

Corporate Social Responsibility

CMEDCC's core belief is "Shared Destiny" between the company's and the Cambodian Society's. Thus, our CSR program will be regarded as essential and as an investment. We can only stand as a "Build for the Best" company through the trust of the general public and therefore our CSR shall be designed and included into our business operations to ensure that we earn the trust and continue to maintain the trust of the Cambodian People. We strive to be known as "The Best" not just for our company's sake but also for the sake of all stakeholders and the general public as a whole.
