**Cambodian Sustainable Development Goals
(CSDGs) 2016-2030**

Revised List of Targets and Indicators by Goals

July 2022

FORWARD

Royal Government of Cambodia (RGC) committed to achieve Cambodian Sustainable Development Goals (CSDGs) 2019-2023 and contributed to achieve Global Sustainable Development Goals (SDGs) through localising SDGs into national context and implement it by the tool of national planning system in which the goals, targets and indicators of CSDGs have been integrated especially National Strategic Development Plan (NSDP) 2019-2023, Sectoral Strategic Development Plan (SSDP), and Sub-national Development Plan.

In the first year of the implementation, RGC have registered for Voluntary National Review (VNR) the result of SDGs achievement in 2019. The VNR-2019 is presented in the High Level Political Forum on July 2019. The 2019 Progress Report on the achievement CSDGs also prepared to full fill the VNR-2019. As showing in the reports, some CSDGs' targets and indicators is facing data support for monitoring and evaluation.

The Ministry of Planning leaded and facilitated Line Ministries (LMs) to revised the list of CSGDs based on seted condition and produced a document for implement to achieve the agenda 2030.

We would like to thank His Excellency Toun Thavrak, Secretary of State of the Ministry of Planning, and His Excellency Theng Panhathorn, Delegate of the Royal Government of Cambodia in charge of the Director General of Planning, for lead facilitating the process of revising the list of targets and indicators of CSGDs. Thank you to the Line Ministries (LMs) and Lines Agencies (LAs) of the Royal Government of Cambodia and stakeholders for their cooperation in providing information and input for editing this document. Many thanks also to the Development Partners (DPs), especially the United Nations Resident Office in Cambodia (UNRO), the United Nations Population Fund (UNFPA), the United Nations Development Program (UNDP) , and UNICEF for providing technical and financial support for the revision of the list of goals, targets, and indicators Of the CSDGs.

This document is another important achievement of the Royal Government of Cambodia for the implementation of the 2030 Agenda, especially for the LMs and LAs the RGC in the preparation of policies, strategies and action plans for the implementation of CSDGs in the remaining mandates. The revised list CSDGs also provided guideline for DPs and stakeholders to support activities to achieve these goals.

I believe that the implementation of the activities of the LMs/LAs and stakeholders that lead to the achievement of the objectives in this document will also contribute significantly to achieving the vision 2050 of the RGC and bring prosperity, solidarity. higher education, prosperity and a vibrant culture without poverty, with all Cambodians living in harmony.

Phnom Penh July 2022
Senior Minister Minister of Planning

Chapter I:

Introduction

1.1 Background

The Global Sustainable Development Goals (SDGs) have been localized in the Cambodian context and set out in the Cambodia Sustainable Development Goals (CSDGs) Framework 2016-2030, which was approved by the Royal Government of Cambodia (RGC) in November 19, 2018. After getting approval from the RGC the goals, targets and indicators of the CSDGs 2016-2030 has been integrated into the national planning system for implementation. The National Strategic Development Plan (NSDP) 2019-2023 is an important tool for the implementation of the CSDGs in which the core role of the tool is implementing the priority policies of the RGC.

To evaluate the results of the implementation, the RGC has registered with the United Nations (UN) to review at the national level the actual results of the CSDGs Achievement In 2019. The report, called the Voluntary National Review (VNR) 2019, is urgently prepared in early 2019 and has been submitted to the UN and presented at the UN High-Level Political Forum in July 2019.

Due to the urgency and short-term use of this report in 2019, not all indicators have supporting data for 2019 and some indicators do not have supporting data for 2018, which makes it impossible to evaluate the results of those indicators. In response to this issues, the Ministry of Planning (MOP) has initiated the preparation of a Progress Report 2019 on the achievement of the CSDGs to supplement the VNR 2019.

Based on the two reports, there are some targets and indicators did not have data support and some other are targets are less than have result very lower the the set goals. Due to the careful reviewing of these issues and together with the proposed idea by Samdach Akka Sena Padei Techo, Prime Minister of The RGC in the World Economic Forum 2020 on the consideration of revising the goals of the SDG the Ministry of Planning (MOP) has instructed ministries and institutions, including stakeholders, to consider revising the list of targets and indicators based on the above-mentioned challenges.

According to discussions between the MOP with Line Ministries/Line Agencise (LMs/LAs), and stakeholders, the revision of the list of targets and indicators is focused on indicators that do not have data to support low achieved indicators compared to planned targets. The revision also include the reconsideration to the achieved indicators much exceeding to the planned target by increasing the target value. In addition, the MOP also instructed the relevant LMs/LAs to consider the add more

indicators that represent the activities and efforts of their agency and contribute to achieving any of the goals of the CSDGs to list.

1.2 Cambodian Sustainable Development Goals

Cambodia Sustainable Development Goal (CSDGs) Framework 2016-2030 was approved on November 19, 2018. Based on the Global SDGs and based on the socio-economic situation of Cambodia, RGC has accepted 18 goals, including one national goal, 88 targets compared to 169 global targets, and 148 indicators including 96 national indicators versus 232 global indicators.

CSDGs Framework 2016-2030 is not an action plan. To implement and achieve the CSDGs the RGC, through the MOP, has integrated the goals, targets and indicators of the CSDGs into the national planning system, especially to NSDP, Sectoral Strategic Development Plans (SSDP) and sub-national plans.

After implementation in 2019, the RGC has registered with the United Nations to evaluate the results of the CSDGs through the preparation of the Voluntary National Review 2019 (VNR 2019) and supplemented by the preparation of the Progress Report 2019 of the Achievement of the CSDGs. Both reports are published and disseminated in both domestically and internationally, and national and sub-national level.

1.3 The Achievement of Sustainable Development Goals 2019

Assessing the progress of achieving the indicators and targets of the CSDGs is divided into 3 levels as follows:

- a. **Ahead of track:** is a demonstration of good results, as the performance exceeds the target value set by 10% and more in each implementation year.
- b. **On track:** is a good result, which is the determination of the value of the performance in the range between below and above the milestone data of 10% in each implementation year.
- c. **Below track:** is the result that indicates the value of the performance less than the milestone set by 10% in each implementation year.

Apart from these three levels of evaluation, no data will be provided to identify any indicators or targets that do not have supporting data for evaluating performance outcomes during the reporting period. Lack of supporting data is divided into two parts, the **first** refers to the lack of supporting data sources for the evaluation of the results of the achievement of indicators or targets of the CSDGs; and **second**, there are supporting data sources, but there is no cycle for production in the reporting term (in this case, 2019), especially data based on long-term surveys or censuses (5 or 10

years), such as the Cambodian Demographic and Health Survey (CDHS) , Semi-Census Survey, and Census.

Figure 1.1: The Achievement of Cambodian Sustainable Development Goals (CSDGs) 2019

1.4 The Purpose of the Revising List of Targets and Indicators of CSDGs 2016-2030

Among the 88 targets, there are 18 (equivalent to 20.45%) had no supporting data, of which only about one-third had no data source, while nearly two-thirds of the indicators had support data but no data cycle. So that, in 2019 it can be considered that there is no data in 2019, but there will be support data in the next year with a production data cycle. Based on the above criteria, the results shown in the 2019 Progress Report on the Achievement of the CSDGs Confirm:

- 31.82% of the target: Ahead of track;
- 31.82% of targets: were on track;
- 15.91% of the target: were below the track;
- 20.45% of targets: lacked of sufficient data to make a judgment.

Therefore, the revision will focus on indicators that do not have a supporting data source of about 20.45% and the targets achieved are lower than the planned targets, together with the impact of the epidemic of Covid-19 disease on the Cambodian economic society.

Chapter II:

Revising List of Targets and Indicators of CSDGs 2016-2030

2.1 Introduction

Based on the Voluntary National Review 2019 and the Progress Report 2019 of Cambodian Sustainable Development Goals (CSDGs), the Impact of the Covid-19 Outbreak, and based on the high-level recommendations of Samdach Akka Moha Sena Padei Techo, Prime Minister of the Royal Government of Cambodia (RGC) at the World Economic Forum on September 22, 2020, requesting a United Nations (UN) to review the goals of the SDGs, Cambodia also needs to adjust the goals, including national goals of CSDGs and in National Strategic Development Plan (NSDP).

2.2 Process of Revising

The Editing the list of goals and targets and indicators of the CSDGs is started in July 2020, with the Ministry of Planning requesting LMs and LAs to consider correcting indicators that do not have supporting data, review indicators that do not meet the target and consider some indicators that may highlight efforts of agencies to contribute in achieving the CSDGs. However, by February 2021, due to the outbreak of Covid-19, the Ministry of Planning further instructed LMs-LAs, and other stakeholders to consider more about the impact of the global pandemic on the process towards the achieving CSDGs. During the Covid-19 epidemic in Cambodia, although we did not have time to work and meet face-to-face to complete the work, we were running online to complete the work.

The draft revised list of targets and indicators of CSDGs have been discussed in three meeting, an inter-ministerial technical meeting were held on July 16, 2020 and February 19, 2021. After receiving recommendations from LMs/LAs on the draft list the MOP prepared another high level meeting on November 30, 2021 to review and approve the final draft. Again, to ensure that all recommendations and revisions of the based on comment from LMs/LAs and stake holders are included in the document, the MOP has sent the final draft to the LMs/LAs for final review. The draft was approved on July 1, 2022.

2.3 Criteria for Revising

As stated in above section, the revision of the list of targets and indicators is recommended by the MOP on seven main points:

- Adjustments must be based on the results of the CSDGs as shown in the Progress Report 2019 of the Achievement of the CSDGs, focusing on non-supportive data indicators (13 equals 8.78%) and performance indicators

below the target (22 equals 14.86%) and the impact of the Covid-19 pandemic.

- Consider excluding (or seeking support data sources) for indicators that do not have support data sources.
- Modify indicators (including meeting the conditions of the indicators) so that they can be implemented and have supporting data sources.
- Adjust the milestone by increasing or decreasing it based on the actual situation (including the effects of the Covid-19 spread) that can be achieved.
- Edit data cycles based on data collection cycle such as the Cambodian Socio-Economic Survey (CSES).
- Focus on areas where indicators do not have supporting data sources or have performance indicators below the set targets.
- Consider adding new indicators to demonstrate the LMs/LAs' efforts to contribute to the achievement of the CSDGs.

2.4 Result of the Revising

Based on the conditions set out above, the MOP has received sectoral and institutional adjustments, most of which have revised the milestone values of some indicators, revised or removed from the list any indicators that determine that data sources are not available and supplement a number of indicators in terms of having supporting data sources identified as contributing to the achievement of any goals of CSDGs.

The overall, after the revision, CSDGs were 18 goals, 95 targets (up 7) and 185 indicators (up 37).

Figure 2.1: Targets and Indicators of SDGs, CSDG, and CSDGs Revised

The number of targets by each goals of the CSDGs can be seen vary in 11 goals as above:

- Nine goals: 2nd goal, 5th goal, 6th goal, 8th goal, 9th goal, 10th goal, 11th goal, 16th goal, and 17th goal have increase the number of targets.
- Two goals: 12th goal and 13th goal have a reduced number of targets. (See Figure 2).

Figure 2.2: Numbers of Targets by Goals of SDGs, CSDG, and CSDGs Revised

Similarly, the number of indicators varied according to some targets and some did not change. Figure 3 shows that there were 11 goals that the number of indicators increased, and there were 4 goals that the number of indicators decreased, and other goals remained unchanged.

- Eleven goals: 1st goal, 2nd goal, 3rd goal, 5th goal, 6th goal, 8th goal, 9th goal, 10th goal, 14th goal, 16th goal, and 17th goal where the number of indicators increases.
- Four goals: 4th goal, 11th goal, 12th goal, 13th goal, have a declining number of indicators.

Figure 2.3: Numbers of Indicators by Goals of SDGs, CSDG, and CSDGs Revised

Chapter III:

Way Forewards

3.1 Continuing Implementation

After approval, the targets and indicators of the revised list have integrated into policy measures in the 2021 mid-term report and will be integrated into national planning systems such as the National Strategic Development Plan (NSDP) 2024-2028, Sector Strategic Development Plan (SSDP) and Sub-National Development Plan to continue to implement to achieve the CSDGs. For the NSDP 2024-2028 will be started in early 2023. CSDGs Indicators Contained in this document will be included in the list of core indicators for monitoring and evaluation.

3.2 Monitoring and Evaluation

Results of the implementation of the CSDGs will be monitored and evaluated. As planned, the RGC, through the MOP, will prepare a VNR in 2022, will start in third quarter 2022 and will submit to UN and will present in High Political Forum in 2023. An evaluation of the results achieved of CSDGs will also be included in the evaluation of the implementation of the NSDP 2019-2023 when preparing NSDP 2024-2028 for the new mandate. In general, the evaluation of the achievement of the CSDGs Will be done every 2 years or annually depending on time and budget availability.

Chapter IV:

Conclusions

The Cambodian Sustainable Development Goals (CSDGs) is a document of the Royal Government of Cambodia (RGC) that demonstrates the Government's commitment to contributing to the achievement of the Global Sustainable Development Goals (SDGs). Although no separate action plan has been developed for the implementation of the CSDGs, the integration of goals, targets and indicators into the national planning system for implementation is providing value of the goals of the CSDGs equivalent to the national goals set in the plan. On the other hand, some of the goals of the CSDGs are similar or identical to national goals, there is no need for a separate action plan for the implementation of the CSDGs.

The RGC believes that the implementation of the CSDGs through the national planning system will contribute to the achievement of the global SDGs as well as achieving the sector-specific priorities of the RGC in order to revive the national economy after Covid-19 pandemic by promoting economic growth, reducing poverty and improving people's living standards and achieve the vision of Cambodia by 2050.

MRD	MRD Admin. data	Annually	Number of rural Households have facilities for washing hand with soap among the total households in rural areas.	Number of rural Households have facilities for washing hand with soap in the year.	Total households in rural areas in the reported year.	MRD
6.3 By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally.	6.3.1 Proportion of wastewater (Industrial waste water) safely treated (based on national standard).	MOE	MOE MISTI	Annually	The amount of wastewater (Industrial waste water) safely treated based on national standard among the total wastewater (Industrial wastewater).	the amount of waste water wastewater (Industrial waste water) safely treated based on national standard in the year.	Total wastewater wastewater (Industrial waste water) in the reported year.	MOE
	6.3.2 Proportion of wastewater (from capital city, Municipalities, and urban areas) safely treated based on national standard.	MOE	MOE MPWT MISTI	Annually	The amount of wastewater treated meets national standards compared to the amount of wastewater generated. (Dirty town water)	The amount of wastewater cleaned meets national standards. (Dirty town water)	amount of wastewater generated.	MOE

Table 1: Revised List of Targets and Indicators and related information by goal

Targets	Indicators	Responsible agencies	Source of data	Cycle of data	Definition	Method calculate		Remarks
						Nominators	Denominator	
6.4 By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity.	6.4.1 By 2025, all Cambodian people living in urban areas have access to clean water sustainably with quality and affordable price.	MISTI	Admin. data MISTI	Annually	Number of Cambodian people living in urban areas having access to clean water sustainably with quality and affordable price to total Cambodian urban population.	Number of Cambodian people living in urban areas having access to clean water sustainably with quality and affordable price in the reporting year.	Total Cambodian urban population in the reporting year.	MISTI
6.5 By 2030, implement integrated water resources management at all levels, including through appropriate cross-border water cooperation.	6.5.1 Level of water resources management for Irrigation (rainy and dry seasons) and for daily use of population.	MOWRAM	MOWRAM	Annually	Water governance is implemented at all river basin levels in collaboration with relevant institutions.	Basin or province where the development plan is led by a coordinating body or river basin management committee (for example, the National River Basin Management Committee).	Total area covered by irrigation water 30,000 ha per year and access clean water supply in rural area.	MOWRAM
	6.5.2 Proportion of transboundary river basin areas with operational arrangements for water cooperation.	CNMC	CNMC	Annually	Cross-border river basins, with established cooperation and the function of cross-border cooperation.	Cross-border river basins covered by cooperation.	Total area of transboundary river basin.	MOWRAM
6.a By 2030, expand international cooperation and capacity-building support to developing countries in water- and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies	6.a.1 Amount of water- and sanitation-related official development assistance that is part of a government-coordinated spending plan compared to GDP.	CRDB/CDC	Cambodia ODA Database (OOF Validated from OECD CRS Database)	Annually	Total official development assistance disbursement Related to water and sanitation by year compare to the annual GDP.	Total ODA disbursement related to water and sanitation in the reporting year.	GDP in the year.	CDC/CRDB
Goal 7: Ensure access to affordable, reliable, sustainable and modern energy for all								
7.1 By 2030, Ensuring a reliable and affordable power supply.	7.1.1 Index of villages that have access to reliable and affordable electricity.	MME	MME NIS	Annually	Number of villages that have access to reliable, affordable electricity among total villages in Cambodia.	Number of villages that have access to reliable, affordable electricity up to the reported year.	The total villages in Cambodia in the year.	MME
	7.1.2 Proportion of Households that access to reliable and affordable electricity service.	MME	MME NIS	Annually	Number of Households with access to reliable and affordable electricity service among total Cambodian households.	Number of Households with access to reliable and affordable electricity service up to the reporting year.	Total Cambodian Households in the year.	MME

Table 1: Revised List of Targets and Indicators and related information by goal

Targets	Indicators	Responsible agencies	Source of data	Cycle of data	Definition	Method calculate		Remarks
						Nominators	Denominator	
7.2 By 2030, increase renewable energy development.	7.2.1 Index of renewable energy consumption.	MME	Administrative Data/MME	Annually	Total renewable energy in Cambodia among the total energy consumption from all sources.	Total renewable energy in Cambodia in the reported year.	Total energy consumption in the reported year.	MME
7.3 By 2030, double the rate of energy efficiency improvement.	7.3.1 Index of primary energy over GDP.	MME	Administrative Data/MME	Annually	The supply of total annual primary energy over the gross domestic product.	The total primary energy supply in the reporting year.	Gross domestic product in the reported year.	MME
Goal 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all								
8.1 Sustain economic growth in accordance with national circumstances and, in particular, at least 7 per cent gross domestic product growth per annum in Cambodia.	8.1.1 Annual growth rate of real GDP.	MOP MEF	MoP MEF	Annually	The total Gross Domestic Product in the year compared to Gross Domestic Product of previous year.	The Gross Domestic Product in the reported year.	Gross Domestic Product of the previous year.	MOP MEF
8.2 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors.	8.2.1 Growth rate of Business registrations.	MOC	Admin. Data MOC	Annually	Growth rate of company registrations for business legal transaction.	Subtraction of number of company registered in business registration transaction in the reported year and in the previous year.	Number of company registered in business registration transaction in the previous year.	MOC
	8.2.2 Growth rate of Trademark Registration.	MOC	Admin. Data MOC	Annually	Growth rate of Trademark Registration in order to get legal protection of intellectual property for company, producer and the related.	Subtraction of number of trademark registration in the reported year and in the previous year.	Number of trademark registration in previous year.	MOC
	8.2.3 Growth rate of export value by the issuance of Certificate of origin of goods.	MOC	Admin. Data MOC	Annually	Growth rate of export value by the issuance of Certificate of origin of goods.	Subtraction of export value by the issuance of Certificate of origin of goods in the reported year and in the previous year.	Export value by the issuance of Certificate of origin of goods in the previous year.	MOC
	8.2.4 Processing or development of products (Both goods and services) through all available means of the OVOP Concept.							
	8.2.4.1 All kinds of products both goods and services that have been processed or developed and have been included in OVOP Movement.	National Committee for OVOP Promotion and other relevant ministries	Administrative data of the National Committee for OVOP Promotion	Annually	All kinds of products (processing or developing products) produced by people of one or more villages up to the reporting year that reflect traditional and modern cultures representing the pride and	Total of all kinds of OVOP products produced that have been processed or developed that have been included in OVOP Movement in all 25 Capital and Provinces.		OVOP

						Nominators	Denominator	
		and institutions			prestige of their village. The products demonstrate the potential to be strengthened and expanded in terms of both quantity, quality and feature in creating value added for increasing people's incomes. The products must also be registered in the OVOP movement accepted by the National Committee for the Promotion of OVOP Movement.			
	8.2.4.2 Number of types products both goods and services that have been processed or developed with OVOP standard criteria.	National Committee for OVOP Promotion and other relevant ministries and institutions.	Administrative data of the National Committee for OVOP Promotion	Annually	All kinds of processing or developing products produced up to the reporting year that responded to the above definition of 8.2.4.1 that have been standardized (from low to high level) by the National Committee for the Promotion of OVOP Movement based on National Policy on Promotion of One Village One Product (OVOP) Movement	Total of all kinds of products (processing or developing) produced that have been measured in respect to OVOP standard criteria (from low to high) of all products that have been included in OVOP Movement in all 25 Capital and Provinces.		OVOP
8.3 Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services	8.3.1 Number of companies registered in the Cambodian Chamber of Commerce annually.	MOC	Admin. Data MOC	Annually	Number of Commercial companies registered in Cambodian Chamber of Commerce.	Number of Commercial companies registered in Cambodian Chamber of Commerce in the whole country in the reporting year.		MOC
	8.3.2 Number of businesses that got business permission letter at provincial level annually.	MOC	Admin. Data MOC	Annually	Number of businesses that have been operating by the permission from provincial level.	Number of businesses that have been operating the permission from provincial level in the reporting year.		MOC
	8.3.3 Number of Business association by the year.	MOC	Admin. Data MOC	Annually	Number of business groups in the same category or sector.	Number of business associations established in the whole country up to reporting year.		MOC
	8.3.4 Exported statistics under Preferential Trade System in Special Economic Zones annually.	MOC	Admin. Data MOC	Annually	Export value under preferential trade system in the special economic zone.	Export value under preferential trade system in the special economic zone up to the reported year.		MOC

Framework for Trade-related Technical Assistance.	8.a.2 Amount of budget for implement the projects in accordance with the program SWAP in trade sector.	MOC	Admin. data	Annually	Amount of budget for implement the projects in accordance with the program SWAP in trade sector.	Amount of budget in reported year for implement the project in accordance with the program SWAP in trade sector.		MOC
Goal 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation								
9.1 Develop quality, reliable, sustainable and resilient infrastructure, including regional and trans-border infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all.	9.1.1 Annual freight volumes of ports.	MPWT	MPWT	Annually	Freight volumes across ports in each year.	Freight volumes across ports in the reporting year.		MPWT
	Annual freight volumes of Sihanoukville Autonomous ports.	MPWT	MPWT	Annually	Freight volumes across the Sihanoukville Autonomous ports in each year.	Freight volumes across the Sihanoukville Autonomous ports in the reporting year.		MPWT
	Annual freight volumes of Phnom Penh Autonomous ports.	MPWT	MPWT	Annually	Freight volumes across the Phnom Penh Autonomous ports in each year.	Freight volumes across the Phnom Penh Autonomous ports in the reporting year.		MPWT
	9.1.2 Numbers of air passengers (Domestic and international).	SSCA	Administrative data of SSCA	Annually	The number of passengers arriving in Cambodia on domestic flights and international flights.	The number of passengers arriving in Cambodia on domestic flights and international flights in the reported year.		SSCA
	Numbers of air passengers (Domestic).	SSCA	Administrative data of SSCA	Annually	The number of passengers arriving in Cambodia on domestic flights.	The number of passengers arriving in Cambodia on domestic flights in the reported year.		SSCA
	Numbers of air passengers (international).	SSCA	Administrative data of SSCA	Annually	The number of passengers arriving in Cambodia on international flights.	The number of passengers arriving in Cambodia on international flights in the reported year.		SSCA
	9.1.3 Freight weight (domestic and international).	SSCA	Administrative data of SSCA	Annually	Quantity of freight through domestic and international flights.	Quantity of freight through domestic and international flights in the reported year.		SSCA
	Freight weight (domestic).	SSCA	Administrative data of SSCA	Annually	Quantity of freight through domestic flights.	Quantity of freight through domestic flights in the reported year.		SSCA
	Freight weight (international).	SSCA	Administrative data of SSCA	Annually	Quantity of freight through international flights.	Quantity of freight through international flights in the reported year.		SSCA
	9.1.4 Number of passengers and Freight weight by railway.							
	Freight weight by railway	MPWT	MPWT	Annually	Total volume of freight weight by railway.	Total volume of freight weight by railway in the reported year.		MPWT
	Number passengers travel by railway	MPWT	MPWT	Annually	Total passengers travel by railway.	Total passengers travel by railway in the reported year.		MPWT

Table 1: Revised List of Targets and Indicators and related information by goal

Targets	Indicators	Responsible agencies	Source of data	Cycle of data	Definition	Method calculate		Remarks
						Nominators	Denominator	
9.2 Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least development countries.	9.2.1 Number of Cambodian employees in manufacturing sector as a proportion to total employment within the country.	MISTI	Administrative data of MISTI	Annually	Proportion of Cambodian employees in manufacturing sector to the total employment within the country.	Number of Cambodian employees in manufacturing sector in the reporting year.	Total employment within the country in the reporting year.	MISTI
9.3 Increase the access of small-scale industrial and other enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets.	9.3.1 Total loans provided by Commercial banks and financial institutions to manufacturing sector in the country.	NBC	Admin. Data	Annually	Total loans provided by commercial banks and financial institutions to manufacturing sector.	Total loans provided by commercial banks and financial institutions to manufacturing sector in the reported year.		NBC
9.5 Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending	9.5.1 Research and development expenditure as a proportion of GDP.	The National Science, Technology, and Innovation Council (NSTIC)	National Survey on Research and Development (R&D)	5 years	Total (Intramural/Domestic) expenditure on R&D performed during a given period as proportion of GDP in the same period.	Total (Intramural/Domestic) expenditure on R&D performed in the reporting year.	GDP in the reported year.	GS-NSTIC/MISTI
9.a Facilitate sustainable and resilient infrastructure development in developing countries through enhanced financial, technological and technical support to African countries, least developed countries, landlocked developing countries and small island developing States.	9.a.1 Total official international support (official development assistance plus other official flows) to infrastructure.	CRDB/CDC	Cambodia ODA Database (OOF Validated from OECD CRS Database)	Annually	Total official international support (official development assistance plus other official flows to infrastructure) by year compare to annual GDP.	Total official international support (official development assistance plus other official flows to infrastructure) in the year	Total GDP in the year	CRDB/CDC
9.c Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet in Cambodia.	9.c.1 Proportion of population using internet service (Mobile and Fixed).	MPTC	Admin. Data MPTC	Annually	The number of users subscribed to internet service (mobile and fixed) in the country including using through mobile phone, tablet, Digital TV, and other electronic facilities that can connect to internet service among the total population.	Total number of users subscribed to internet service (mobile and fixed) in the whole country's mobile phone, tablet, Digital TV, and other electronic facilities that can connect to internet service in the reporting year.	Total Population in the reporting year.	MPTC

Table 1: Revised List of Targets and Indicators and related information by goal

Targets	Indicators	Responsibl e agencies	Source of data	Cycle of data	Definition	Method calculate		Remarks
						Nominators	Denominator	
Goal 10: Reduce inequality within and among countries								
10.1 By 2030, progressively achieve and sustain income growth of the bottom 40 per cent of the population at a rate higher than the national average.	10.1.1 Growth rates of household consumption per capita among the bottom 40 per cent of the population and the total population.	MOP	MOP (CSES)	Every 2 years	The everage household's consumption per person of the 40 per cent of the bottom consumption population in the year compared to the everage household's consumption per person of the 40 per cent of the bottom consumption population in the previous year.	the diference between the everage household's consumption per person of the 40 per cent of the bottom consumption population in the year and the everage household's consumption per person of the 40 per cent of the buottom consumption population in the previous year.	The everage household's consumption per person of the 40 per cent of the bottom consumption population in the previous year.	MOP
	1.1.2 Growth rates of household consumption per capita of the total population.	MOP	MOP (CSES)	Every 2 years	The everage household's consumption per person of the total population in the year compared to the household's consumption per person of the total population in the previous year.	the diference between the everage household's consumption per person of the total population in the year and the everage household's consumption per person of the total population in the previous year.	The everage household's consumption per person of the total population in the previous year.	MOP
10.2 By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status	10.2.1 Proportion of people living below 50 per cent of median consumption, by age, sex and persons with disabilities.	MOP	MOP (CSES)	Every 2 years	Number of Population living below 50 per cent of median consumption, by age, sex and persons with disabilities among total population in specific year.	Number of Population living below 50 per cent of median consumption, by age, sex and persons with disabilitie in the reportied year.	Number of total Population, by age, sex and persons with disabilitye in the reported year.	MOP
10.4 Adopt policies, especially fiscal, wage and social protection policies, and progressively achieve greater equality.	10.4.1 Civil servants retirees and Disabilities people.	MoSVY	NSSFC	Annually	Retired civil servant who received monthly benefit from the state according to their age over 55 years old and was in service for more than 20 years, civil servants who are invalid /not able to work any more because of their invalidity service more than 20 years and received monthly benefit from the state.	Number of retired persons and invalidities who are recorded by the Retirement Management and Victim Disability Management System by the reporting year.		MOSVY
10.5 Improve the regulation and monitoring of global financial	10.5.1 Financial Strength Indicators.

						Nominators	Denominator	
markets and institutions and strengthen the implementation of such regulations.	10.5.1.1 Integrity ratio	NBC	Admin. Data	Annually	Adequacy of capital of banking and financial institutions.	Net direct investment amount in the reporting year	Total asset value and off-balance sheet assets weighed by risk level	NBC
	10.5.1.2 Liquidity framework ratio.	NBC	Admin. Data	Annually	Acceptable liquidity asset versus expected cash flow over 30 days.	Acceptable liquidity asset in the reported year.	The expected cash flow over 30 days in the year.	NBC
10.a Implement the principle of special and differential treatment for developing countries, in particular least developed countries, in accordance with World Trade Organization agreements.	10.a.1 Numbers of annual International Agreement.	MOC	Admin. Data MOC	Annually	The activity for increasing Comparative superiority / Specialty of trading with foreigners.	Number of international trade agreements Which took place in the reporting year.		MOC
10.b Encourage official development assistance and financial flows, including foreign direct investment, to States where the need is greatest, in particular least developed countries, African countries, small island developing States and landlocked developing countries, in accordance with their national plans and programmes.	10.b.1. Total official development assistance for Cambodia.	CRDB/CDC	Cambodia ODA Database (OOF Validated from OECD CRS Database)	Annually	Total ODA disbursement for Cambodia by year.	Total ODA disbursement for Cambodia in the year.		CRDB/CDC
Goal 11: Make cities and human settlements inclusive, safe, resilient and sustainable								
11.4 Strengthen efforts to protect and safeguard the world's cultural and natural heritage.	11.4.1 Number of ancient structures repaired and preserved.	MCFA	MCFA	Annually	Number of ancient structures (ancient temples, ancient bridges, ancient temples, ancient roads, ancient ponds, ancient shrines and other ancient structures) that were repaired and preserved in a particular year.	Number of ancient structures (ancient temples, ancient bridges, ancient temples, ancient roads, ancient ponds, ancient shrines and other ancient structures) that were repaired and preserved in reported year.		MCFA
11.6 By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management.	11.6.1 Percentage of capital, municipality, and urban solid waste regularly collected and with adequate final discharge.	MOE	MOE Capital, municipalities, and city MISTI	Annually	Amount of capital, municipality, and urban solid waste regularly collected and with adequate final discharge among the total solid waste created by capital, municipality, and urban population.	Amount of capital, municipality, and urban solid waste regularly collected and with adequate final discharge in the reporting year.	Total solid waste created by capital, municipality, and urban population in reported year.	MOE
	11.6.2 Annual average level of PM2.5 parameters (Quantitative level of	MOE	MOE SNA	Annually	Annual average of inert particles in PM2.5 air monitored at air quality	Annual average of PM2.5 inert particles by target provinces.	Total population in target provinces	MOE

Table 1: Revised List of Targets and Indicators and related information by goal

						Nominators	Denominator	
	exposure to PM2.5 inert particles per person).				monitoring stations through the installation of automation equipment.			
Goal 12: Ensure sustainable consumption and production patterns								
12.4 Achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water, and soil in order to minimize their adverse impacts on human health and the environment.	12.4.1 The number of international conventions relating to chemicals and wastes that have been signed or ratified and have fulfilled the obligations set out in each convention.	MoE MAFF	MoE MAFF	Annually	Number of international conventions relating to chemicals and residues to which Cambodia has signed or ratified the Basel Convention, the Rotterdam Convention, the Stockholm Convention, the Montreal Protocol and the Minamata Convention.	The number of points that Cambodia earns in fulfilling its obligation to report each Convention to the Convention Secretariat.	The total number of reporting points required by each convention.	MOE MAFF
	12.4.2 Percentage of effectiveness management of hazardous waste	MoE	MoE	Annually	Proportion of hazardous waste collected from pollution sources to be processed, treated and stored in a safe place.	The amount of hazardous waste collected for processing, processing and storage to a safe place.	The total amount of hazardous waste generated from all sources of pollution.	MOE
Goal 13: Take urgent action to combat climate change and its impacts								
13.1 Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries.	13.1.1 Percentage of communes vulnerable to climate change.	MoE MoI	CDB	Every 5 years	Number of vulnerable communes/sangkats to climate change compared to total communes/sangkats.	Number of communes/sangkats with Vulnerable Index values above the mean (-0.487) in reported year.	Total number communes/sangkats in reported year.	MOE
13.2 Integrate climate change responded measures into national policies, strategies and planning.	13.2.1 Percentage of Green-House Gas emission through reduced activities when comparing to the projection (scenario) of usual gas emission.	MOE/ NCSD	2 nd National report and monitoring report in every 2 years	Every 2 years	Proportion of Green House Gas reduced through reduction activities in industries of power, production, transportation, and other sectors (power efficiency bio-gas, water consumption, and renewable energy for irrigation system and sun power) when comparing the estimation of Green-House Gas Emission in these sectors under the usual projection (Scenario) in Cambodia that indicated as percentage of the Green-House Gas emission.	Volume of Green-House Gas Emission have been stored through activities of related sectors	Estimation of Green-House Gas from related sectors of the usual projection (Scenario) /(By no policy and measure for reduction)	MOE

Table 1: Revised List of Targets and Indicators and related information by goal

Targets	Indicators	Responsible agencies	Source of data	Cycle of data	Definition	Method calculate		Remarks
						Nominators	Denominator	
	13.2.2 The public expenditure for climate change.	MOE/ GSSD	Climate Public Expenditure Report (CPER) MEF	Annually	Proportion of financial domestic resources (national budget) and external resources (DPs funding) spent on climate change in Cambodia disaggregated by key CC sensitive sectors: MoWRAM, MPWT, MRD, MAFF, and MoH, expressed as percentage of the Gross Domestic Product (GDP).	Financial domestic (national budget) and external resources (DP funds) spent on climate change in Cambodia in reported year.	Gross Domestic Product in reported year.	MOE
13.3 Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning.	13.3.1 Intitution level that prepared for response to Climate Change indicated as percentage of institutional capacities mainstreamed on 5 components of Climate Change	MOE NCSD	Report and M&E indicators on national climate change (NCSD)	Every 2 years	Capacity level of national institutions for response to CC indicated as percentage of institutional capcity expected for the CC's 5 components (Policies & Strategies, planning, information sharing, financing)	Number (weighting) of core- plan achieved and partly achieved on indicators (points) of the 5 components	Total number (Heighest score as appropriate of the achievable plan for achieving the indicators (points) in the 5 components	MOE
	13.3.2 Percentage of households (farming, animal raising, fish raising, and fishing) and local community forestry members participated workshops and received training on climate change.	MOE MAFF	Administrative Data /MAFF NCSD	Annually	Number of households (farming, animal raising, fish raising, and fishing) and local community forestry members participated the workshops and received training on climate change among the total number of above mentioned households in specific timeframe.	Numbers of households (farming, animal raising, fish raising, and fishing) and local community members (forestry) participated the workshops and received training on climate change by the reporting year.	Total number of households (farming, animal raising, fish raising, and fishing) and local community members by the reporting year.	MOE
Goal 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development								
14.1 By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution.	14.1.1 Percentage of the reduction of the sea pollution by the conservation activities.	MoE	MoE	Annually	Sea Poluted reduced through maritime conservation activities against total seawater pollution.	Total seawater pollution reduced in the year through maritime conservation activities.	Total seawater pollution in the year.	MOE
	14.1.2 Percentage of the reduction of the sea pollution through solid waste management activities in the four coastal provinces.	MoE	MoE	Annually	Total solid waste collected in the four coastal provinces among the total solid waste in the four coastal provinces.	Total solid waste collected in the four coastal provinces in the year.	Total solid waste in the four coastal provinces in the reported year.	MOE
	14.1.3 Percentage of the reduction of the sea pollution through waste	MoE	MoE MPWT MISTI	Annually	Total waste water cleaned in the four coastal provinces among the total waste water in the four coastal provinces.	Total waste water cleaned in the four coastal provinces in the	Total waste water in the four coastal provinces in the reported year.	MOE

Targets	Indicators	Unit	Baseline (2015)	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030
	raising, fish raising, and fishing) and local community forestry members participated workshops and received training on climate change		(2016)															
Goal 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development																		
14.1 By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution	14.1.1 Percentage of the reduction of the sea pollution by the conservation activities.	%	40.0	40.0	40.0	40.0	40.0	50.0	50.0	50.0	50.0	60.0	60.0	60.0	60.0	60.0	70.0	70.0
	14.1.2 Percentage of the reduction of the sea pollution through solid waste management activities in the four coastal provinces.	%	10.0	10.0	10.0	20.0	20.0	22.0	25.0	30.0	32.0	35.0	37.0	40.0	45.0	50.0	60.0	70.0
	14.1.3 Percentage of the reduction of the sea pollution through waste water management in the four coastal provinces.	%	10.0	10.0	10.0	20.0	30.0	32.0	33.0	33.0	35.0	35.0	38.0	39.0	40.0	42.0	45.0	50.0
14.2 By 2020, sustainably manage and protect marine coastal and freshwater ecosystems to avoid significant adverse impacts, including by strengthening their resilience, and take action for their restoration in order to achieve healthy and productive oceans and freshwater ecosystems.	14.2.1 Key ecosystem function and service of marine and coast areas maintained and restore as necessary.	%	50 (2017)	50	50	50	50	55	55	55	60	60	60	65	65	65	65	70
	14.2.2 Percentage of degraded flooded forests and mangrove forests (ha) that has been replanted and protected.	%	7.0 (2016)	7.0	10.0	15.0	20.0	25.0	30.0	35.0	40.0	45.0	50.0	55.0	60.0	65.0	70.0	75.0
14.5 Conserve at least 10 per cent of coastal and marine areas, consistent with national and international law and based on the best available scientific information	14.5.1 Percentage of coverage of marine and inland fisheries conservation protected areas.	%	20.0 (2016)	20.0	25.0	30.0	35.0	40.0	45.0	50.0	55.0	60.0	65.0	70.0	75.0	80.0	85.0	90.0

Table2: Based line & Target Revised of Indicators of CSDGs

Targets	Indicators	Unit	Baseline (2015)	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030
14.7 By 2030, increase the economic benefits to small island developing States and least developed countries from the sustainable use of marine resources, including through sustainable management of fisheries, aquaculture and tourism	14.7.1 Value of fisheries and aquaculture productions as a percentage of GDP.	%	7.5 (2016)	7.5	7.6	7.7	7.8	7.9	8.0	8.1	8.2	8.3	8.4	8.5	8.5	8.5	8.5	8.5
14.b Provide access for small-scale artisanal fishers to marine resources and markets	14.b.1 Percentage of marine resources which small-scale fisheries farmers harvested and sold in a stable market.	%	70 (2016)	70	70	70	70	70	70	70	70	70	70	70	70	70	70	70
Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss																		
15.1 Ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and drylands, in line with obligations under international agreements	15.1.1 Forest area as a percentage of total land area.	%	48.8 (2016)	48.8		46.8				47.0				47.5				48.0
	15.1.2 Percentage of important sites for terrestrial and freshwater biodiversity that are covered by protected areas and fisheries conservation areas-protected by law.	%	10.0 (2016)	10.0	12.0	15.0	17.0	20.0	25.0	21.0	22.0	25.0	28.0	30.0	32.0	34.0	36.0	40.0
	15.1.3 Forest areas and ecosystems sustainably utilized.	Ha	50.0 (2016)	50.0				90.0				130.0				170.0		190.0
15.2 Promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally	15.2.1 Percentage of sustainable forest protection and management.	%	40.0 (2017)		40.0	45.0	45.0	60.0	60.0	60.0	60.0	60.0	60.0	60.0	60.0	60.0	60.0	60.0

Table2: Based line & Target Revised of Indicators of CSDGs

Targets	Indicators	Unit	Baseline (2015)	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030
15.3 By 2030, combat desertification, restore degraded land and soil, including land affected by desertification, drought and floods, and strive to achieve a land degradation-neutral world	15.3.1 Area of forest landscape restoration for areas affected by desertification, drought and floods.	1000 ha	20.0 (2016)	20.0				24.0				28.0				32.0		34.0
15.5 Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species	15.5.1 Number of action plans for conservation of rare and endangered species of fauna and flora developed and implemented.	Number	1 (2016)	1	4	7	10	13	16	19	22	25	28	31	34	37	40	43
15.7 Take urgent action to end poaching and trafficking of protected species of flora and fauna and address both demand and supply of illegal wildlife products	15.7.1 Number of cases of illegal poaching and trafficking of flora and fauna decreased.	cases	1,600 (2016)	1,600	1,550	1,500	1,450	1,400	1,350	1,300	1,250	1,200	1,150	1,100	1,050	1,000	950	900
15.9 Integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts	15.9.2 Number of policies, strategies and regulations on ecosystem services is established and implemented.	Number Of Policies						2		3		4		5				10
15.b Mobilize significant resources from all sources and at all levels to finance sustainable forest management and provide adequate incentives to developing countries to advance such management, including for conservation and reforestation.	15.b.1 Official development assistance for conservation and sustainable use of biodiversity and ecosystems.	% of GDP	0.038 (2016)	0.038	0.036	0.036	0.031	0.029	0.028	0.026	0.024	0.023	0.021	0.020	0.019	0.018	0.017	0.016

Table2: Based line & Target Revised of Indicators of CSDGs

Targets	Indicators	Unit	Baseline (2015)	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030
Goal 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels																		
16.2 End abuse, exploitation, trafficking and all forms of violence against and torture of children.	16.2.1 Proportion of Cambodian children aged 1-17 years who experienced any physical punishment by caregivers in the past Month.	%																
	Girls	%	61,1						59,0					56,0				53,0
	Boys	%	58,2						56,0					53,0				50,0
	16.2.2 Proportion of children aged 1-17 years who experienced any psychological aggression by caregivers in the past Month.	%																
	Girls	%	24,3						22,0					19,0				16,0
	Boys	%	27,3						25,0					22,0				19,0
16.3 Promote the rule of law at the national and international levels and ensure equal access to justice for all.	16.3.1 Proportion of people involved in disseminating laws.	in 100,000 person	1.48	3.71	3.74	3.77	3.82	3.82	3.85	3.88	3.91	3.94	4.00	4.00	4.05	4.08	4.11	4.14
16.7 Ensure responsive, inclusive, participatory and representative decision-making at all levels.	16.7.1 Proportion of female government Officials in Ministries-agencies.	%	36.0	37.0	38.0	39.0	40.0	41.0	42.0	43.0	44.0	45.0	46.0	46.0	48.0	49.0	50.0	50.0
16.9 By 2030, provide legal identity for all, including birth registration.	16.9.1 percentage of birth have birth registered and receive birth certificate (By 2024, at least 90%)	%										90.0	90.0	92.0	92.0	94.0	94.0	95.0
Goal 17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development																		
Finance																		
17.3 Mobilize additional financial resources from multiple sources	17.3.1 Official development assistance as percentage of GDP.	%	7.353 (2016)	7.35	6.87	6.42	6.00	5.61	5.26	4.94	4.64	4.36	4.09	3.82	3.59	3.38	3.19	3.03

for developing countries.		of GDP																
Technology																		
17.6 Enhance North-South, South-South and triangular, regional, and international cooperation on access to science, technology and innovation and enhance knowledge-sharing on mutually agreed terms, through improved coordination among existing mechanisms, in particular at the United Nations level, and through a global technology facilitation mechanism.	17.6.1 Percentage of population connect to Fixed Internet broadband subscriptions (speed ≥ 2 Mbps).	%	0.54	0.62	0.86	0.94	1.35	1.33	1.51	1.71	1.95	2.21	2.52	2.87	3.26	3.72	4.23	4.83
17.8 Fully operationalize the technology bank and science, technology and innovation capacity-building mechanism for least developed countries by 2027 and enhance the use of enabling technology, in particular information and communications technology.	17.8.1 Proportion of population using telephone service.																	
	Mobiled	%	135.3	127.4	117.2	120.8	133.1	126.2	127.7	129.3	130.9	132.6	134.5	135.7	137.1	138.5	139.9	141.4
	Fixed	%	1.66	1.45	0.84	0.55	0.35	0.30	0.27	0.25	0.23	0.21	0.20	0.18	0.17	0.16	0.15	0.14
Capacity-building																		
17.9 Enhance international support for implementing effective and targeted capacity-building in developing countries to	17.9.1 Total financial and technical assistance (including through North-South, South-South and triangular cooperation) committed to Cambodia.	% of GDP	1.31 (2016)	1.31	1.23	1.15	1.07	1.00	0.94	0.60	0.55	0.50	0.45	0.40	0.36	0.33	0.32	0.30

Table2: Based line & Target Revised of Indicators of CSDGs

Targets	Indicators	Unit	Baseline (2015)	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030
support national plans to implement all the Sustainable Development Goals, including through North-South, South-South and triangular cooperation.	17.9.2 Amount of financial assistance to Economic and Development Policy/Planning (as % of GDP) committed to Cambodia.	% of GDP	0.03 (2016)	0.03	0.02	0.02	0.02	0.02	0.02	0.02	0.01	0.01	0.01	0.01	0.01	0.01	0.01	0.01
Trade																		
17.10 Promote a universal, rules-based, open, non-discriminatory and equitable multilateral trading system under the World Trade Organization, including through the conclusion of negotiations under its Doha Development Agenda.	17.10.1 The number of commercial legal norms and standards set up annually to facilitate local investors and investors in trading.	Number	4	9	14	18	23	27	31	35	39	43	47	51	55	59	63	67
Policy and Institutional Coherence																		
17.15 Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development	17.15.1 Extent of use of country-owned results frameworks and planning tools by providers of development cooperation	%	64.0	64.0	64.0	64.0	68.0	72.0	75.0	77.0	80.0	80.0	80.0	80.0	80.0	80.0	80.0	80.0
Multi-stakeholder partnerships																		
17.17 Encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships.	17.17.1 Amount of Financial assistant committed to civil society partnerships (as % of GDP).	% of GDP	0.01	0.01	0.01	0.01	0.01	0.01	0.01	0.009	0.009	0.008	0.008	0.007	0.007	0.006	0.006	0.006
Data, Monitoring, and Accountability																		
17.18 By 2020, enhance capacity-	17.18.1 Proportion of sustainable development	Indicator	94	94	94	94	94	94	94									

Table2: Based line & Target Revised of Indicators of CSDGs

Targets	Indicators	Unit	Baseline (2015)	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2028	2029	2030
building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts.	indicators produced at the national level with full disaggregation when relevant to the target, in accordance with the Fundamental Principles of Official Statistics.																	
	17.18.2 Proportion of budget expenditure for implementation the National Strategy for the Development of Statistic (NSDS).	%	0.2					0.7					1.5					2.0
17.19 By 2030, build on existing initiatives to develop measurement of progress on sustainable development that complement gross domestic product, and support statistical capacity-building in developing countries	17.19.1 Population Census in every 10 years.	Number of time	1 (2019)				1										1	
Goal 18: End the negative impact of Mine/ERW and promote victim assistance																		
18.1 To completely clear the identified mine and ERW areas by the year 2030	18.1.1 The total areas has cleared mine and Explosive remnants of war (ERW) per year.	ha	18,531	14,211	16,292	13,167	13,008	15,761	16,549	17,377	18,245	19,158	20,115	21,121	22,177	23,286	24,450	25,673
18.2 To reduce number of mine / ERW casualties to less than 10 persons/year by 2030.	18.2.1 The number of mine / ERW casualties (killed and injured annually).	person	111	83	58	58	77	65	59	53	48	43	39	35	32	29	26	23
	18.2.2 The number of villages contaminated by mines / ERW to receive Mine Risk Education messages.	Village	300	964	1,451	1,423	1,620	1,524	1,500	1,500	1,500	1,500	1,500	1,000	1,000	1,000	1,000	1,000
