Renaissance Minerals (Cambodia) Limited

First movers on the Cambodian Frontier

Renaissance Minerals (Cambodia) Limited is dedicated to the exploration, development and operation of the 100% owned Cambodian Gold Project.

The company is 100% owned by Emerald Resources NL, an ASX-listed company established with international capital.

Okvau Gold Project

In May 2017, the company completed a Definitive Feasibility Study (DFS) on the development of a 2.0Mtpa operation at its Okvau Gold Deposit located in the Mondulkiri province of eastern Cambodia. The DFS was completed to +/-15% level of accuracy. This was updated on 26 November 2019.

- DFS delivers initial Ore Reserve of 14.3Mt @ 2.0g/t Au for 907,000oz at an average AISC of US\$754/oz over an initial 7 year Life-of-Mine (LOM) operating period;
- DFS is based on a 2.0Mtpa plant to produce approximately 106,000oz pa average over the initial operating LOM of 7 years;
- An updated Mineral Resource estimate of 17.7Mt @ 2.0g/t Au for 1.14Moz (at 0.7g/t cut-off) with 1.01Moz as Indicated and
