each year the infrastructure for supply of electricity to consumers and the number of villages supplied with electricity gets added up due to issue of new licenses, expansion of area of supply and expansion of the grid supply. The detail of MV lines and LV lines of licensees is given in Annex 5. The total number of villages and number of villages covered by the licensed area by end of 2014 in each province is given in Annexure 8.

A comparison of data on electricity Generation, Import from neighboring countries by licensees and data on consumers and consumption by them for Cambodia for the years 2013 and 2014 is given in the Table below.

**Table 13: Data of Electricity Sector of Cambodia at a glance**

Description	Unit	Data for 2013	Data for 2014	Percentage Increase
Energy Generated	million kWh	1,769.96	3,058.36	72.79
Energy Imported from Thailand	million kWh	579.60	523.56	(9.67)
Energy Imported from Vietnam	million kWh	1,691.31	1,265.72	(25.16)
Energy Imported from Laos	million kWh	10.73	13.77	28.33
Total Import	million kWh	2,281.63	1,803.05	(20.98)

Total Energy Available	million kWh	4,051.59	4,861.41	19.99
Generation Capacity	kW	948,993	1,511,338	59.26
Number of Consumers	Number	1,198,844	1,424,735	18.84
Energy sale to consumers	million kWh	3,552.59	4,144.12	16.65
Overall Loss Percentage	Percent	12.32	14.75	

### 5.5 Supply of Electricity during the decade

The details of number of consumers, energy available for supply and energy sold to consumers during the years 2005 – 2014 is given in the following table.

**Table 14: Number of consumers, energy available, and energy sold during the decade**

	2005	2006	2007	2008	2009
No. of Consumers	306,176	358,270	415,141	487,426	552,521
% increase over prev. year	12.29	17.01	15.87	17.41	13.35
Energy available in million kWh	977.262	1,203.199	1,516.730	1,858.364	2,076.990
% increase over prev. year	20.04	23.12	23.12	22.52	11.76
Energy sold in million kWh	858.356	1,057.158	1,057.158	1,664.395	1,853.495
% increase over prev. year	22.22	23.16	23.16	23.37	11.36

	2010	2011	2012	2013	2014
No. of Consumers	672,709	810,984	992,597	1,198,844	1,424,735
% increase over prev. year	21.75	20.55	22.39	20.78	18.84
Energy available in million kWh	2,514.80	2,848.326	3,527.42	4,051.59	4,861.41
% increase over prev. year	21.12	13.26	23.84	14.86	19.99
Energy sold in million kWh	2,254.039	2,572.737	3,265.81	3,552.59	4,144.12
% increase over prev. year	21.61	14.14	26.94	8.78	16.65

## **Chapter 6**

# **Electricity Tariff of Licensees**

## CHAPTER 6

### Electricity Tariff of Licensees

#### 6.1 Electricity Tariff

The cost of electricity either from own generation or from purchase from IPP, neighboring country or other licensees is the single largest component of the cost of electric supply by licensees to the consumers. Hence the tariff of a licensee for supply to consumers is dependent on the cost of electricity generated or purchased. With the development of grid system, the tariff of licensees purchasing electricity from the grid has become stable. The tariff for consumers is determined based on the cost of electricity purchased and the cost of distribution. The tariff is changed when the cost of purchase of electricity or cost of distribution changes. For the licensees generating electricity using Diesel/HFO, the cost of electric supply is related to the cost of Diesel/HFO. In order to quickly reflect the change in the cost of fuel in the tariff for consumers in a simple and transparent manner, EAC implements Fuel Cost Adjustment (FCA) mechanism stated in a table. Under this mechanism, the tariff for different slab rates of fuel (diesel/HFO) is determined after public consultation, so that for only a change in the cost of fuel, the corresponding tariff is fixed by EAC without the need of further public consultation.

#### 6.2 Electricity Tariff of Licensees approved by EAC during 2014

##### 6.2.1 Electricity Tariff with Fuel Cost Adjustment Table approved by EAC

The licensees for whom EAC approved tariff with Fuel Cost Adjustment table during 2014 are given in the following Table.

**Table 15: Tariff of Licensees approved with Fuel Cost Adjustment Table during 2014**

EAC Session Number	Date of Session	License Number	Licensee for whom FCA was approved	Area of supply
259	25-03-14	344L	Mrs. Sao Sorya	Khum Romny, Rovieng District, Preah Vihear Province
259	25-03-14	346L	Mrs.Chea Sokheng	Some parts of Khum Kbal Damrei, Sambo District, Kratie Province
259	25-03-14	352L	Mr. Chea Kry	Some parts of Khum Pi Thnou and Khum Khsem, Snoul District, Kratie Province
259	25-03-14	353 L	Mr. Sok Hengseang	Khum Sorb, and Khum Chroy Banteay, Prek Brasorb District, Kratie Province

### 6.2.2 Electricity Tariff approved by EAC

During 2014, EAC also approved the tariff as stated below for the following licensees.

**Table 16: Tariff of Licensees approved during 2014**

License No.	Name of Licensee	Area of supply	Tariff in Riels/kWh
001L	Electricite Du Cambodge	Prey Veng, Kratie and Senmonorom (Mondulkiri) City	As stated in Table
247L	Mr. Sean Narin	Areas in Svaychrum District, Svay Rieng Province and Kampong Trabek District, Prey Veng Province	1,050 Riels
268L	Mr. Khan Siden	Areas in Kampong Ror District and Chantrea District, Svay Rieng Province	1,050 Riels
036L	Mrs. Pauch Kim	Areas in Kompong Trabek District, Prey Veng Province	1,050 Riels
187L	Mr. Khem Rany	Areas in Kampong Trabek District, Prey Veng Province	1,050 Riels
343L	Nhem Horn Electrical Co., Ltd	Areas in Kampong Trabek District, Baphnom District and Mesang District, Prey Veng Province	1,050 Riels
151L	Khmer Electricity Service Co., Ltd	Areas in Sa-Ang District, Kandal Province	LV -950 Riels MV – 0.175\$
	68 licensees	Provinces of Kandal, Kampong Speu, Takeo, Kampot, Phnom Penh and some areas in Prey Veng	LV -1,050 Riels MV – 0.175\$
	64 licensees	Provinces of Kampong Chhanang, Pursat, Battambang, Banteay Meanchey and some areas in Kandal, Prey Veng, Takeo and Ratanakiri	LV -1,150 Riels MV – 0.18 \$
	26 licensees	Provinces of Kampong Cham, Tbong Khmum, and Kratie	1,100 Riels
260L	Transco Energy (Cambodia) Co., Ltd	Sub-transmission	Tr. Charges – 0.013 \$
215L	Colben Energy (Cambodia) PPSEZ Limited	PPSEZ	0.1898 \$

The tariff in each month for licensees is given in Annexure 7.

### 6.3 Time of Use tariff for EDC

In the 267<sup>th</sup> Session held on 28 August 2014, EAC approved a Time of Use (TOU) tariff for MV consumers of EDC getting supply from the National Grid. The Time of Use tariff is optional, which means it will be applicable at the option of the MV consumer. The TOU tariff approved is given in the table below:

**Table 17: Time of Use Tariff for MV consumers of EDC**

Applicable to MV Consumers	Tariff	
	Time of use from 7:00 to 21:00	Time of use from 21:00 to 7:00
Connected at MV to Grid Substation of National Grid	13.90 US Cents/kWh	9.50 US Cents/kWh
Connected at MV to sub-transmission line of National Grid	17.90 US Cents/kWh	14.00 US Cents/kWh
Connected at MV to sub-transmission line of Phnom Penh System	19.00 US Cents/kWh	15.00 US Cents/kWh
Connected at MV to Substation of Phnom Penh System	17.50 US Cents/kWh	13.50 US Cents/kWh

#### 6.4 Tariff of EDC during 2014

##### 6.4.1 Tariff of EDC for Supply to Licensees and HV and MV Consumers supplied from National Grid

Tariff of EDC for Supply to Licensees and HV and MV Consumers supplied from Phnom Penh National Grid as approved by EAC is given in the following Table:

**Table 18: Tariff of EDC for supply at HV and MV from National Grid**

Type of Connection	Condition	Electricity Tariff, USD/kWh
Grid Tariff for bulk sale outside the distribution area of EDC	Connection at High Voltage from Grid Substation	0.1270
	Connection at Medium Voltage from Grid Substation	0.1290
Connection by Licensee from MV feeder of EDC getting supply from National Grid	Licensee having MV line to supply points at a distance of more than 20 km	0.1380
	Licensee having MV line to supply points at a distance of more than 15 km	0.1430
	Licensee having MV line to supply points at a distance of more than 8 km	0.1480
	For other Licensee not in the above categories	0.1530
Connection by Consumers from MV feeder of EDC getting supply from National Grid outside the area of Distribution of EDC	MV consumers outside the distribution area of EDC but connected to the internal supply system for a city or provincial town	Tariff for MV consumer of that city or town
	MV consumers outside the distribution area of EDC and not connected to the internal supply system for a city or provincial town	0.1680

#### 6.4.2 Tariff of EDC for Phnom Penh, Kandal Province and Provincial Town of Kampong Speu

The electricity tariff of EDC for Phnom Penh and Kandal Province and for Provincial Town of Kampong Speu up to billing month of December 2014 is given in the Tables below.

**Table 19: Tariff of EDC for Phnom Penh, Kandal Province and Provincial Town of Kampong Speu**

Category of Consumer	Electricity Tariff, Riels/kWh	Condition
Domestic in Phnom Penh and Takhmao Town of Kandal Province	610	All kWh if monthly consumption does not exceed 50 kWh
	720	All kWh if monthly consumption is from 51 to 200 kWh
	820	All kWh if monthly consumption is more than 200 kWh
Domestic in Ch. Bamon City of Kampong Speu Province	720	All kWh if monthly consumption does not exceed 200 kWh
	820	All kWh if monthly consumption is more than 200 kWh
Embassy, NGO and Foreign Residents and Institutions	820	
Customer paying by Government budget, Commercial (business) and -Industrial customers	Tariff rate = Estimated average cost of electricity purchased during the year + 3.6 US Cents/kWh	For small commercial and Industrial customers
	Tariff rate = Estimated average cost of electricity purchased during the year + 2.8 US Cents/kWh	For medium commercial and Industrial customers
	Tariff rate = Estimated average cost of electricity purchased during the year + 2.4 US Cents/kWh	For big commercial and Industrial customers
	Tariff rate = Estimated average cost of electricity purchased during the year + 2.0 US Cents/kWh	For commercial and Industrial Customer who is directly connected to MV

The estimated average cost of electricity purchased during the year was fixed as 16.18 US Cents/kWh.

### 6.4.3 Electricity Tariff of EDC at Provincial Towns, Cities and Town Centers

The electricity tariff of EDC for Provincial Towns, Cities and Town centers for the year 2013 is given in the Tables below.

**Table 20: Electricity Tariff of EDC for Provincial Town of Kampot, Takeo and Ang Tasom**

Category of Consumer	Electricity Tariff
Small consumer	920 Riels/kWh
Medium consumer	19.20 Cents/kWh
Big consumer	18.20 Cents/kWh
MV Customer	17.50 Cents/kWh

**Table 21: Electricity Tariff of EDC for Sihanoukville**

Consumer	Category	Electricity Tariff per kWh
Domestic	Monthly consumption not exceeding 200 kWh	720 Riels
	All kWh if monthly consumption more than 200 kWh	820 Riels
Customer paid by Government budget	all	820 Riels
i. Administration, Commercial, Industrial not paid by Government Budget ii. Embassy, NGO and Foreigner's Residence iii. Licensee connected outside the low voltage distribution system	Small	Energy Charge = Average cost of energy received by EDC Sihanoukville during the previous month +0.046 USD/kWh
	Medium	Energy Charge = Average cost of energy received by EDC Sihanoukville during the previous month +0.038 USD/kWh
	Big	Energy Charge = Average cost of energy received by EDC Sihanoukville during the previous month +0.034 USD/kWh
	MV Consumer 275 kVA to 500 kVA	Energy Charge = Average cost of energy received by EDC Sihanoukville during the previous month +0.025 USD/kWh
	MV Consumer 501 kVA to 1000 kVA	Energy Charge = Average cost of energy received by EDC Sihanoukville during the previous month +0.022 USD/kWh
	MV Consumer 1001 kVA to 3000 kVA	Energy Charge = Average cost of energy received by EDC Sihanoukville during the previous month +0.018 USD/kWh
	MV Consumer More than 3000 kVA	Energy Charge = Average cost of energy received by EDC Sihanoukville during the previous month +0.015 USD/kWh

**Table22: Electricity Tariff of EDC for Provincial Town of Siem Reap**

Category of Consumer	Electricity Tariff, Riels/kWh
Small consumer	820
Medium consumer	800
Big consumer	750
MV Customer	700
Licensees MV	660
Metering on LV, transformer by licensee	685
Supply at LV, Transformer by EDC	730

**Table23: Electricity Tariff of EDC for Provincial Towns of Battambang and Banteay Meanchey and Monkol Borey District Town**

Category of Consumer	Electricity Tariff, Riels/kWh
Small consumer	1000
Medium consumer	900
Big consumer	850
MV Customer	750
Licensees MV	660
Metering on LV, transformer by licensee	685
Supply at LV, Transformer by EDC	730

**Table24: Electricity Tariff of EDC for Kampong Cham**

Consumer	Category	Electricity Tariff per kWh
Domestic	all	920 Riels
Customer paid by Government budget	all	920 Riels
i. Administration, Commercial, Industrial not paid by Government Budget ii. Embassy, NGO and Foreigner's Residence iii. Licensee connected outside the low voltage distribution system	Small	Energy Charge = Average cost of energy received by EDC Kampong Cham during the previous month +0.046 USD/kWh
	Medium	Energy Charge = Average cost of energy received by EDC Kampong Cham during the previous month +0.038 USD/kWh
	Big	Energy Charge = Average cost of energy received by EDC Kampong Cham during the previous month +0.034 USD/kWh
	MV Consumer	Energy Charge = Average cost of energy received by EDC Kampong Cham during the previous month +0.030 USD/kWh

**Table 25: Electricity Tariff of EDC for other Provincial Towns and Town Centers**

Distribution Areas of EDC	Electricity Tariff per kWh	Condition
Provincial Town of Steung Treng	980 Riels	Domestic and Govt Institution
	980 Riels	Small Ind, Business
	920 Riels	Medium Ind, Business
	870 Riels	Big Ind, Business
	830 Riels	MV Consumer
	800 Riels	MVconsumer outside the distribution area
	600 Riels	MV consumer for pump set for agriculture during 22:00 to 7:00 Hrs
Provincial Town of Rattanakiri	670 Riels	Small consumer
	0.1550\$	Medium Consumer
	0.1450\$	Big Consumer
	0.1350	MV Consumer
	530 R	Licensee at MV
	550R	Metering on LV, transformer by licensee
	600R	Supply at LV, Transformer by EDC
Provincial Town of Prey Veng, Kratie and Mondulkiri	1,050 Riels	Domestic
	1,050 Riels	Govt. Institutions

	11.5 US cents	MV Consumers

## Annex 1

## Province wise Area of supply served by Distribution, Retail and Consolidated Licensees at the end of Year 2014

Province/ city	Area of supply	License Number	Name of Licensee	Type of License	Connection to grid supply/Hours of Supply per Day
1 Banteay Meanchey	Provincial Town of Banteay Meanchey and surrounding area and Mongkul Borei District Town	001L	EDC	Consolidate (Generation + Distribution + Transmission)	National Grid
	Some areas of O Chrov District	011L	Anco Brothers Co., Ltd	Distribution	Thai MV +National Grid
	Some parts of Mongkul Borei District and Preah Net Preah District	077L	Mrs Chao Nuy	Distribution	National Grid
	Khum Kotsat, Khum Nimit, Khum Kob, Khum Samrong, and some parts of Khum Sophy, Khum Soeung, O-chrov District, and Khum Takong, Malay District	078L	Mr.Pak Sun Heng	Consolidate (Generation + Distribution)	Thai MV +National Grid
	Some parts of Khum Phnom Toch, Khum Chamnom, Khum Soeu and Khum O-Prasat, Mongkul Borey District	079L	Mr.Thon Thoeurn	Distribution	National Grid
	Khum Banteay Neang and Khum Talam, Mongkulborei District	080L	Mr. Sok Vitith	Distribution	National Grid
	Some parts of Khum Sreah Chik, and Khum Phnom Dey, Phnom Srok District	081L	Mr. Muon Han	Consolidate (Generation + Distribution)	24 Hours
	Some parts of Khum Chamnom, Khum Rohat Toeuk and Khum O-Prasat, Mongkul Borei District	105L	Mr. Soeung Sovanna	Distribution	National Grid

Some parts of Preahnet Preah District, and Krong Sereysophon	108L	Mrs. Sin Savuon	Consolidate (Generation + Distribution)	National Grid
Malay District Town	149L	Sinn Khim Import Export Co., Ltd	Distribution	Thai MV Grid
Some parts of Preah Net Preah District and Phnom Srok District	164L	Vathanak N.T. Angkor Co., Ltd,	Consolidate (Generation + Distribution)	National Grid
Some parts of Thmar Puok, Svay Chek, Ochrov Districts, and Krong Serey Sophorn	189L	Phum Nimit Co, Ltd	Consolidate (Generation + Distribution)	National Grid
Svay Chek District Town	190L	Mr. Mak Van	Consolidate (Generation + Distribution)	National Grid
Some parts of Khum Changha, Khum Sophy, and Khum Soeung, O-Chrov District	257L	Mrs. Nhem Yan	Consolidate (Generation + Distribution)	Thai MV +National Grid
Some parts of Khum O-Beychorn, Khum Soeung, Khum Nimit, O-Chrov District, and Khum Sla Kram, Svay Chek District	276L	Mr. Chun Rithy	Distribution	Thai MV Grid
Some parts of Khum Poycha and Khum Srahcheak, Phnom Srok District	289L	Mrs. Duong Sambin	Consolidate (Generation + Distribution)	National Grid
