

Mekong Infrastructure Tracker Dashboard

Query and collect summary information about infrastructure projects in the Mekong region.

May 25, 2020 3:46 pm

The Mekong Infrastructure Tracker database builds on existing data to present a comprehensive source of information on energy, transportation, and water infrastructure in the Mekong countries.

PROJECT
Part of the [Mekong Infrastructure Tracker Project](#)

PROGRAM
[Southeast Asia](#)

SUPPORTED BY

USAID
FROM THE AMERICAN PEOPLE

The Asia Foundation

The Tracker is hosted by the Stimson Center and supported by the USAID Mekong Safeguards activity, which is implemented by The Asia Foundation

Stimson Ethics, Independence, and Integrity Policies

COVID-19 Notice: To protect the health of our team and our community, Stimson Center staff are working remotely. The Stimson office is closed to all visitors. All public events are now online. Staff remain available via email, phone, and video conference. During this time, the Stimson Center will continue its important work, informing policymakers and the public — here, on social media, and via email.
