The world's premier marine consultancy – here for you with personalized solutions and competitive prices to suit you

The Maritime Group

[About Us](#)[What We Do](#)[History](#)

The Maritime Group International (TMG) is an international consortium of maritime service companies, marine consultancies and marine management companies.

It comprises independently established maritime service companies and marine consultancies with a headquarters in Seattle and regional offices in London, Honolulu, and Singapore.

Their experienced maritime professionals include directors and senior managers, ship masters, marine mechanical and electrical engineers, port civil engineers and designers, naval architects, ship brokers, maritime security experts, transport analysts, economists, maritime accountants, maritime environmentalists, oil spill experts and specialist surveyors.

The company is strategically positioned to be able to provide their wide range of services, support and assistance to clients quickly and in most parts of the planet.

As well as the ability to provide diverse maritime services, our regional offices have core areas of expertise. They are:

Seattle – Cruise and ferry operation and management; cruise and ferry terminal management.

Honolulu – Port development and harbor master planning; renewable energy planning and development; emergency management and contingency planning; bulk cargo shipping and bulk terminal operations and management; cruise ship and ferry operations; maritime business consulting; regulatory and environmental compliance; and government affairs

London – Ferry operation and management, including conventional ferries, high speed craft and hovercraft operations; ship management and port and harbour operation and development; environmental and oil/chemical spill management and advice; ship

TMG has signed legal MOAs with Naval Architects and Marine Engineers, G&W Maritime Ltd of Liverpool and Sacré-Davey Engineering Inc of Vancouver, BC, Canada, whereby TMG can now offer expertise in construction and development of new harbours, ports and berths.

and port security; legal advice and expert witness; ship broking; maritime economics and accountancy;

Singapore – Tanker operations; oil and LNG; statutory surveys; SIRE and DCI inspections; pre-vetting surveys; offshore oil industry related operations; management consultancy presentations; training.

Joint Venture Partners

G & W Marine is TMG's joint venture partner.

The company provides practical and cost effective technical services to the marine industry. These include innovative engineering design, survey and maritime consultancy services to the global marine sector from its headquarters in Liverpool, UK.

G & W Marine's philosophy is to provide clients with sound technical support services that add value to their respective operations. It prides itself upon being able to offer clients a bespoke and individual service.

Sacré-Davey Engineering, Inc.

Sacré-Davey Engineering Inc. is a technology-led, full-service engineering company with broad-based industrial expertise. Our expansive portfolio across a range of industries is built on a foundation of excellent service and quality engineering. The expertise we've developed has equipped us with the tools to approach problems creatively and provide unique solutions for our clients that best fit their needs.

Through a comprehensive suite of project services, processes, and procedures, Sacré-Davey delivers consistent results from small sustaining capital projects to large complex EPCM Greenfield projects. We form partnerships with our clients, often acting as an extension of their team, to execute projects seamlessly and with excellence. We strive to develop collaborative and trusting relationships through clear and transparent communication, keeping our clients' best interests in mind, and following through with our commitments.

Strategic Alliances

Strategic Alliances – TMG’s global collaborative network includes a host of high caliber businesses at the forefront of their particular sectors.

The following are just a handful of the many market leading firms with whom we enjoy a successful business relationship.

Great Destination Strategies
