Preface

The Electricity Authority of Cambodia (EAC) is pleased to present the “Report on Power Sector of the Kingdom of Cambodia”, 2024 edition. This report is compiled based on data for the Year 2023 available with EAC and received from licensees, Ministry of Mines and Energy (MME) and other organizations in the power sector and aims to disseminate to the Royal Government, Ministries/institutions, investors and public desirous to know about the situation of the power sector in the Kingdom of Cambodia during the year 2023. The data received from some licensees may not be up to the required level of accuracy and hence, the information provided in this report may be taken as indicative for the study of key developments relevant to power sources, transmission services, power supply services to consumers, electricity tariff, electricity connection for consumers, number and type of consumers, and electricity supply by licensees in the Kingdom of Cambodia.

By the end of 2023, almost 99.99% of the consumers were connected to the National Grid system. As of 2023, only 2 licensees are operating the isolated system using diesel. All licensees, including the licensees operating an isolated system, are supplying electricity power for 24 hours a day. As reported by the licensees by the end of 2023 in the Kingdom of Cambodia, the number of villages having access to electricity is 14,008, which is 0.61% and the number of consumers is 3,804,892, which is 4.40% and energy sold 15,251.07 million kWh, which is 14.14% higher than the number reported in 2022.

The electricity tariff as of 2023 remained the same as that of 2022 so as not to affect the citizens’ livelihoods despite the low growth in domestic consumption demand and the Royal Government has subsidized hundred millions of dollars in order to stabilize the electricity tariff while the world is facing a sharp rise in global electricity tariffs; particularly, the neighboring countries of Cambodia have experienced significant increases in their electricity tariffs due to the global Covid-19 pandemic and the ongoing Russia-Ukraine war, which have driven up the cost of raw materials for electricity generation.

Any comments or suggestions from the Royal Government, institutions, investors or public to further improve the Annual Report published by EAC are welcome and will be considered by EAC to publish more useful reports in future reflecting the actual situation in the power sector.

The Electricity Authority of Cambodia expects that this report will be a valuable document for information of the power sector in the Kingdom of Cambodia for the year 2023.

Chairman
Electricity Authority of Cambodia

Table of Contents

CHAPTER 1	Principle of Law and Regulations for Management of Power Sector in the Kingdom of Cambodia	1
1.1	Electricity Law of the Kingdom of Cambodia.....	2
1.2	Responsibilities of the Ministry of Mines and Energy and Electricity Authority of Cambodia in the Power Sector.....	2
1.3	Duties of the Electricity Authority of Cambodia in the Power Sector.....	3
1.3.1	Regulation of the Electric Power Services	3
1.3.2	Governance of Relation between Delivery, Receiving and Use of Electricity.....	4
1.3.3	Powers and Duties of the Electricity Authority of Cambodia	4
1.3.4	Legal Documents for Governing and Regulating Electric Power Services and Use of Electricity	5
CHAPTER 2	Information on the Electricity Authority of Cambodia, Regulator for the Power Sector in the Kingdom of Cambodia	8
2.1	Regulator for the Power Sector	9
2.2	Organization of the Electricity Authority of Cambodia	9
2.3	Budget of the Electricity Authority of Cambodia and License Fees	10
2.4	Financial Statements of the Electricity Authority of Cambodia	11
CHAPTER 3	Information on Licenses and Licensees in the Kingdom of Cambodia	12
3.1	Licenses for Providing Electric Power Services	13
3.2	Licenses Issued, Revoked and Changed of Type during 2023	14
3.3	Revision of Licenses	15
3.4	Licenses for Providing Electric Power Services during the Decade	15
CHAPTER 4	Report on Generation, Import and Transmission	16
4.1	Generation in the Kingdom of Cambodia	17
4.1.1	Generation by Types of Licensees	17
4.1.2	Generation by Generation Facilities	18
4.1.3	Generation Projects under Implementation and Planning	19
4.2	Energy Imported from Neighboring Countries	20
4.3	Electricity Transmission	20
4.3.1	High Voltage System	20
4.3.2	High Voltage Lines under Construction	27
4.4	Operation of the High Voltage Grid System	27
CHAPTER 5	Report on Transmission Medium Voltage Lines and Supply of Electricity.....	28
5.1	Development of Medium Voltage Lines	29
5.2	Grid Supply Systems	30
5.3	Isolated Supply Systems	30
5.4	Supply of Electricity to Consumers	30
5.5	Supply of Electricity during the Decade	31

CHAPTER 6	Electricity Tariff of Licensees	32
6.1	Electricity Tariff of Licensees with Special Conditions, not in the Group of Licensees Connected to the National Grid	33
6.2	Electricity Tariff of Licensees Connected to National Grid and Implementation of Strategic Plan for Reducing Electricity Tariff	33
6.3	Electricity Tariff of EDC for Sale to Consumers	34
6.3.1	Connection from Grid Substation, Sub-transmission line and from the National Grid	34
6.3.2	Tariff of EDC for Normal Areas Getting Supply from Vietnam at MV	36
6.3.3	Tariff of licensees other than EDC connected to National Grid	36
Annex 1	Information on each Province/City Area of Supply Served by Distribution, Retail, Consolidated and Sub-contract Licensees at the End of Year 2023	37
Annex 2(a)	Summary Information on Generation and Import of Energy	80
Annex 2(b)	Summary Information on Installed Capacity and Energy Sent Out	81
Annex 2(c)	Summary Information on Generation Facilities and Energy Sent Out Classified by Generation Type	82
Annex 3	Summary Information on Generation Licensees for the Year 2023	83
Annex 4	Summary Information on Power Supply of Electricité du Cambodge for the Year 2023	86
Annex 5(a)	Summary Information on the National Grid Systems	88
Annex 5(b)	Summary Information of Consolidated Licensees on Isolated Systems with Own Generation	132
Annex 6	Information on Licenses not Valid at the End of Year 2023	133
Annex 7(a)	Tariff of Licensees (Other than EDC) Connected from National Grid for the Year 2023	139
Annex 7(b)	Tariff in Annex 7(a) is applicable for Licensees Stated in this Annex 7(b) for the Year 2023	144
Annex 7(c)	Electricity Tariff of Licensees with Special Conditions, Not in the Group of Licensees Connected to the National Grid for the Year 2023	155
Annex 8	Province-wide Number of Villages Covered by Licensed Areas	163

Chapter 1

Principle of Law and Regulations for Management of Power Sector in the Kingdom of Cambodia

Principle of Law and Regulations for Management of Power Sector in the Kingdom of Cambodia

1.1 Electricity Law of the Kingdom of Cambodia

The Electricity Law of the Kingdom of Cambodia was adopted by the National Assembly on November 6, 2000 in the 5th plenary session of its 2nd legislature, and reviewed and entirely adopted by the Senate on the legal form and substance on December 13, 2000 in the 4th plenary session of its 1st legislature, and declared in conformity with the Constitution by the Constitutional Council on January 15, 2001. The Law was finally promulgated by ROYAL KRAM No. NS/RKM/0201/03 dated February 2, 2001 by Preah Bath Samdech Preah Norodom Sihanouk, King of Cambodia. The Electricity Law of the Kingdom of Cambodia has been amended first in 2007 and again in 2015. The purpose of this law is to govern and to prepare a framework for the electric power supply and services throughout the Kingdom of Cambodia. This law covers all activities related to supply of electricity, provision of services and use of electricity and other associated activities of power sector.

In preparation of a framework for the electric power supply and services throughout the Kingdom of Cambodia, the Law provides for the establishment of “Electricity Authority of Cambodia (EAC)”, a legal public entity, being granted the right by the Royal Government to be an autonomous agency to regulate the power sector in the Kingdom of Cambodia.

The Electricity Law provides that the Electricity Authority of Cambodia shall consist of three Members, including the Chairman. The Chairman and Members shall be designated and proposed by the Prime Minister and shall be appointed by Royal KRET. Each Member shall have a 3 (three) years term, which shall be staggered so that the term of the initial members shall expire at different times.

As per the Electricity Law of the Kingdom of Cambodia, “no person may operate as an electric power utility or provide electric power services unless he/she has performed under and in accordance with the terms of a valid license issued by EAC.

Regulations, orders and decisions issued by EAC are enforceable as per the Electricity Law. EAC is competent to file complaints to the courts of the Kingdom of Cambodia for any violation of the provisions of the Electricity Law or the regulations, orders, decisions as well as licenses issued by EAC.

The Law also provides for the rights, obligations and penalty on the service providers as well as the consumers in order to establish fair conditions in the business and the use of electricity.

1.2 Responsibility of the Ministry of Mines and Energy and Electricity Authority of Cambodia in Power Sector

Article 3 of the Electricity Law of the Kingdom of Cambodia defines the responsibility of the Ministry of Mines and Energy and Electricity Authority of Cambodia (EAC) separately. As per the provisions of this article, after EAC has started its operation, the governing of the power sector in the Kingdom of Cambodia shall be bifurcated: 1-the Ministry of Mines and Energy shall be responsible for setting and administrating the government policies, strategies and planning in the power sector and 2-the Electricity Authority of Cambodia shall ensure that the provision of services and the use of electricity shall be performed efficiently, qualitatively, sustainably and in a transparent manner.

The Ministry of Mines and Energy, through its duty for setting and administering the government policies and strategic plans in the power sector, is the specialized institution of the Royal Government to chalk out the path that the power sector in the Kingdom of Cambodia is going to take. The institution is also responsible for setting the technical standards for the entire power sector.

The Electricity Authority of Cambodia is responsible for issuing rules, regulations and procedures and for monitoring, guiding and coordinating operators in the power sector, both suppliers and consumers, including requiring them to follow the policies and guidelines and technical standards issued by the Ministry of Mines and Energy. EAC has to ensure that the provision of services and use of electricity shall be performed efficiently, qualitatively, sustainably and in a transparent manner.

The roles of the two organizations in governing the power sector in the Kingdom of Cambodia as provided in the Electricity Law of the Kingdom of Cambodia is shown in the following diagram:

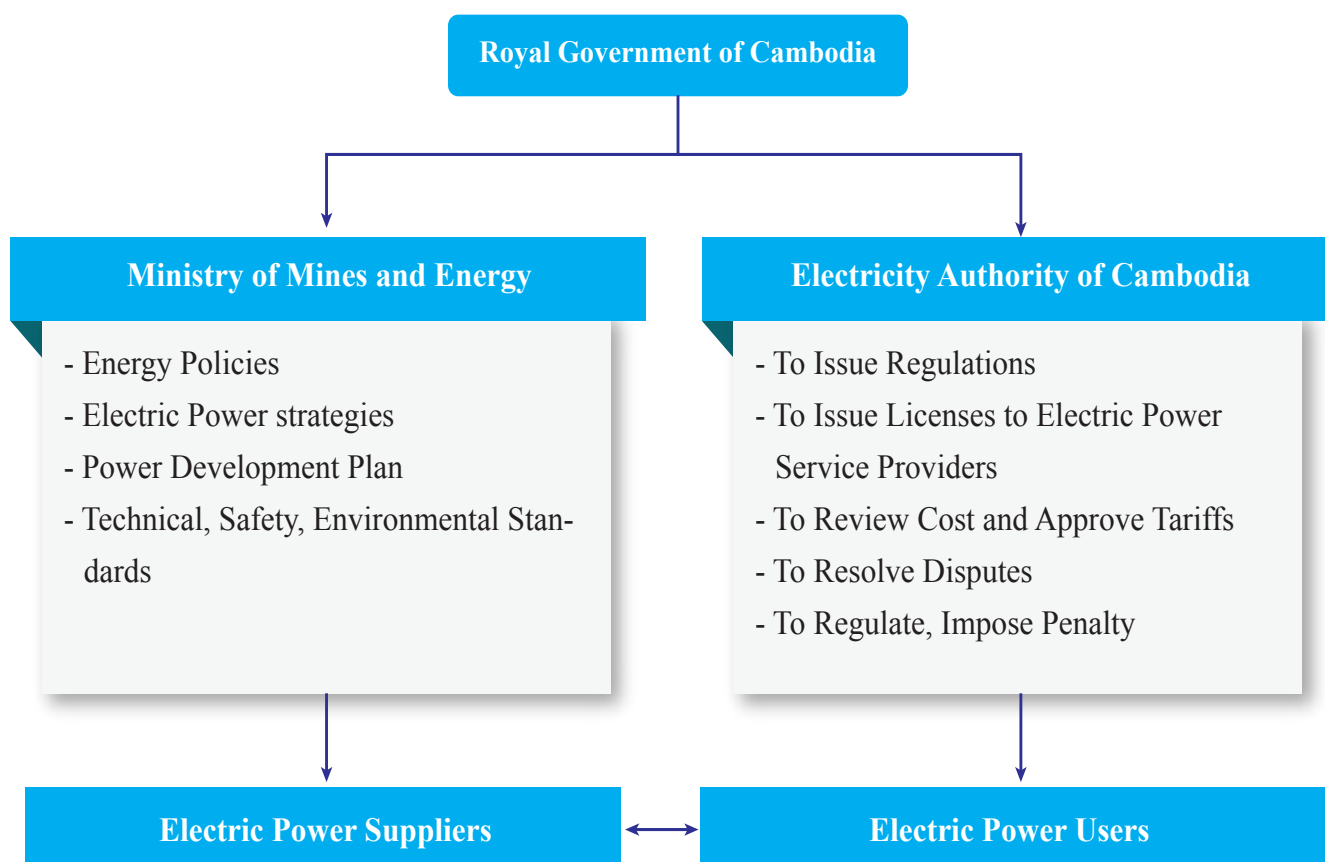

Figure 1: Separation of role between MME and EAC

1.3 Duties of the Electricity Authority of Cambodia in the Power Sector

1.3.1 Regulation of the Electric Power Services

Electricity Law of the Kingdom of Cambodia has granted the right and autonomy to EAC to regulate the activities relating to Electric Power Services in order to ensure that the services and the business of the electric power service providers are actually carried out efficiently, qualitatively, sustainably and in a transparent manner. Granting the right to EAC to regulate these services does not mean that Law has provided for EAC to get involved in or to manage the internal business of the electric power service providers, but it allows EAC to advise, guide or direct the service provider, to modify or cease such activities to ensure that the service is being performed efficiently, qualitatively, sustainably and in a transparent manner. The guiding action or direction to revise or cease any activity is to be carried out in public interest and to protect the interest of the consumers.

1.3.2 Governance of Relation between Delivery, Receiving and Use of Electricity

The relation between Delivery, Receiving and Use of Electricity means the relations between generators and transmitters, between generators and distributors, between transmitters and distributors or between suppliers and consumers. These relations relate only to the cycle of delivery, receiving and use of electricity. The relations can cover the conditions of delivery and receiving electric power services between the above parties; the obligations and rights of the above parties in delivery and receiving electric power services; the cost of electric power services that one party pays to the other party; the quality of electric power services that one party provides to other parties etc.

Electricity service is the electric power service provided by one party to another party, in which electric power service does not mean only "electricity" provided by the supplier to the consumer or generation, transmission or distribution services provided by one licensee to another licensee but it can also be any electrical work, such as installation of electrical equipment and network lines, maintaining and repairing facilities, or implementation of any work in the electric power service, which is provided by one licensee to another licensee or which is provided by a licensee to consumers.

1.3.3 Powers and Duties of the Electricity Authority of Cambodia

According to Article 7 of the Electricity Law of the Kingdom of Cambodia, EAC has the following powers and duties:

- (a) To issue, revise, suspend, revoke or deny the licenses for the supply of electric power services;
- (b) To approve tariff rates and charges and terms and conditions of electric power services of licensees, except where the Electricity Authority of Cambodia considers those rates or charges and terms and conditions are established pursuant to a competitive, market-based process;
- (c) To enforce regulations, procedures and standards for investment programs by licensees;
- (d) To review the financial activities and corporate organization structure of licensees to the extent that these activities and organization directly affect the operation of the power sector and the efficiency of electricity supply;
- (e) To approve and enforce the performance standards for licensees;
- (f) To evaluate and resolve consumer complaints and contract disputes involving licensees, to the extent that the complaints and disputes related to the violation of the conditions of license;
- (g) To approve and enforce a uniform system of accounts for all licensees;
- (h) To prepare and publish reports of power sector and relevant information received from licensees for the benefit of the Royal Government and the public;
- (i) To prescribe fees applicable to licensees;
- (j) To determine the procedures for informing the public about its activities within its duties, in order to ensure that the Electricity Authority of Cambodia complies with the principle of transparency as set forth in Article 3 of this law;
- (k) To issue rules and regulations and to make appropriate orders, and to issue temporary and permanent injunction for electric power services;
- (l) To impose monetary penalty, disconnect power supply, suspend or revoke the license for the violations of this Law, standards and regulations of the Electricity Authority of Cambodia;
- (m) To require the electric power service providers and consumers to obey the rules relating to the national energy security, economic, environmental and other Royal Government policies;

- (n) To perform any other function incidental or consequential to any of the duties as describe above; and
- (o) To establish the terms and conditions of employment of officers or employees including experts/advisors of the Electricity Authority of Cambodia.

1.3.4 Legal Documents for Governing and Regulating Electric Power Services and Use of Electricity

The types of Legal Documents for governing and regulating electric power services and use of electricity in the Kingdom of Cambodia are classified in Table 1 below:

Table 1: Legal Documents for Regulating Electric Power Services and Use of Electricity

1 Law	The Electricity Law of the Kingdom of Cambodia and other Laws to manage and regulate the power sector. Laws are main documents in regulating all activities in power sector and also the main basic for preparation of other legal documents needed for managing and regulating the power sector.
2 Legal Documents of Government Level	Sub-Decree, Decision, Notification etc. of the Royal Government. These documents are for determining the power sector policy and for regulating the activities in the power sector and are issued by the Royal Government under the provisions of the Electricity Law. The main principles of the power sector, which are not defined in the Law, can also be issued for application as a standard document of the Royal Government.
3 Legal Documents of Ministry Level	Declaration (Prakas) and Decisions of the Ministry of Mines and Energy. These are the documents for managing the works, which are under the duties of Ministry of Mines and Energy such as development plan policy, strategy, technical standards and other determinations in the power sector such as: - Investments in the rehabilitation and development of the power sector for the short, medium and long term; - Restructuring, private sector participation and privatization of Public Utilities; - Promotion of the use of indigenous energy resources in the generation of electricity; - Planning and agreements on the export and import of electricity; - Subsidies to specific classes of customers and priorities regarding consumers of electricity; - Promotion of efficiency in generation, transmission, distribution and consumption of electricity and action taken to create the Energy Efficiency and Conservation Program of Cambodia; and Electricity sector emergency and energy security strategies.
4 Legal Documents of EAC	Licenses, regulations, procedures and decisions of the Electricity Authority of Cambodia, which are issued by EAC under the framework of the Electricity Law. These documents are for managing and regulating the electric power services and the use of electricity in the Kingdom of Cambodia.

The legal documents prepared and put into force for managing and regulating the provision of services and use of electricity in the Kingdom of Cambodia up to the end of the year 2023 are shown in Table 2 below:

Table 2: Basic Legal Documents for Managing and Regulating the Provision of Services and Use of Electricity

No.	Name of Standard Documents	Promulgated by	Date Promulgated
1	Electricity Law of the Kingdom of Cambodia Amendment to Article 9 to the Electricity Law of the Kingdom of Cambodia Amendment of Articles 3, 4, 5, 26, 27, 28, 42, 74 to the Electricity Law of the Kingdom of Cambodia	The King	February 2, 2001
			June 22, 2007
			May 18, 2015
2	Sub-decree on the Rate of the Maximum License Fees applicable to Electric Power Service Providers in the Kingdom of Cambodia	Royal Government	December 27, 2001

	Revision 1		December 12, 2002
	Revision 2		March 16, 2004
4	Regulations on General Conditions of supply of Electricity in the Kingdom of Cambodia	Electricity Authority of Cambodia	January 17, 2003
	Revision 1		December 17, 2004
	Revision 2		March 15, 2016
5	Regulatory Treatment of Extension of Transmission and Distribution Grid in the Kingdom of Cambodia	Electricity Authority of Cambodia	October 28, 2003
6	Regulations on Overall Performance Standards for Electricity Suppliers in the Kingdom of Cambodia	Electricity Authority of Cambodia	April 2, 2004
7	Procedure for Filing Complaints to EAC and for Resolution of Complaints by EAC	Electricity Authority of Cambodia	April 2, 2004
8	General Requirements of Electric Power Technical Standards of the Kingdom of Cambodia	Ministry of Industry, Mines and Energy	August 16, 2004
	Revision 1		August 9, 2007
9	Sub-decree on Establishment of Rural Electrification Fund of the Kingdom of Cambodia	The King	December 4, 2004
10	Sub-decree on Principles for Determining the Reasonable Cost in Electricity Business	Royal Government	April 8, 2005
11	Prakas on Principles and Conditions for issuing Special Purpose Transmission License in the Kingdom of Cambodia	Ministry of Industry, Mines and Energy	July 21, 2006
12	Specific Requirements of Electric Power Technical Standards of the Kingdom of Cambodia	Ministry of Industry, Mines and Energy	July 17, 2007

13	Regulations on General Principles for Regulating Electricity Tariffs in the Kingdom of Cambodia	Electricity Authority of Cambodia	October 26, 2007
14	Procedures for Data Monitoring, Application for Review and Determination of Electricity Tariff	Electricity Authority of Cambodia	October 26, 2007
15	Grid Code	Electricity Authority of Cambodia	May 22, 2009
16	Decision on limiting the electricity connections fees and deposits for electricity connection requests in the Kingdom of Cambodia	Electricity Authority of Cambodia	October 26, 2010
17	Decision on limiting deposit, connection fee for consumption, and Fee for Electricity Providers executed Electricity Supply in the Kingdom of Cambodia	Electricity Authority of Cambodia	November 18, 2015
18	Decision on revising the connection fee and deposit for consumption from EDC's supply system	Electricity Authority of Cambodia	November 25, 2015
19	Decision on reviewing on limiting connection fee, deposit for electricity consumption and service fee for electricity providers to provide electricity supply in the Kingdom of Cambodia	Electricity Authority of Cambodia	December 28, 2015
20	Regulations on General Conditions for connecting Solar PV Generation sources to the Electricity Supply System for National Grid or to the Electrical System of Consumer connected to the Electricity Supply System of National Grid	Electricity Authority of Cambodia	January 26, 2018
21	Regulation on imposing monetary penalty for violation of electricity law of the Kingdom of Cambodia and violation of license conditions, regulations, decisions, orders and procedures issued by the Electricity Authority of Cambodia	Electricity Authority of Cambodia	July 21, 2020
22	Guideline of the Electricity Authority of Cambodia on determining types of consumers: “residential consumers”, “industrial and agricultural consumers”, “commercial, administrative and other consumers”, “small business” and “special purpose” connected to National Grid	Electricity Authority of Cambodia	December 16, 2020
23	Principles for “Rights, Duties and Responsibilities on Electricity Supply and Investment in Electricity Supply Infrastructure in Condominium Development Areas and Commercial Investment Areas”	Electricity Authority of Cambodia	August 15, 2022

The contents of the legal documents stated in Table 2 above are available on EAC’s website: **www.eac.gov.kh**

Chapter 2

Information on the Electricity Authority of Cambodia, Regulator for the Power Sector in the Kingdom of Cambodia

Information on the Electricity Authority of Cambodia, Regulator for the Power Sector in the Kingdom of Cambodia

2.1 Regulator for the Power Sector

According to the Electricity Law, the Electricity Authority of Cambodia shall consist of (three) members. The members of EAC shall be designated and proposed by the Prime Minister and shall be appointed by the Royal KRET. The members of EAC during 2023 are as follows:

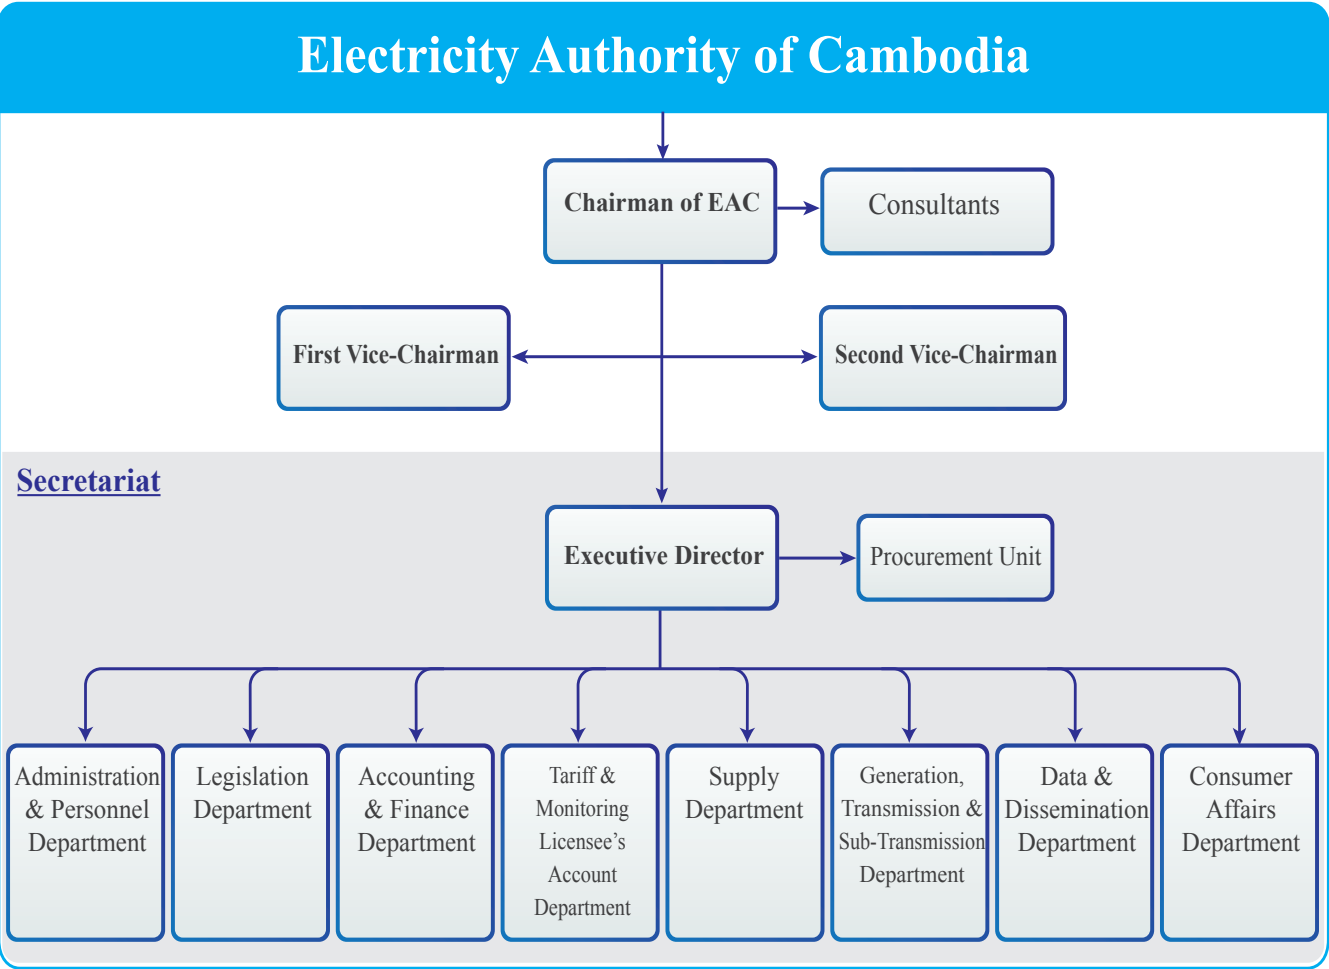

1. H.E. Yim Viseth, Chairman
2. a. H.E. Dr. Ty Thany, First Vice-Chairman (up to February 2023)
b. H.E. Dr. Phang Sarinn, First Vice-Chairman (from February 2023)
3. H.E. Dr. Teng Sokhomal, Second Vice-Chairman (from February 2023)

2.2 Organization of the Electricity Authority of Cambodia

As provided by the Electricity Law, EAC shall have one secretariat for assistance. This secretariat shall be headed by an Executive Director. The Executive Director shall be appointed by Chairman of EAC after consultation with other members.

Currently, the Electricity Authority of Cambodia has prepared its organization structure as shown in the diagram below. The highest authorities of EAC are the three regulators i.e. the chairman of EAC and the two vice-chairmen. Under the chairman and vice-chairmen, there is one secretariat headed by an executive director. Secretariat provides support to EAC for administrative and technical works and controlling the specialized departments under it. The secretariat has eight departments and one department unit. The departments of the secretariat are: 1-Department of Administration and Personnel is in charge of administration, information technology and management of movable and immovable properties of EAC; 2-Department of Legislation is in charge of Legal works, resolution of disputes and imposition of fines; 3-Department of Accounting and Finance is in charge of finance, License fees and accounts works of EAC; 4-Department of Tariff and Monitoring of Licensees' Accounts is in charge of monitoring and approval of tariffs of licensees for sale of electricity, the accounts of licensees to assess the cost of supply, marketing and monitoring subsidies; 5-Department of Supply is in charge of technical activities, operation of providing electricity services, and in charge of all distribution services and regulation of other services for distribution system and sub-transmission services that connected in addition to its distribution services; 6-Department of Generation, Transmission and Sub-transmission is in charge of technical activities and physical electricity service operations that are not related to finance and tariffs. This department is in charge of only bulk sale services such as bulk sale production services, transmission services and sub-transmission services; 7-Department of Data Management and Dissemination is in charge of works relating to consolidation of data and information collected from all departments of the secretariat and is responsible for managing and disseminating the information to the public being as EAC; 8-Department of Consumer Affairs is in charge of providing services and other works to consumers. The Procurement Department Unit, working directly under the Executive Director and guided by the Procurement Committee (PC), is responsible for public procurements, planning, methods and procurement of supplies and services; and it works with the direct assistance of Prequalification Evaluation Awards Committee (PEAC) for reviewing costs to propose expenditure budget for purchases, supplies and services.

The organization structure of EAC is as shown in the schematic diagram given below.

2.3 Budget of the Electricity Authority of Cambodia and License Fees

The Electricity Authority of Cambodia is an autonomous agency working for the interest of all electric power service providers and electricity users in the Kingdom of Cambodia. Therefore, the expenditure of EAC for its operation is to be borne by all electric power service providers in the form of payment of license fees. Article 27 of the Electricity Law provides that EAC shall have an autonomous budget for its operation. This budget shall come through License Fees paid by applicants and licensees as determined by EAC. For governing the license fees charged by EAC, the Electricity Law has further provisions that “The maximum license fees are to be determined by a Sub-Decree of the Royal Government”.

Under the provisions of the Electricity Law of the Kingdom of Cambodia, the Royal Government has issued Sub-Decree No. 131 ANK.BK, dated December 27, 2001 determining the maximum license fees applicable to the electric power service providers in the Kingdom of Cambodia.

According to the Electricity Law and maximum license fees stated in the Sub-Decree, EAC shall determine the rate of license fees to be paid by licensees every year. For the year 2023, EAC determined the license fees to be paid by licensees based on the Decision No. 021-SR-23-EAC, dated February 9, 2023.

The license fees determined for the years 2022 and 2023 are given in Table 3 below.

Table 3: License Fees to be paid by Licensees

Type	Riel per kWh	
	Year 2022	Year 2023
Power Generated or Purchased from any other country	1.00	1.00
Transmission	0.30	0.30
Distribution	0.45	0.45
Retail Sale	0.30	0.30
Services provided under other licenses	0.10%	0.10%

2.4 Financial Statements of the Electricity Authority of Cambodia

The Electricity Law provides that the annual financial statement, together with the accounting books and related records of the Electricity Authority of Cambodia, shall be audited and inspected by the National Audit Authority. Within 1 (one) month after being audited, the Electricity Authority of Cambodia shall submit all reports to the Prime Minister for approval, and shall publish the approved reports to the public.

The audited income statement of the Electricity Authority of Cambodia for the years 2021 and 2022 is given below.

Table 4: Income and Expense Statements for the Years 2021 and 2022

(After the Audit)
All figures in Riels

Description	2021	2022
Revenues		
License Fees	23,937,079,400.00	25,901,493,800.00
Application Fees	14,600,000.00	5,450,000.00
Other Revenue	1,321,100.00	61,191,000.00
Total Revenues	23,953,000,500.00	25,968,134,800.00
Expenses		
Fixed Assets	7,038,016,175.00	8,909,507,000.00
Salary	13,985,448,630.00	13,595,808,650.00
General Administration	4,552,798,541.89	5,816,011,585.01
Total Expenses	25,576,263,346.89	28,321,327,235.01
Deposit		
Deposit	12,338,379,868.71	10,701,759,708.30
Total Income	23,953,000,500.00	25,968,134,800.00
Total Expenditure	25,576,263,346.89	28,321,327,235.01
Surplus/Deficit (Income-Expense)	(1,623,262,846.89)	(2,353,192,435.01)
Exchange Rate	(13,357,313.52)	(7,801,381.69)
Closing Balance (Including Deposit)	10,701,759,708.30	8,340,765,891.60

Chapter 3

Information on Licenses and Licensees in the Kingdom of Cambodia

Information on Licenses and Licensees in the Kingdom of Cambodia

3.1 Licenses for Providing Electric Power Services

As per the provisions of the Electricity Law, each electricity service provider is required to have a license issued by EAC and to abide by the provisions of the Electricity Law, all provisions set out in its license as well as other regulations and procedures issued by EAC. A License authorizes the licensee to provide electric power services. It is a legal permit granted by EAC to any natural person or legal entity to have the right to provide electric power services as set forth in the provisions stated in the license (called the Conditions of License). According the above definition, each license has two main contents:

- a. Decision to grant the right to provide the electric power service, and
- b. Conditions of License for providing the electric power services.

Types of licenses that can be issued and regulated by EAC are stated below:

1. **Generation License:** It grants the right to generate electric power services from specified generation facilities.
2. **Transmission License:** It grants the right to provide transmission services. There are 2 types of Transmission License: National Transmission License and Special Purpose Transmission License.
 - i. **The National Transmission License** can be issued only to state power transmission company, which is under the Government control, to have the right to provide the transmission service for delivering the electric power to the distribution companies and bulk power consumers throughout the Kingdom of Cambodia,
 - ii. **The Special Purpose Transmission License** grants the right to construct, own, and operate specified transmission facilities in the Kingdom of Cambodia for the specified purpose.
3. **Distribution License:** It grants the right to provide the electricity distribution services in a determined contiguous territory.
4. **Consolidated License:** It is a license, which may be the combination of some or all types of licenses. The Consolidated License can be issued to EDC and to the isolated systems to grant the right to generate, transmit, dispatch, distribute and sell electric power to consumers. In issuing Consolidated License, EAC shall consider long term planning and the objectives of the Royal Government policy to reduce long run marginal cost for supply of electricity to consumers, establish a national grid and progressively expand this grid throughout the Kingdom of Cambodia.
5. **Dispatch License:** It grants the right to control, manage, and operate the dispatch facilities for facilitating delivery and receiving electricity from the generation, transmission and distribution systems.
6. **Bulk Sale License:** It grants the right to buy electricity from any Generation Licensee or from the power systems of neighboring countries for sale to Distribution Licensees or to large customers in one connected power system.
7. **Retail License:** It grants the right to engage in the sale of electric power to consumers in a contiguous service territory.

8. **Subcontract License:** It grants the right to provide electric power services according to the subcontract agreement with the existing licensee.

3.2 Licenses Issued, Revoked and Changed of Type during 2023

Types and number of licenses issued, revoked and valid during the year 2023 are given in the Table below.

Table 5: Types and Number of Licenses Issued and Valid

No.	Type of License Issued	valid till the end of 2022	Issued during 2023	Revoked during 2023	Change of type during 2023	Valid till the end of 2023
1	Consolidated License consisting of Generation, Distribution and National Transmission Licenses	1				1
2	Generation License	33	4	2		35
3	Special Purpose Transmission License	10			+1	11
4	Consolidated License consisting of Special Purpose Transmission and Distribution Licenses	8			-1	7
5	Distribution License	344	4	1	+4	351
6	Retail License	5				5
7	Consolidated License consisting of Generation and Distribution Licenses	13			-4	9
8	Subcontract License	49	3			52
TOTAL		463	11			471

Franasie Import Export Co., Ltd holding license number 008L was terminated by transfer of their electricity business to S.K.P.N.K Investment Co., Ltd holding license number 403L. Details of terminated or invalid licenses at the end of the year 2023 are given in Annexure 6.

Electricite Du Cambodge holding license number 001L is the only licensee in the Public Sector while all other licensees are in the Private Sector.

Province-wide areas of supply served by Consolidated Licensees, Distribution Licensees, Retail Licensees and Subcontract license are given in Annex 1. In case a licensee is connected to National Grid or connected to neighboring countries, the Annex 1 shows it as “Grid Connected” and for licensees with isolated operation, the annexure shows the normal hours of supply for the licensee.

Map of Provinces of Cambodia showing the location of the licensed areas of supply up to the end of 2023 is given separately in this report.

3.3 Revision of Licenses

Licenses are revised from time to time, as required, for various reasons. During 2023, the revisions were for renewal of term 8 licenses, extension of term 32 licenses, extension of distribution area of supply 19 licenses, withdrawal of distribution area of supply 11 licenses, change of the names of licensee 11 licenses, change of ownership of license 5 licenses.

3.4 Licenses for Providing Electric Power Services during the Decade

EAC issued the first license in February 2002. The types of license issued during the initial years were (i) Consolidated License consisting of Generation, National Transmission and Distribution License (issued to EDC), (ii) Generation License, (iii) Distribution License and (iv) Consolidated License consisting of Generation and Distribution License. The first Retail License was issued in July 2006. With the construction of 115 kV transmission line from Thailand border to Banteay Meanchey, Battambang and Siem Reap invested by the private sector, the first Special Purpose Transmission License was issued in February 2007. With the development of sub-transmission system and expansion of distribution to new areas, where are non-electrified, the first Consolidated License, consisting of Special Purpose Transmission and Distribution License, was issued in June 2008. EAC issued the first Sub-contract License in April 2020.

The number of licenses valid at the end of each year during 2014-2023 is given in the following Table:

Table 6: Number of Different Types of Licenses Valid during the Decade

Type of License	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
EDC	1	1	1	1	1	1	1	1	1	1
Generation	21	20	21	24	23	25	27	30	33	35
Special Purpose Transmission License	7	9	9	9	9	8	8	10	10	11
Consolidated (Spl Pur. Trans.+Distr.)	7	7	7	8	8	8	8	8	8	7
Distribution	139	167	250	270	289	317	334	338	344	351
Retail	4	5	5	5	5	5	5	5	5	5

Subcontract License	-	-	-	-	-	-	34	40	49	52
Total	360	366	370	375	377	385	429	444	463	471

Chapter 4

Report on Generation, Import and Transmission

Report on Generation, Import and Transmission

4.1 Generation in the Kingdom of Cambodia

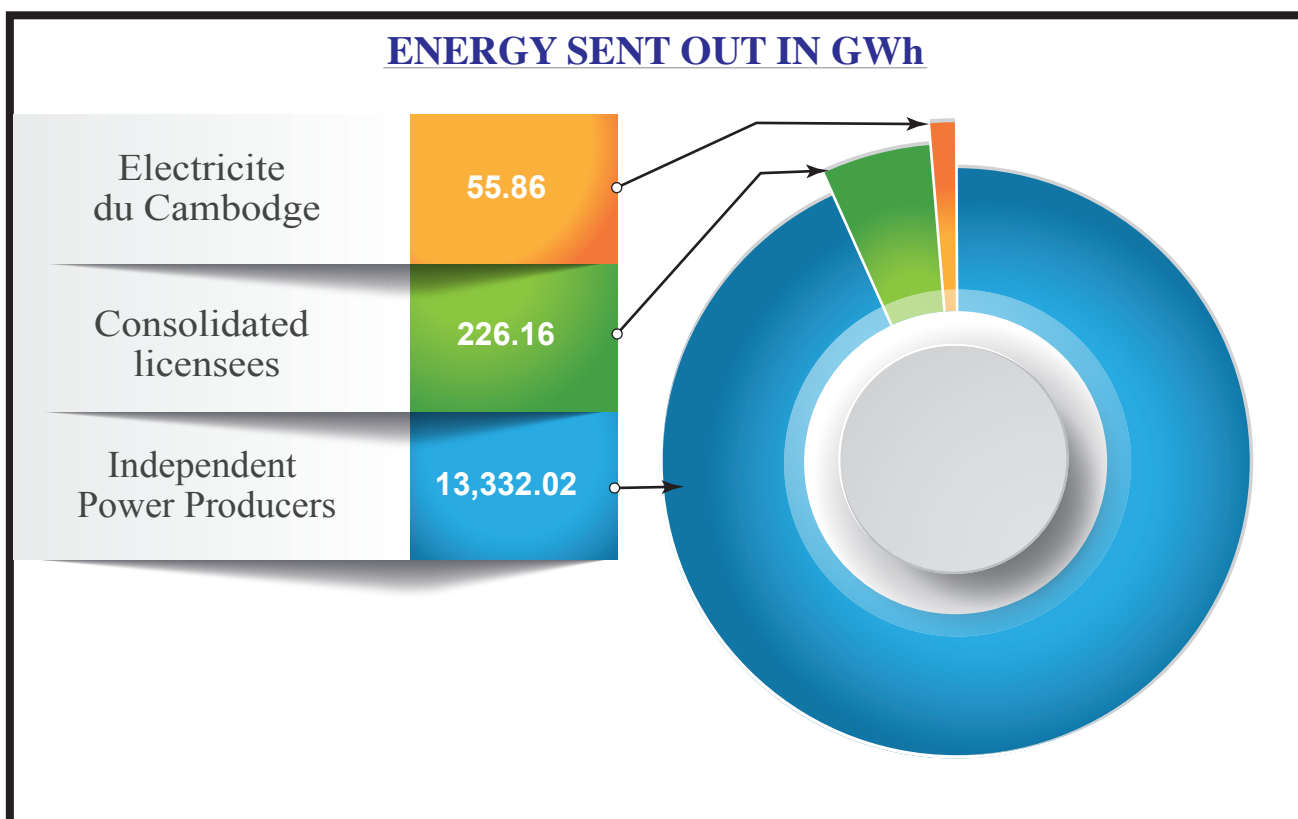

4.1.1 Generation by Types of Licensees

Two types of licensees generating electricity in the Kingdom of Cambodia are: 1-The generation of electricity by Independent Power Producers, having Generation License generate and sell electricity to suppliers or industries in compliance with the Power Purchase Agreement with that supplier or industry; and 2- The generation of electricity by Consolidated License (Generation and Distribution), generate electricity for supply to consumers throughout their distribution areas.

The information on the data of operation of electricity generation services by Generation Licensees, Electricite du Cambodge and isolated systems operated by Consolidated Licensees is given in Annex 3, Annex 4, Annex 5(a) and Annex 5(b) respectively. The summary information about installed capacity and energy sent out by the Independent Power Producers, EDC and Consolidated Licensees is given in Annex 2(b).

The total energy generated and sent out by licensees in Cambodia during 2023 is 13,614.04 GWh, which is 34.84% more than the energy during 2022. With the expansion of transmission and sub-transmission systems during 2023, most of the licensees were connected to the national grid. By the end of 2023, only two licensees were operating isolated systems and their total generation was only 0.23 GWh.

The quantum of energy sent-out by the Independent Power Producers, Consolidated Licensees and EDC is shown in the graphic below.

4.1.2 Generation by Generation Facilities

Electricity generation facilities in the Kingdom of Cambodia for the year 2023 can be divided into 5 types: 1-Hydropower Plants, 2-Diesel Power Plants, 3-Thermal Power Plants using coal, 4-Plants using wood and other biomass, and 5-Solar Power Plants. During 2023, the following four generating licenses were issued to

1. Schneitec Optimizer Co., Ltd. to generate electricity from a Solar Power Plant of capacity 100MW in Kampong Chhnang Province,
2. Schneitec Vibrant Co., Ltd. to generate electricity from a Solar Power Plant of capacity 60MW in Svay Rieng Province,
3. Schneitec Dynamic Co., Ltd. to generate electricity from a Solar Power Plant of capacity 60MW in Kampong Chhnang Province, and
4. Schneitec Beyond Co., Ltd. to generate electricity from a Solar Power Plant of capacity 150MW in Pursat Province.

During 2023, the following 11 Hydropower Plants in operation were:

1. Kirirom1, Kirirom3, Kamchay, Steung Atay, Lower Steung Russei Chrum, Steung Tatay and Lower Sesan 2 connected to the National Grid,
2. Ratanakiri and O-Chum connected to power system of EDC Ratanakiri,
3. O-Mlang and O-Ramis connected to power system of EDC Mondulkiri and
4. Hydropower Plant Rorleang Chrey of capacity 2MW connected to power system of EDC Kampong Speu.

The following Power Plants using biomass and other waste as fuel for generation of electricity:

1. The Generation Licensee IED Invest (Cambodia), (having generation at two locations—in Siem Reap province, supplying power to licensee Mr. Eng Bunthy and in Preah Vihear province, supplying power to EDC),
2. The Consolidated Licensee Cam Chilbo Electric Power Co., Ltd (having own generation to supplement power purchase from the Grid to supply power to consumers), and
3. Phnom Penh Sugar Co., Ltd (supply power left over from personal use to EDC and purchase electricity back from EDC in case of shortage).

The following Power Plants using coal to generate electricity and supply to EDC:

1. Cambodian Energy Limited
2. Cambodian Energy II Co., Ltd
3. C.I.I.D.G.Erdos Hongjun Electric Power Co., Ltd
4. Huadian Sihanoukville Power Generation Co., Ltd

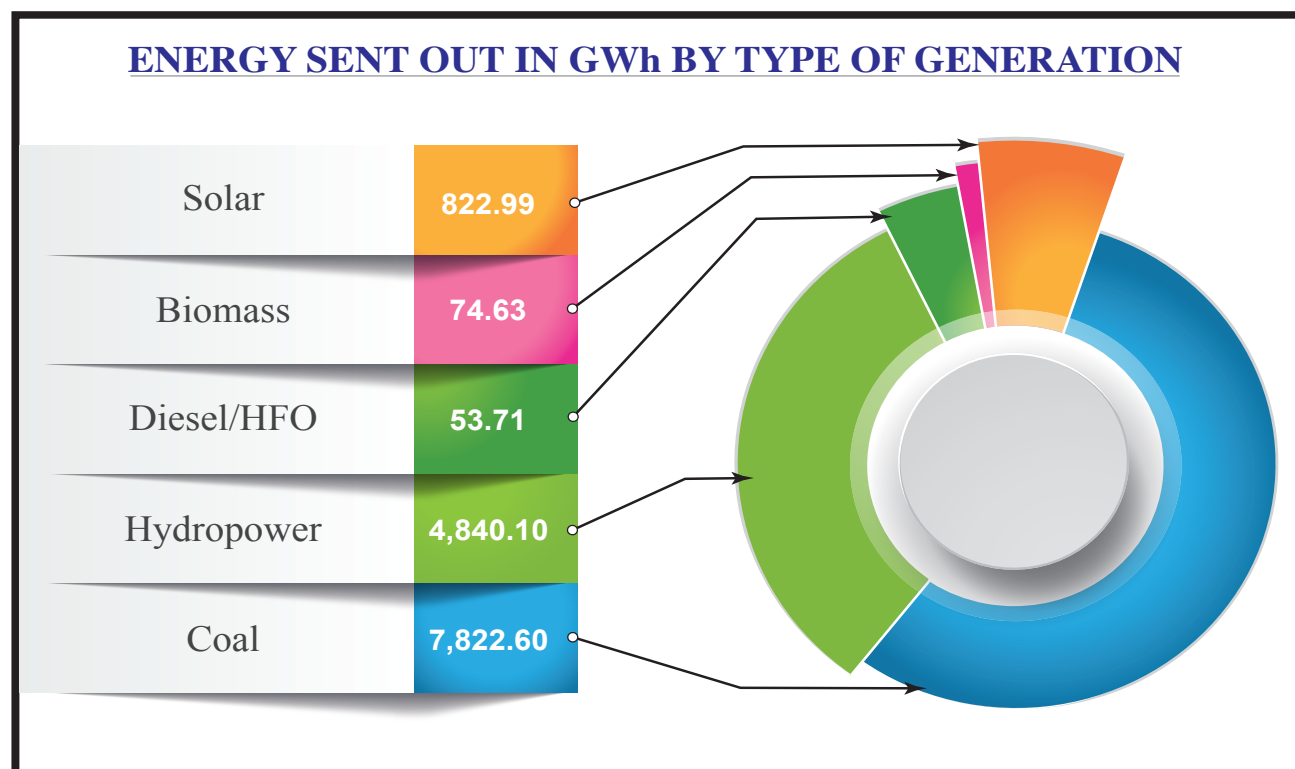

The following Power Plants using solar power for generation of electricity:

1. Soma Energy Co., Ltd
2. Sunseap Asset (Cambodia) Co., Ltd
3. Tai Seng Bavet SEZ Co., Ltd
4. Schneitec Renewable Co., Ltd
5. Schneitec Sustainable Co., Ltd

6. Schneitec Infinite Co., Ltd
7. Risen Energy (Cambodia) Battambang Co., Ltd
8. Ray Power Supply Co., Ltd
9. Green Sustainable Ventures (Cambodia) Co., Ltd
10. Prime Road Alternative (Cambodia) Co., Ltd

All other power plants of the licensees are diesel power plants using Heavy Fuel Oil (HFO) and/or Light Diesel Oil (LDO). The summary information on installed capacity and energy sent out by types of generation is given in Annex 2(c).

The quantum of energy sent-out by the Independent Power Producers and Consolidated Licensees classified by generation types is shown in the graphic given below.

4.1.3 Generation Projects under Implementation and Planning

EDC has already signed Power Purchase Agreement (PPA) with different investment companies for the following Generation Projects, which are at various stages of development:

1. Schneitec Optimizer Co., Ltd - PPA for a 100MW solar power plant project in Kampong Chhnang Province,
2. Schneitec Vibrant Co., Ltd - PPA for a 60MW solar power plant project in Svay Rieng Province,
3. Schneitec Dynamic Co., Ltd - PPA for a 60MW solar power plant project in Kampong Chhnang Province,
4. Schneitec Beyond Co., Ltd - PPA for a 150MW solar power plant project in Pursat Province,
5. Lucky Solar Co.,Ltd - PPA for a 80MW solar power plant project in Prey Veng Province,
6. SPHP (Cambodia) Co., Ltd - PPA for a 80MW hydro power plant project in Pursat Province,
7. Cambodia Upper Tatay Hydropower Co., Ltd - PPA for a 150MW hydro power plant project in Koh Kong Province,

8. Khmer Electrical Power Co., Ltd - PPA for a 170MW hydro power plant project in Koh Kong Province,
9. Steung Meteuk Hydropower Co., Ltd - PPA for a 150MW hydro power plant project in Koh Kong Province and Pursat Province,
10. Oddormeanchey Power Industrial Co., Ltd - PPA for a 265MW coal fired power plant project in Oddar Meanchey Province,
11. TSBP Sekong Power and Mineral Company Limited - PPA for a 600MW coal fired power plant project in Laos, and
12. Xekong Thermal Power Plant Company Limited - PPA for a 1800MW coal fired power plant project in Laos.

4.2 Energy Imported from Neighboring Countries

Cambodia imports energy from Thailand, Vietnam and Laos. The energy import from Vietnam is at 22kV line through a number of connections and at 230kV through Vietnam to Takeo – Phnom Penh. Similarly, the energy import from Thailand is at 22kV line through a number of connections and at 115kV line from Thailand to Banteay Meanchey – Battambang – Siem Reap line. The energy import from Laos is to (i) Stung Treng substation at 500kV line, (ii) Preah Vihear at 115kV line with extension to Kampong Thom, (iii) Stung Treng at 22kV line.

Based on the Electricity Trade Agreement between Ministry of Mines and Energy of Cambodia and the Ministry of Industry of Vietnam, EDC has signed Power Purchase Agreements with Vietnam Power for import of electricity at a number of points for supply of electricity to areas located near the Cambodia – Vietnam border either by themselves or through other licensees.

Some private companies have received the right from MME to purchase energy from Provincial Electricity Authority of Thailand for supply to areas near Cambodia – Thailand border. Cost of electricity imported from Thailand at 22kV is based on two-part time of use tariff of Provincial Electricity Authority of Thailand applicable for the category of consumers. The tariff has demand charges (Baht per kilowatt of maximum demand), energy charges (Baht per kWh with different rates for energy drawn during peak and off-peak hours), service charges (fixed charge as Baht per month), power factor penalty (Baht per excess kVAR) and Ft (change in expenses charge in Baht/kWh). Because of such a tariff structure, the cost of electricity import from Thailand varies in different months due to different use conditions. The tariff for electricity import by EDC at 115kV line from Thailand consists of energy charge as Baht per kWh and Ft (change in expenses charge in Baht/kWh).

Information on the total electricity import from neighboring countries is given in Annex 2(a) and the detailed data is given in Annex 5(a).

4.3 Electricity Transmission

4.3.1 High Voltage System

During 2023, the 230kV line, connecting (i) GS2 to Kandal Steung substation, and (ii) GS Oddormeanchey Power Industrial Co., Ltd. to Bakong substation were commissioned.

The details of high voltage grid substations (GS) operated by different licensees at the end of 2023 is shown in the following table.

Table 7: Details of High Voltage Grid Substations

No.	Substations	Power Transformers			Number of connections
		Voltage (kV)	Capacity (MVA)	Number	22kV& 35kV (feeders connected)
A. Grid Substations (GS) operated by EDC					
1	GS1 (Phnom Penh)	115/22	75	2	40

4.3.2 High Voltage Transmission Lines under Construction

The following High Voltage Transmission Line Projects are under construction at the end of 2023 is stated below:

1. 230kV High Voltage transmission line from GS Tatay to GS Bek Chan (GS12)-the transmission line project is being constructed by Alex Corporation Co., Ltd,
2. 230kV High Voltage transmission line from Ratanakiri to Tbong Khmum-the transmission line project is being constructed by Schneitec Western Co., Ltd,
3. 500kV High Voltage transmission line from Phnom Penh to Cambodia-Laos Border-the transmission line project is being constructed by Schneitec Northern Co., Ltd.

4.4 Operation of the High Voltage Grid System

The High Voltage Grid System, consisting of all high voltage lines and connecting to grid substations, is termed as "National Grid". During 2023, apart from generation plants in Cambodia, the National Grid gets electricity supply from Vietnam at 230kV, from Thailand at 115kV line, and from Laos at 500kV line and 115kV line.

It is not possible to run the supply from Vietnam, Thailand or Laos in parallel with each other, and hence, the grid network supplied from each supply is operated as an isolated system from each other. Depending on the generation in Cambodia, the area supplied from each system above is decided and changed. During rainy season, the generation from Hydropower stations in Cambodia increases, and the import from Thailand is reduced or discontinued. Similarly, the supply, during dry season, from Thailand is increased and more areas are supplied from this system. As the end of 2023, the supply from the National Grid covers areas in all provinces in Cambodia.

Chapter 5

Report on Transmission Medium Voltage Lines and Supply of Electricity

Report on Transmission Medium Voltage Lines and Supply of Electricity

5.1 Development of Medium Voltage Lines

Based on the development of high voltage grid systems in Cambodia, medium voltage lines have been constructed from the grid substations to supply power to licensees and consumers in areas around the grid substations. Medium voltage lines have also been extended from many locations near borders of Vietnam and Thailand, where power is being imported by licensees at MV lines. In the last few years, EDC and other licensees have played a major role in developing medium voltage lines for both purposes of sub-transmission and distribution. The Transmission Licensees and Special Purpose Transmission Licensees, operating medium voltage lines, are listed in the following tables:

Table 9: The Transmission Licensees and Special Purpose Transmission Licensees Operating Medium Voltage Lines

License No.	Name of Licensee	MV lines operated in Provinces
001 L	Electricite Du Cambodge	Entire Cambodia
223 L	L.M.K Co., Ltd	Kandal and Takeo
252 L	Kampong Som Electricity Co., Ltd	Phnom Penh, Kandal and Kampong Cham
260 L	Transco Energy (Cambodia) Co., Ltd	Phnom Penh and Kandal
315 L	BVC Power Development Co., Ltd	Kampong Cham, Kampong Thom, Oddar Meanchey and Preah Vihear

The Consolidated Licensees having Special Purpose Transmission License and Distribution License, operating medium voltage lines, are listed in the following table:

Table 10: Consolidated Licensees Operating Subtransmission Lines

License No.	Name of Licensee	MV lines operated in Provinces
055 L	Electricity Treang Enterprise	Takeo
085 L	Electricity Tbong Khmum Enterprise	Tbong Khmum
122 L	E.D.Con Co., Ltd.	Tbong Khmum and Prey Veng
220 L	Electricity Skun-Chamka Leu Enterprise	Kampong Cham
224 L	Sokha Electricity Co., Ltd	Kampong Speu and Kandal
259 L	Inter BP Solution Corporation	Prey Veng
300 L	OSVR Trading Co., Ltd	Kampong Chhnang

The length of MV lines operated by different licensees at the end of 2023 is given in Annex 5(a).

EDC, with funds arranged from different sources, has been constructing new MV lines to extend the grid supply to more areas. Similarly, other licensees have also been constructing new

MV lines to avail grid supply, and extend their areas of supply or to improve the power supply facilities in their areas of operation.

5.2 Grid Supply Systems

Apart from the supply from the grid-substations of the National Grid, MV supply is made available at a number of areas along the borders with Vietnam, Thailand and Laos by the extension of 22kV or 35kV lines from Vietnam, Thailand and Laos. The supply system at each connection is operated as a separate system without synchronization with supply from the National Grid or any other supply.

The licensees connected to the National Grid and/or MV supply from neighboring countries during 2023 are given in Annex 5(a).

5.3 Isolated Supply Systems

As the national grid supply is extended to areas previously supplied by isolated system, the isolated system stops its own generation and gets connected to the national grid system and purchases electricity from the grid. By the end of 2023, only 2 licensees operated isolated systems each consisting of its own generation and supplying electricity to those small areas. The information on the number of consumers, energy available and energy supplied to consumers for these isolated systems, is given in Annex 5(b).

5.4 Supply of Electricity to Consumers

Each year the infrastructure for supply of electricity to consumers and the number of villages supplied with electricity gets added up due to the issuing of new licenses, expansion of areas of supply and expansion of the national grid supply. The detail of MV lines and LV lines of licensees is given in Annex 5. The total number of villages and number of villages covered by the licensed areas in each province by the end of 2023 is given in Annex 8.

A comparison of data on electricity Generation and Import from neighboring countries by licensees, and data on the number of Consumers and energy Consumption in Cambodia for the years 2022 and 2023 is given in the table below.

Table 11: Summary Data of Power Sector of Cambodia

Description	Unit	Data for 2022	Data for 2023	Percentage Increase
Energy Generated (I)	million kWh	10,096.64	13,614.04	34.84%
Energy Imported from Thailand	million kWh	780.12	132.22	-83.05%
Energy Imported from Vietnam	million kWh	1,284.97	682.29	-46.90%
Energy Imported from Laos	million kWh	2,734.35	2,558.68	-6.42%
Total Import (II)	million kWh	4,799.45	3,373.20	-29.72%
Total Energy Available (I+II)	million kWh	14,896.08	16,987.23	14.04%

Generation Capacity	kW	3,485,500	3,873,438	11.13%
Number of Consumers	Number	3,644,558	3,804,892	4.40%
Energy sale to Consumers	million kWh	13,362.07	15,251.07	14.14%
Overall Loss Percentage	Percent	10.30%	10.22%	

5.5 Supply of Electricity During the Decade

The detailed data of a number of consumers of energy available for supply and energy sold to consumers during the years 2014 – 2023 is given in the following table.

Table 12: Data on a Number of Consumers of Energy Available and Energy Sold during the Decade

Year	2014	2015	2016	2017	2018
Number of Consumers	1,424,735	1,859,204	2,170,682	2,412,759	2,703,375
% increase over prev. year	18.84%	30.49%	16.75%	11.15%	12.04%
Energy available in million kWh	4,861.41	6,015.35	7,033.15	8,072.85	9,738.78
% increase over prev. year	19.99%	23.74%	16.92%	14.78%	20.64%
Energy sold in million kWh	4,144.12	5,205.34	6,229.67	7,038.53	8,649.16
% increase over prev. year	16.65%	25.61%	19.68%	12.98%	22.88%
Year	2019	2020	2021	2022	2023
Number of Consumers	2,950,115	3,244,209	3,483,061	3,644,558	3,804,892
% increase over prev. year	9.13%	9.97%	7.36%	4.64%	4.40%
Energy available in million kWh	11,737.90	12,400.75	13,097.81	14,896.08	16,987.23
% increase over prev. year	20.53%	5.65%	5.62%	13.73%	14.04%
Energy sold in million kWh	10,378.37	11,092.16	11,692.88	13,362.07	15,251.07
% increase over prev. year	20.00%	6.88%	5.42%	14.28%	14.14%

Chapter 6

Electricity Tariff of Licensees

Electricity Tariff of Licensees

6.1 Electricity Tariff of Licensees with Special Conditions, not in the Group of Licensees Connected to the National Grid

The cost of electricity either from own generation or from purchase from IPP, from neighboring countries, and from the national grid or other licensees is the single largest component of the cost of electricity supplied by licensees to consumers. The other factors affecting the cost of electricity supplied are the cost of infrastructure and volume of sale to different classes of consumers.

For licensees operating on isolated system, and generating electricity using Diesel/HFO, the cost of electricity supplied is related to the cost of Diesel/HFO. In order to quickly reflect the change in the cost of fuel in the tariff for consumers in a simple and transparent manner, EAC implements Fuel Cost Adjustment (FCA) mechanism stated in a table for each such licensee. Under this mechanism, the tariff for different slabs of rates of fuel (diesel) is determined after a public consultation, so that for only a change in the cost of fuel, the corresponding tariff is fixed by EAC without the need of a further public consultation. As and when the national grid system is expanded to the area supplied by the isolated system with diesel generation, the licensees operating the isolated system stop diesel generation and buy electricity from the national grid system as it results in lower tariff. By the the end of 2023, only 2 licensees operated the isolated system generating electricity using diesel fuel for sale to consumers by implemented the temporary tariff. The their tariff is stated in Annex 7(c).

The cost of electricity purchased from neighboring countries of Vietnam, Thailand and Laos are different from each other. Further due to different cost of infrastructure and volume of sale, the tariff for consumers of licensees getting supply from neighboring countries is different. The tariff of licensees supplying electricity by purchase from neighboring countries of Vietnam and Thailand at MV during 2023 is stated in Annex 7(c).

The tariff of licensees supplying electricity to consumers in SEZs is calculated separately and such tariff during 2023 is given in Annex 7(c).

The tariff of subcontract licensees in markets under the umbrella of EDC's license is calculated and determined in such tariff during 2023 is given in Annex 7(c).

6.2 Electricity Tariff of Licensees Connected to National Grid and Implementation of Strategic Plan for Reducing Electricity Tariff

During 2016, EAC started implementation of the Strategic Plan to reduce electricity tariff for areas receiving electricity from the National Grid. The tariff for sale of electricity by Distribution Licensees, Sub-transmission Licensees and other licensees connected to the National Grid was made the same. Similarly, the tariff for sale to MV consumers from the National Grid by EDC (except for Phnom Penh area) and other licensees was made the same. The tariff of EDC for areas getting supply from the National Grid for some categories of consumers was reduced.

The electricity tariff as of 2023 remained the same as that of 2022 so as not to affect the citizens' livelihoods despite the low growth in domestic consumption demand and the Royal Government has subsidized hundred millions of dollars in order to stabilize the electricity tariff while the world is facing a sharp rise in global electricity tariffs; particularly, the neighboring countries of Cambodia have experienced significant increases in their electricity tariffs due to the global Covid-19 pandemic and the ongoing Russia-Ukraine war, which have driven up the cost of raw materials for electricity generation.

6.3 Electricity Tariff of EDC for Sale to Consumers

6.3.1 Connection from Grid Substation, Sub-transmission Line and from the National Grid

a. Consumers connected at HV feeder of Substation

- General Tariff Payment Option = 0.1170USD/kWh
- Time of Use and Capacity Charge Tariff Payment Option
 - Capacity Charge = 2.90USD/kW/Month
 - Energy Charge during Peak Hours (7am to 9pm) = 0.1140USD/kWh
 - Energy Charge during Off-peak Hours (9pm to 7am) = 0.0940USD/kWh
- For consumers who install Solar PV System
 - Capacity Charge = 2.90USD/kW/Month
 - Energy Charge for 24-hour consumption = 0.1140USD/kWh

b. Customers connected at MV feeder of Substation in Phnom Penh and Takhmao

- General Tariff Payment Option = 0.1320USD/kWh
- Time of Use and Capacity Charge Tariff Payment Option
 - Capacity Charge = 4.00 USD/kW/Month
 - Energy Charge during Peak Hours (7am to 9pm) = 0.1290USD/kWh
 - Energy Charge during Off-peak Hours (9pm to 7am) = 0.0960USD/kWh
- For consumers who install Solar PV System
 - Capacity Charge = 4.00USD/kW/Month
 - Energy Charge for 24-hour consumption = 0.1290USD/kWh

c. Customers connected at MV feeder of Substation outside Phnom Penh and Takhmao

- General Tariff Payment Option = 0.1210USD/kWh
- Time of Use and Capacity Charge Tariff Payment Option
 - Capacity Charge = 3.10 USD/kW/Month
 - Energy Charge during peak hours (7am to 9pm) = 0.1180USD/kWh
 - Energy Charge during Off-peak Hours (9pm to 7am) = 0.0960USD/kWh
- For consumers who install Solar PV System
 - Capacity Charge = 3.10USD/kW/Month
 - Energy Charge for 24-hour consumption = 0.1180USD/kWh

d. Industrial and agricultural consumers connected at MV

- General Tariff Payment Option = 0.1370USD/kWh
- Time of Use and Capacity Charge Tariff Payment Option
 - Capacity Charge = 5.00USD/kW/Month
 - Energy Charge during Peak Hours (7am to 9pm) = 0.1300USD/kWh
 - Energy Charge during Off-peak Hours (9pm to 7am) = 0.1100USD/kWh

For Big Consumers install Solar PV System

- ❖ Meter installed at MV
 - Capacity Charge = 5.00USD/kW/Month
 - Energy Charge for 24-hour consumption = 0.1300USD/kWh
- ❖ Meter installed at LV under transformer
 - Capacity Charge = 5.00USD/kW/Month

- Energy Charge for 24-hour consumption = 0.13520USD/kWh
- e. Commercial, administration and other consumers connected at MV**
 - General Tariff Payment Option = 0.1580USD/kWh
 - Time of Use and Capacity Charge Tariff Payment Option
 - Capacity Charge = 5.80USD/kW/Month
 - Energy Charge during Peak Hours (7am to 9pm) = 0.1500USD/kWh
 - Energy Charge during Off-peak Hours (9pm to 7am) = 0.1240USD/kWh
 - For Big Consumers connected at Solar PV System
 - ❖ **Meter installed at MV**
 - Capacity Charge = 5.80USD/kW/Month
 - Energy Charge for 24-hour consumption = 0.1500USD/kWh
 - ❖ **Meter installed at LV under transformer**
 - Capacity Charge = 5.80USD/kW/Month
 - Energy Charge for 24-hour consumption = 0.15600USD/kWh
 - For public administration consumers paid with state budget = 653Riel/kWh
- f. Industrial and agricultural consumers with meter at low voltage of consumer's transformer**
 - General Tariff Payment Option = 0.14248USD/kWh
 - Time of Use and Capacity Charge Tariff Payment Option
 - Capacity Charge = 5.00USD/kW/Month
 - Energy Charge during Peak Hours (7am to 9pm) = 0.13520USD/kWh
 - Energy Charge during Off-peak Hours (9pm to 7am) = 0.11440USD/kWh
 - For consumers with meter at low voltage of licensee's transformer**
 - General Tariff Payment Option = 0.15048USD/kWh
 - Time of Use and Capacity Charge Tariff Payment Option
 - Capacity Charge = 5.00USD/kW/Month
 - Energy Charge during Peak Hours (7am to 9pm) = 0.14320USD/kWh
 - Energy Charge during Off-peak Hours (9pm to 7am) = 0.12240USD/kWh
- g. Commercial, administration and other consumers with meter at low voltage of consumer's transformer**
 - General Tariff Payment Option = 0.16432USD/kWh
 - Time of Use and Capacity Charge Tariff Option
 - Capacity Charge = 5.80USD/kW/Month
 - Energy Charge during Peak Hours (7am to 9pm) = 0.15600USD/kWh
 - Energy Charge during Off-peak Hours (9pm to 7am) = 0.12896USD/kWh
 - For Public administration consumers paid with state budget = 679Riel/kWh
 - For consumers with meter at low voltage of licensee's transformer**
 - General Tariff Payment Option = 0.17232USD/kWh
 - Time of Use and Capacity Charge Tariff Payment Option
 - Capacity Charge = 5.80USD/kW/Month
 - Energy Charge during Peak Hours (7am to 9pm) = 0.16400USD/kWh
 - Energy Charge during Off-peak hours (9pm to 7am) = 0.13696USD/kWh
 - For public administration consumers paid with state budget = 712Riel/kWh
- h. Consumer connected at LV**
 - Residential Consumers
 - Monthly consumption from 1kWh to 10kWh = 380Riels/kWh
 - Monthly consumption from 11kWh to 50kWh = 480Riels/kWh
 - Monthly consumption from 51kWh to 200kWh = 610Riels/kWh
 - Monthly consumption exceeding 200kWh = 730Riels/kWh
 - Other than residents = 730Riels/kWh
 - Schools, hospitals, and referral healthcare centers in rural areas = 610Riels/kWh

i. Water pump for agriculture and agricultural consumers connected at MV and LV

- Energy Charge for consumption from 9pm to 7am = 480Riels/kWh

6.3.2 Tariff of EDC for Normal Areas Getting Supply from Vietnam at MV

Tariff for residential consumers in normal areas getting supply from Vietnam at MV (22kV or 35kV) during 2023 is as follows:

1. Ratanakiri – 670Riels/kWh
2. Kampong Trach, Ponhea Krek, Memot, Keo Seima and Svay Rieng – 650Riels/kWh
3. Snuol – 600Riels/kWh
4. Chaom Kravien – 730Riels/kWh

The tariff for other category of consumers is stated in Annex 7(a).

6.3.3 Tariff of Licensees other than EDC connected to National Grid

The tariff of Licensees other than EDC connected to National Grid, not listed in points 6.3.1 and 6.3.2 above during 2023, is stated in Annex 7(a).

Annex 1**Information on each Province/City Area of Supply Served by Distribution, Retail, Consolidated and Sub-contract Licensees at the End of Year 2023**

Province/ City	Area of supply	License Number	Name of Licensee	Type of License	Connection to National Grid Supply/Hours of Supply per Day
1 Banteay Meanchey	Provincial Town of Banteay Meanchey	001L	EDC	Consolidated (Generation + Distribution + Transmission)	Grid Connected
	Some parts of Krong Poipet, Khum O-beychoan, O-Chrov District	011L	Anco Brothers Co., Ltd	Distribution	Grid Connected

Some Parts of O-Raing Ov District	478L	VRTN Co., Ltd	Distribution	Grid Connected

Annex 2(a)
Summary Information on Generation and Import of Energy

No.	Generation and Import	Energy in Million kWh		Proportion of energy in % for 2023
		Year 2022	Year 2023	
1	Generation in Cambodia	10,096.64	13,614.04	80.14%
2	Import from Vietnam at HV	962.12	380.97	2.24%
3	Import from Vietnam at MV	322.85	301.33	1.77%
4	Import from Thailand at HV	566.53	7.02	0.04%
5	Import from Thailand at MV	213.59	125.20	0.74%
6	Import from Laos at HV	2,730.16	2,554.47	15.04%
7	Import from Laos at MV	4.19	4.21	0.02%
Total		14,896.08	16,987.23	100%

Annex 2(b)
Summary Information on Installed Capacity and Energy Sent Out

No.	Types of Licensees	Number of Licensees operating		Installed Capacity(kW)		Proportion of Installed Capacity in % for 2023	Energy Sent Out, Million kWh		Proportion of energy sent out in % for 2023
		End of Year 2022	End of Year 2023	End of Year 2022	End of Year 2023		End of Year 2022	End of Year 2023	
1	Independent Power Producers	25	26	2,917,870	3,287,800	84.88%	9,762.78	13,332.02	97.93%
2	Electricité du Cambodge	1	1	514,650	514,650	13.29%	305.86	55.86	0.41%
3	Other licensees operating generation facilities	7	7	52,980	70,988	1.83%	28.00	226.16	1.66%
	Total	33	34	3,485,500	3,873,438	100%	10,096.64	13,614.04	100%

Annex 2(c)
Summary Information on Generation Facilities and Energy Sent Out Classified by Generation Type

No.	Types of Generation	Installed Capacity(kW)		Proportion of Installed Capacity in % for 2023	Energy Sent Out, Million kWh		Proportion of Energy Sent Out, in % for 2023
		End of Year 2022	End of Year 2023		Year 2022	Year 2023	
1	Hydropower	1,331,700	1,331,700	34.38%	5,898.32	4,840.10	35.55%
2	Diesel/HFO	643,430	646,438	16.69%	345.99	53.71	0.39%
3	Biomass	28,570	48,500	1.25%	12.42	74.63	0.55%
4	Coal	1,045,000	1,410,000	36.40%	3,144.39	7,822.60	57.46%
5	Solar	436,800	436,800	11.28%	695.52	822.99	6.05%
	Total	3,485,500	3,873,438	100%	10,096.64	13,614.04	100%

Annex 3

Summary Information on Generation Licensees for the Year 2023

License No.	Names of Licensees	Location of the Generation Plant	Sell Electricity to	Installed Capacity(kW)	Energy Sent Out(kWh)	Energy imported (kWh)	Net Energy Sent Out(kWh)
007L	CETIC International Hydropower Development Co., Ltd	Kirirom 1 at Kirirom Plateau of Koh Kong Province	EDC (001L)	12,000	45,488,133	173,633	45,314,500
		Kirirom 3 at Kirirom Plateau of Koh Kong Province	EDC (001L)	18,000	84,400,700	161,200	84,239,500
