The Royal Government of Cambodia has collected more than \$15 million from the Renaissance gold mining business in O'Khvav area, Mondulkiri.

To date, Renaissance's gold mining operations have produced about 5,300 kilograms, of which more than \$8 million in royalties and \$6.5 million in taxes. This was confirmed by an official of the General Department of State Property and Non-Tax Revenue of the Ministry of Economy and Finance.

At present, there are seven companies that have received gold mining licenses from the Royal Government. Gold mining is taking place in four provinces, Mondulkiri, Ratanakiri, Battambang and Preah Vihear.

He said the company that ran the best gold mining business was Australia's Renaissance, which is based in Mondulkiri.

Renaissance Minerals (Cambodia) Ltd is the first international company to start mining gold for the first time in Cambodia.
