Official Announcement

On

The Launch of the CDC Investment Project Management (cdcIPM)

The Council for the Development of Cambodia (CDC) is pleased to announce to the public, national and international investors, and all media outlets that we have been working tirelessly to attract investment to Cambodia. This effort aims to create job opportunities for Cambodian citizens, stimulate national economic growth, and support the nation's vision of becoming a high-income country by 2050 under the wise leadership of **Samdech Moha Borvor Thipadei Hun Manet**, Prime Minister of the Kingdom of Cambodia and Chairman of the Council for the Development of Cambodia.

To enhance the implementation of the **Law on Investment of the Kingdom of Cambodia** and to support the **Pentagon Strategy Phase 1**, the CDC, under the direct guidance of **His Excellency Sun Chanthol**, Deputy Prime Minister and First Vice-Chairman of the Council for the Development of Cambodia, has developed the **CDC Investment Project Management (cdcIPM)**. The **cdcIPM** provides investors with the ability to apply for investment projects anytime and anywhere. This innovative platform streamlines the investment process, save times, and ensures transparency, security, and efficiency. Furthermore, it contributes significantly to building a digital economy and society, and a digital government in Cambodia.

Following a successful pilot phase conducted over the last quarter, which focused on registering Qualified Investment Projects (QIP), the CDC is proud to officially launch the **cdcIPM**. This platform is now open publicly available for investor seeking to register their investment projects in the Kingdom of Cambodia.

The CDC encourages the public, national and international investors, and all media outlets to actively promote the **cdcIPM** and its advantages to foster broader participation and investment opportunities in Cambodia.
